Specula Yearbook 1995

The State University of New York at Stony Brook- We have seen these words all over campus, on our buildings, our brochures, our schedules and even our notebooks. These were the words we used to recognize ourselves; to distinguish ourselves from others. These words were our identity for four years. We chose to stay at Stony Brook and be a part of its history. Now, we have moved on, all we have left is that little piece of paper called a diploma and our memories. The 1995 Specula Yearbook is a serious effort by many dedicated individuals to capture some of those memories and preserve them, so that we may share them with others.

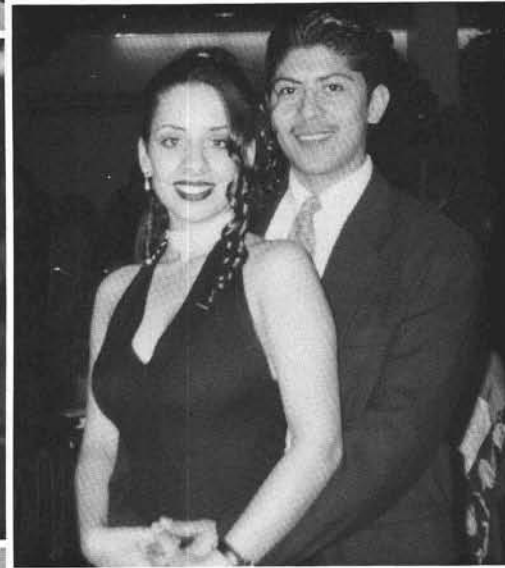

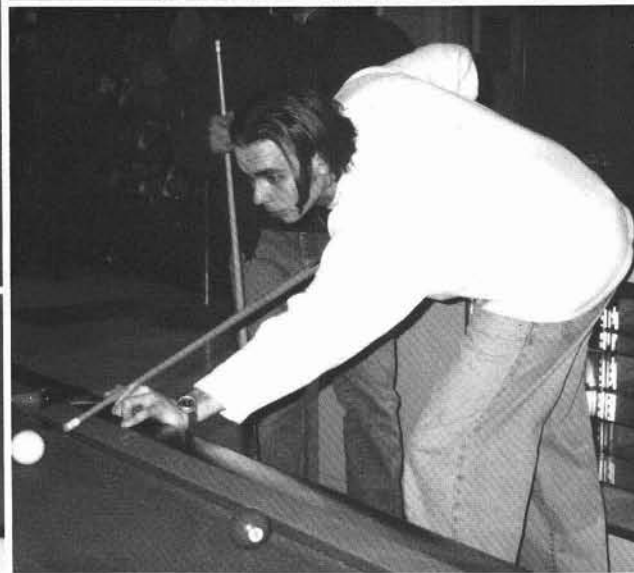

In our senior year, we saw the advent of the Seawolves and the arrival of our new president, Dr. Shirley Strum Kenny. We learned to deal with the on-going construction around the campus, the Co-generation plant, the new Student Union, and the re-opening of the Roth Quad Residence Halls. We found a new cubic logo in the place of our beloved 'stones in the brook' seal. Despite all the changes, life at Stony Brook went on. We stumbled here and there, but with support from our friends and our families we made it to commencement. Congratulations to us, the Class of 1995!

Getting back to the Yearbook, The 1995 Specula would not have been possible without the effort of the entire Yearbook staff and many other significant individuals. Among those responsible were Carl Miller, our Josten's Representative, Christine Grilli & Bill Welters from Empire Studios, our photography liaisons. Our new Polity Executive Director, Stephen Adams, the Student Polity Officers, Staff and especially Irene, Carol and Barbara, were all essential to this publication. Special thanks to our Media Advisor, Norm Prusslin, and the rest of the SU & A Staff, including Carol Friedman and Millie. Currents Editor Gila Reinstein and Sports Information Director Ken Alber also deserve much praise. Finally, Mary Shear, for without her, we would still be trying to find our office.

