We, the staff of the 1978 SPECULA, would like to dedicate this yearbook and all our efforts to the Undergraduate student body.

WE HAVEN'T FORGOTTEN YOU!!!

The life here at Stony Brook isn't always easy for undergraduates because sometimes living in the dorms can be equated with living in a zoo . . .

because sometimes there are many other things you would rather do than write a paper or make organic structural models . . .

because sometimes a professor is not as understanding as you would hope him/her to be . . .

because commuting can be a drag when it downpours till the point of flooding the campus and when you return to your car in the faculty engineering parking lot it has been towed away . . .

because sometimes things here at Stony Brook always seem to be against the undergraduates!

BUT . . .

You all make it through and most often regret leaving because you spent some of the best years here and friends you have made make it all seem worthwhile. We hope this yearbook will keep those memories of the good things preserved!

Sociology Forum

The Sociology Forum was established five years ago to provide academic and social activities for Stony Brook undergraduates interested in the field of sociology.

The organization has grown tremendously within this time and has had considerable success in scheduling events of interest to the campus community on a bi-weekly basis.

This year's executive officers were: Sandi Brooks, President; Lori Adler, Secretary; Alan Johnson, Treasurer; Jennifer Lopez, Senior Peer Counselor; Debi Sherman, Publicity Chairperson; and Robert Townley, Steering Committee Chairperson.

THE BRIDGE

The famous (infamous?) Stony Brook "Bridge to Nowhere" is finally going somewhere. The Bridge was started in the late sixties as part of the Stony Brook Union Building project. It was to link the Union and nearby residence hall areas with the center of the campus via a connection with either the Library or Fine Arts Center mall, both of which were scheduled for immediate construction at that time. However, funding problems delayed the connection, and for nearly a decade the Bridge has stood as a symbol of incomplete campus construction. Now, with the campus taking final form, the Bridge, appropriately, is being completed.

Stony Brook

Dear Graduates of the Class of 1978:

This edition of the *Specula*, which documents your years at Stony Brook, will help you to remember friends, teachers, and events that shaped your life at the University. You will recall the many difficulties of adjusting to life on an incomplete campus. Some day, however, when the academic program is fully-developed and the campus is beautifully completed and landscaped, you will take out this book to show people what Stony Brook was like in your pioneering days. I hope that you will remember this time fondly and will appreciate that you helped to develop a great university. At the same time the University was helping you to define your own goals of life and of service to others and to reflect your own intellectual and creative abilities.

You have seen important changes during your tenure here, including the creation of new academic programs and facilities. Your sophomore year saw the graduation of the first class in the undergraduate program of the W. Averell Harriman College of Urban and Policy Sciences. Your junior year saw the graduation of Stony Brook's first classes in Dental Medicine and in our Nurse Practitioner Program. Your senior year saw both the completion of a new Fine Arts Facility, which we hope will ultimately serve as a cultural center for all of Long Island, and the final State approval for new doctoral programs in music. We hope that you will be able to take equal pride in the University's future growth and development.

You will always be a part of this University. Even though you have completed your undergraduate studies here, we should still keep in touch with each other through our Alumni Association. I encourage you to participate fully in the Association's activities and to maintain the friendships that you have developed here among the University's faculty and staff and among your fellow students.

All of us at Stony Brook wish you success and happiness in your future careers; a major test of any educational institution is in the services and excellence of its graduates. We will take great pride in your achievements.

With best wishes,

John S. Toll

The SPECULA staff apologizes to those seniors' portraits which were printed out of sequence.

A black and white photograph of a pond. In the foreground, a tree with dense blossoms (likely cherry blossoms) is on the left. A duck is visible near the base of the tree. The pond occupies the right and center of the image, with ripples on its surface. In the background, a multi-story building with windows is visible. The overall scene is peaceful and natural.

A pebble gently ripples the water
as I reflect upon the shadows,
and seek those which I recognize.
White duckling feathers
float along the edges,
disturbing not the tranquility
as I await the blossoms of spring.
Warm rays of sun
embrace me with love
encouraging my growth
as trees flaunt their cloaking,
and flowers masquerade as rainbows.
Reflections capture my inner soul—
with innocence and pride
personified by nature.
Maturity evolves within me
as the seasons of the year,
and I feel nature carefully guiding me—
I am her fragile creation.
I shiver in the autumn
as trees bare their limbs
and yield to the cold of night
with placid contentment.
Flurries fill the skies
as doves flying freely,
and winter introduces
newly found innocence and serenity.
The icy pond
ripples no longer,
yet mirrors my true self.
A reflection of life's seasons
with nature's gentle touch;
I will miss you when I go.
