

JRN 101-103

SUPPLEMENT TO “KNOW YOUR NEIGHBORHOOD” LECTURE

We have recorded a 10-minute video to help you prepare you for recitation, where you’ll be asked to describe the difference between information that’s reliable journalism and information that is not.

Paste this link into your browser to launch the “Echo” player, which will provide you video and the accompanying slides simultaneously. If you’re distracted by the sight of the old bald gent, you can shut off the video and just hear the audio while focusing on the slides.