Harry Kordoleon's plays include *Zero Positive* and *The Little Book of Truants* (L&H). They are noted for the seemingly surrealistic, satirical, like elements (and characters) which co-exist in a peculiar illogicality that engenders an ironically laudatory atmosphere. Kordoleon, however, explains his plays as "absolutely, totally realistic... I mean them to be deadily serious." He died of AIDS on March 16, 1994.

Playwright Richard Nelson has placed a microscope upon the timeless and poignant themes of Anton Chekhov's masterpiece of the same title. In condensing the conflict that arises between the two brothers in this play, the current of a chess match emerges, with each character moving in turn. As opposing but equally powerful knights, each brother simultaneously protects his mother's memory and attacks the ground upon which the other stands. Each moves cautiously and steadfastly towards the other, while the women, as bishops, attempt to resolve the conflict through cross-cutting mediation.

The *Family Continues* was first presented in New York in May 1992 by the Circle Rep Theatre Company. The most remarkable trait of the play is the constant exchange of actors throughout the play, save Steve, played by one actor. In the meantime, Brechtian dramaturgy plays a very influential role in this production; the narrator, the bare stage,

Lighting Designer	Richard Dunham
Costume Designer	Stephanie Hughes
Stage Manager	Tracy Biggerstaff
Taryn Estrada (Woman)	Tracy Biggerstaff

The projection of emotions of a person into objects to them is the basis of similar characteristics of the person who is projecting onto them is the basis of expressionism and the approach used in this production. Characterized as one of Williams' later plays and most likely a foreshadowing of the play *View From the Bridge*, the director has chosen to orient all the design elements within this production to operate from one character's perception of the world. Within all of the plays, both for his characters and his audiences, Tennessee Williams affirmed recognition as the step towards redemption. This approach and this production expresses that deeply held belief in all of our possibilities for realizing salvation.

Medusa's Tale

by Carol S. Lashof

Director	Tracy Biggerstaff
Set Designer	Laura Hernandez, Anthony Sciorino
Lighting Designer	Richard Dunham
Costume Designer	Walter Oehm, Carrie Thomas, Lillian Yu
Stage Manager	Holly Demetrio
Sandro Camarao (Poseidon)	Stephanie Hughes
Roseann Hundertmark (Medusa)	Katie Lee (Girl, Zeus)
Taryn Estrada (Albina)	

Carol S. Lashof's *Medusa's Tale* is a multi-layered exploration of myth that uses comic and tragic episodes to question conventional notions of heroism and women's roles in society. The play deconstructs the popular conception of Medusa as hideous monster, offering instead a woman who is victimized both by societal norms and her own youthful idealism. Director Tracy Biggerstaff has incorporated music and expressionistic lighting techniques to highlight Medusa's pain and isolation, which are seen in the distorted and exaggerated movements of the other characters. A profound sense of irony is created as the performance shifts between these disturbing memories and the reminiscences of the older and wiser Medusa.

Jason Quinlan, Dramaturg

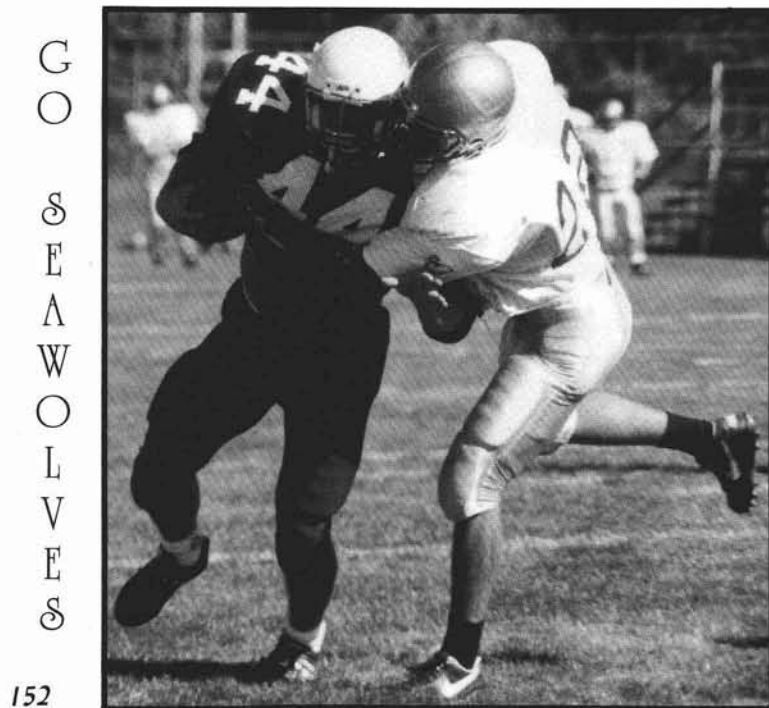

Special thanks to Dr. David Saltz for the voiceovers.

The Directing II Class would like to thank John Cameron whom these productions would not be possible.

The April 27th performance is in celebration of Shirley Stum Kenny's inauguration as the fourth President of SUNY at Stony Brook.

The *Family Continues*, *Linda Her* and *Talk To Me Like the Rain And Let Me Listen...* are produced by special arrangement with Dramatists Play Service, Inc.

PRESIDENT SHIRLEY STRUM-KENNY

INAUGURATION 1995!!

SHIRLEY STRUM KENNY

Shirley Strum Kenny assumed the Presidency of the University at Stony Brook on September 1, 1994. President Kenny has had a distinguished career in teaching and research as well as administrative leadership. Prior to her appointment as President of Stony Brook, Kenny was President of Queens College of the City University of New York for nine years. She is the first woman to be named to the Stony Brook presidency and the first non-physicist to assume the position.

One of President Kenny's major goals for Stony Brook is the enhancement of undergraduate education within a research university. She will soon convene a national commission to create a new model of undergraduate education for major research universities. She is also committed to involving the University in community affairs and strengthening the economic development on Long Island through medical and bio-technological advancement.

She serves as a member of the boards of the Carnegie Foundation for the Advancement of Teaching, the Association of American Colleges and Universities, Toys "Я" Us, Computer Associates, the Chemical Bank Regional Advisory Board and Goodwill Industries of Greater New York. She has previously served as vice chair of the Maryland Humanities Council, chair of the Folger Shakespeare Library Institute Central Executive Committee, and steering committee member of the executive board of the American Society for Eighteenth-Century Studies.

She has published five books and numerous articles on Restoration and eighteenth-century British drama. Her two-volume scholarly edition of *The Works of George Farquhar* was published by Oxford University Press, and she is now editing *The Plays of George Etherege* for the same press.

President Kenny received a bachelor of journalism and a B.A. in English from the University of Texas; M.A. from the University of Minnesota; Ph.D. from the University of Chicago; and an honorary doctorate from the University of Rochester. She has been honored as Outstanding Woman of the University of Maryland, Outstanding Alumnus of the University of Chicago, and Outstanding Alumnus of the College of Communications at the University of Texas. She is married to Robert W. Kenny. They have five children and three grandchildren.

PAST PRESIDENTS

JOHN F. LEE (1961)

John Francis Lee served as the institution's first president, when it was still the State University Long Island Center at Oyster Bay. Previously, he had been appointed Broughton Distinguished Professor at North Carolina State College, and had served on the faculty of the University of Maine. He was a physicist interested in the study of thermodynamics.

JOHN S. TOLL (1965-78)

John Toll presided over a period of tremendous growth for the new State University at Stony Brook. After his 13-year tenure here, he became president and later chancellor of the University of Maryland. He is now acting president of Washington College in Chestertown, Maryland, and is chancellor emeritus and professor of physics at the University of Maryland. From 1989 to 1994 he was president of the Universities Research Association, an organization of 80 research universities. He received a B.S. in physics with highest honors from Yale University and the Ph.D. in physics at Princeton University.

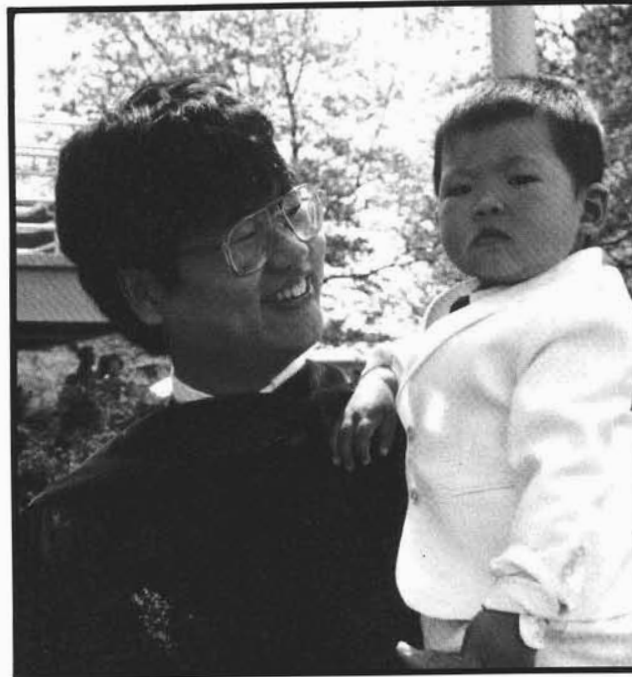

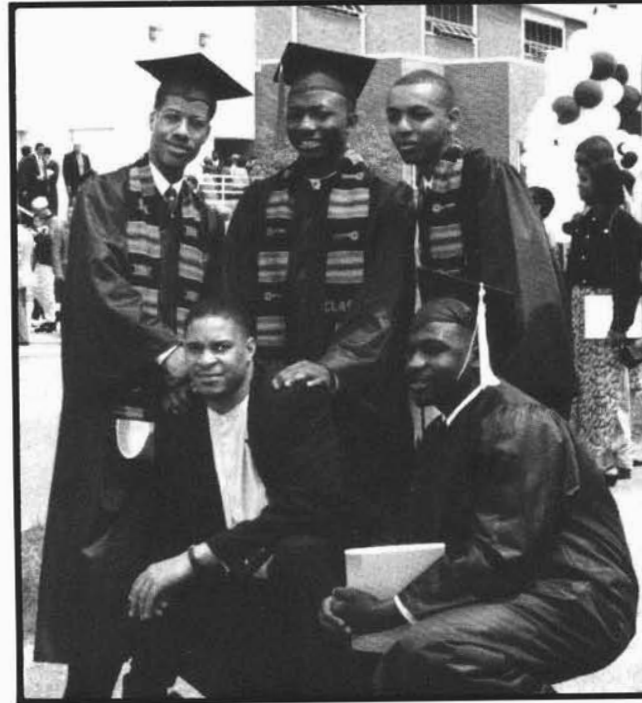

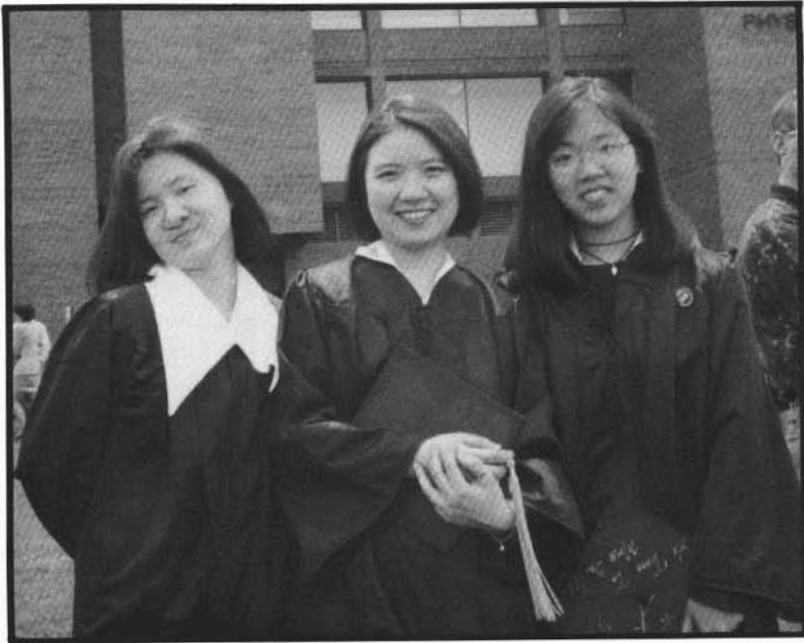

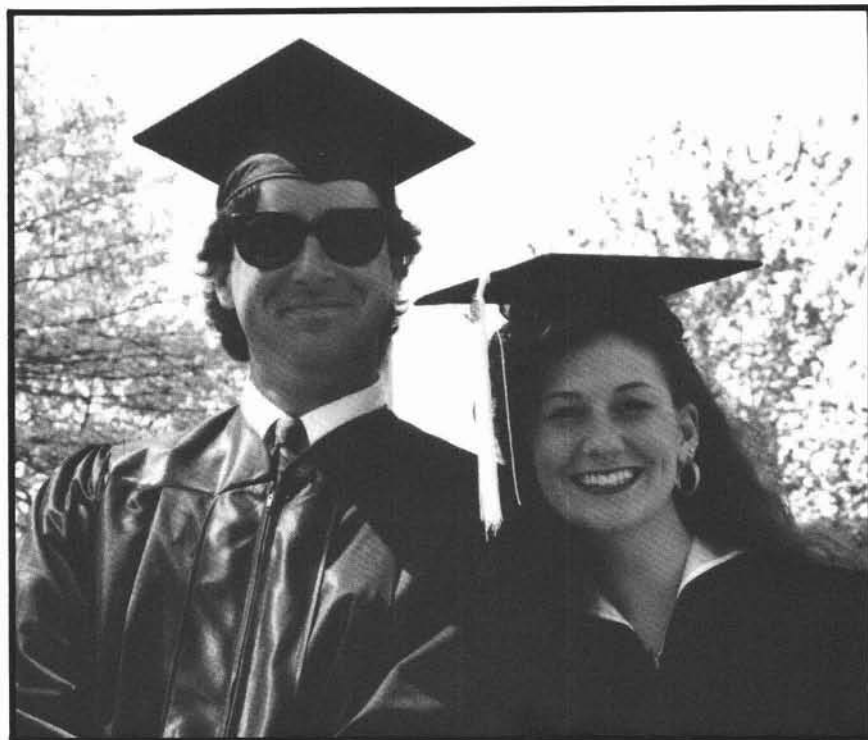

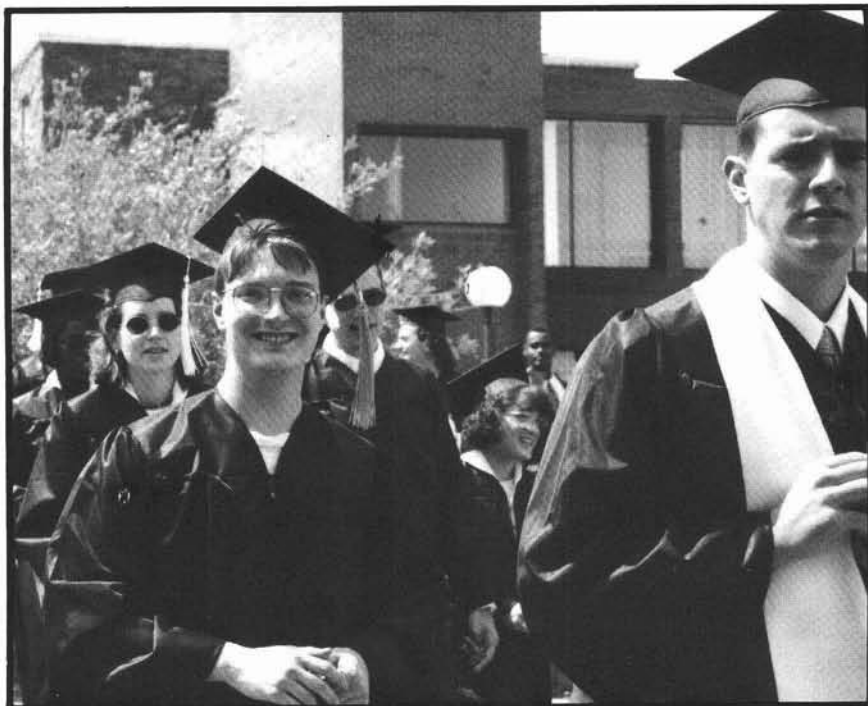

JOHN H. MARBURGER (1980-1994)

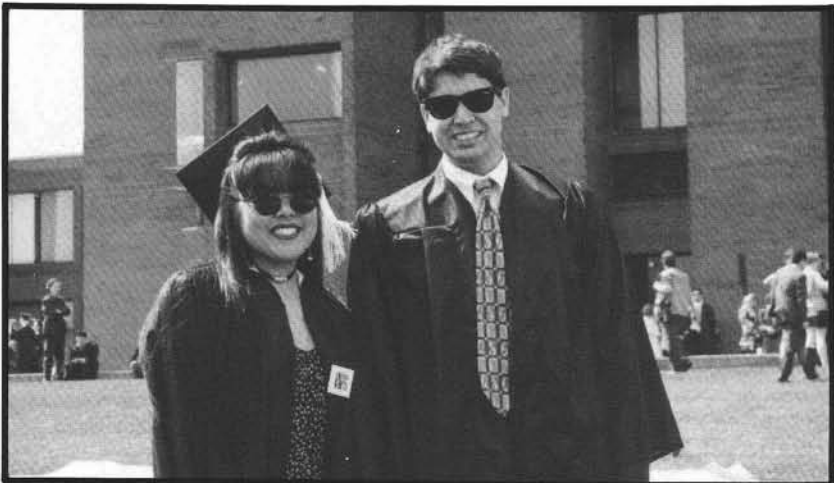

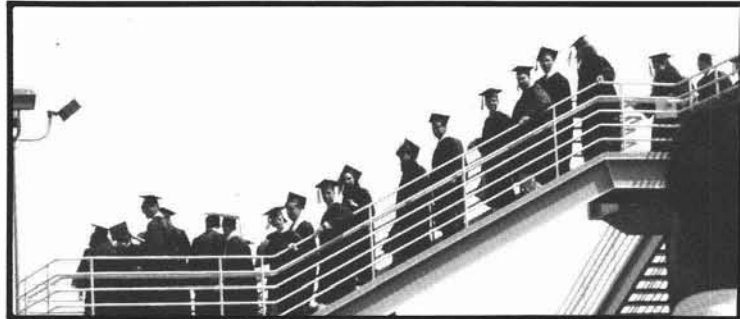

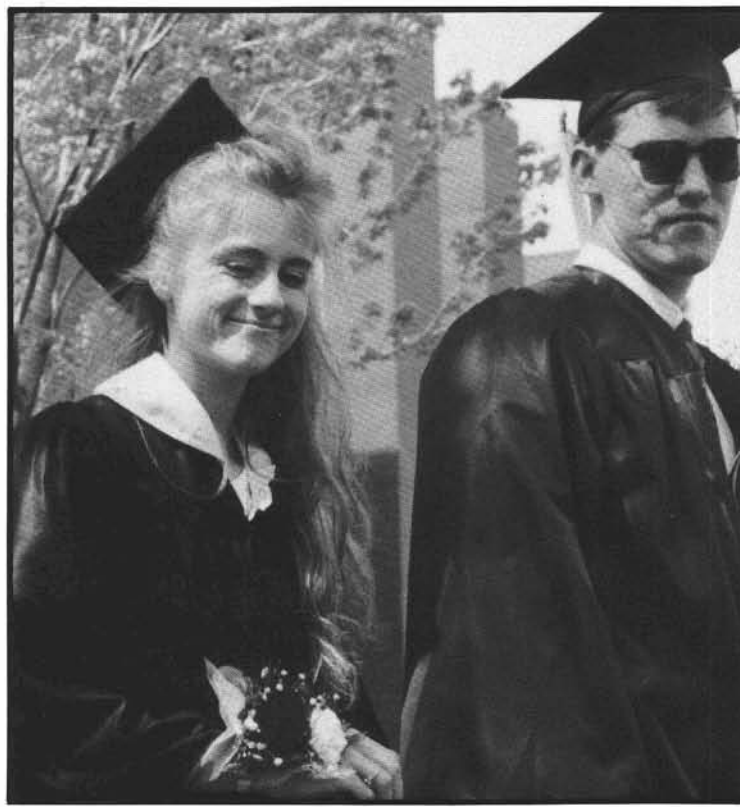

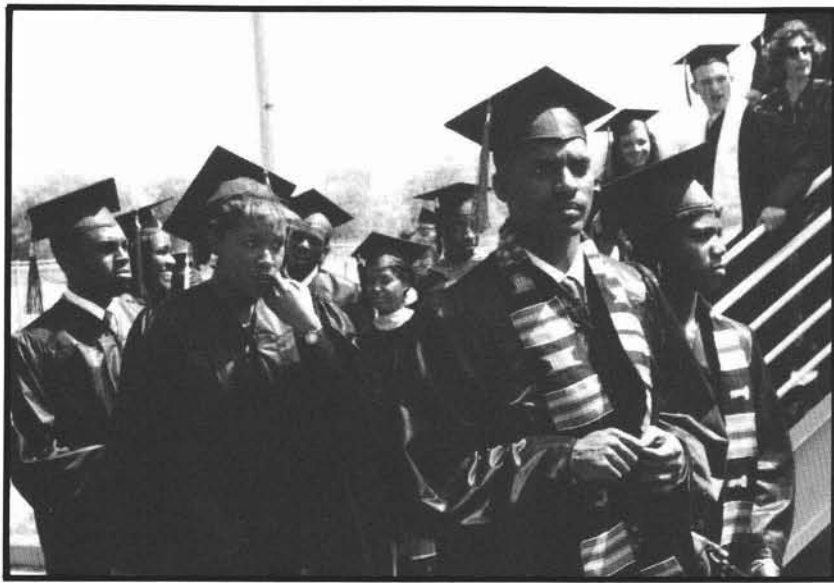

John Marburger guided the University toward maturity as a world-class institution. He has served state, region and higher education on numerous boards and committees, including chairmanship of a gubernatorial commission on the Shoreham Nuclear Power facility, and chairmanship of the Universities Research Association. Commencement Message

May 14, 1995

Congratulations to all our graduates. The end of your final year at Stony Brook comes at the end of my first year here, but even after such a short time, I know that you have had the opportunity to study with the best and brightest professors anywhere.

You have also had the responsibility of shaping your education and choosing your life's work. You've discovered a lot about facts and figures and people. You've had your share of triumphs, and I suspect you've learned something about fortitude. I hope you have experienced joy.

I am optimistic that you undergraduates, along with your calculus and Shakespeare and periodic tables, have learned to connect with others, to cooperate, to work together for shared goals. You graduate students have learned that your profession, whatever you have chosen, will serve you well only if you serve your community well.

And now your days at Stony Brook are over. You are setting forth on the next leg of your life's adventure. We wish you only the best.

Commencement is a very special time not only for you but for us. It is the time when we know the importance of what we do because we realize the impact that you, our graduates, will have on the future.

We wish you great success in all you undertake. We hope you reach your dreams. May you thrive, prosper, and grow.

Shirley Strum Kenny
State University of New York at Stony Brook

Special thanks to: The Office of Conferences and Special Events.
