Campus Yearbook

For the State University of New York at Stony Brook

Stony Brook Union Building
State University of New York
at Stony Brook
Stony Brook, N.Y. 11794

Specula 1980 was dedicated to friendship because it played a vital part in our lives. During the time we spent at Stony Brook, many of us have made friendships which we shall always cherish. It is these friendships which helped to make our days at Stony Brook memorable ones. When looking at Specula in the future, we hope it will be a reminder of all the friendships and activities that enabled those years to be memorable.

The past four years have proved to be a time of growth and maturity. We entered Stony Brook unaware of the vast opportunities available to us. Our friends, parents, and the faculty have guided us through the years, but we were the ones who had to make the decisions regarding our futures. Upon graduation, we are now able to look back at our decisions and realize that we have gained a great deal of insight, thus broadening our education and preparing our future careers.

There has also been a rapid growth of the university. When we entered Stony Brook, Social Behavioral Sciences, the Fine Arts Center, and the Health Science Center were incomplete structures. Now they are completed, and have helped Stony Brook to become a fine cultural and academic center on Long Island.

Specula's staff hopes that this yearbook will be a lifelong reminder of your days at Stony Brook. I would like to express a special thank-you to the staff of 1980 for your friendships, cooperation, and dedication which enabled this book to become a reality. I will always remember the long hours that we spent compiling this book and I cannot thank-you enough for all your support.

There are also a few other people who worked closely with the staff, in Specula's production. A special thank-you to Ed Stratton, our yearbook representative. Ed's personal dedication and professional knowledge enabled our ideas to materialize in Specula. I would also like to thank Specula 1979 Editor-in-chief, Mitchell Ackerson for his assistance with the production of Specula 1980. And . . . Dave Greenberg and Bob Biello Photography Studio for their superb photographic assistance and to Art, our senior portrait photographer.

And . . . To the class of 1980 for their continual support and personal interest in Specula's production. May you have all the happiness, health, and success in your future endeavors.

Draw This Man

The thing about time is that
 time isn't really real.
 It's just your point of view.
 How does it feel for you?
 'Cause Einstein could never un-
 derstand it at all,
 Planets spinning through
 space.
 The smile upon your face.
 Welcome to the human race.
 Some kind of lovely ride.
 I'll be sliding down: I'll be
 gliding down.
 Try not to try too hard.
 It's just a lovely ride.
 James Taylor

Though we
drifted apart in distance
I always
think of you as being right here
Though we have different interests
our experiences are still the same
and though we
have many new friends
it is our old and
continuous friendship
that means the most to me

Members of the Class of 1980:

Congratulations on graduating from Stony Brook in the first year of the new decade, a fitting reminder of the new phase of your life which is about to begin in the 1980s. The world scene is troubled, but you have before you a new decade with all its promise yet untapped. Your outlook on life cannot help but be serious, but I think you can dare to be hopeful as you look ahead.

It has been my pleasure to be at Stony Brook as Acting President during your senior year. Many of you have helped me get acquainted with the campus, have welcomed me into your dormitories and gatherings, and have greeted me as I wandered about campus. I have found Stony Brook to be a very exciting and challenging place, and I have found you to be a very lively and intelligent group of people. I expect the friendships that I have formed here will be enduring. I think you will find that your friendships, which have grown over your years here, will provide lifelong satisfaction.

Stony Brook is a University with real strength in its programs and its people--a place which has reached the stage of development where its potential can be realized. You have had a chance to be part of the University's growth and can be proud of the strides it has made, because you have been part of what made it happen.

The quality of student life was an area which I felt deserved my immediate attention when I arrived at Stony Brook, and you have responded helpfully and enthusiastically to this initiative. I hope that you and I have left something of value at Stony Brook--that our concern to make the quality of campus life better will have a lasting effect.

This is a fine place. I have enjoyed myself here and worked hard. I trust you have done the same. I envy you the years you have had to get to know Stony Brook and make it your home.

Sincerely,

Richard P. Schmidt
Acting President

The objective of Student Government at the State University of New York at Stony Brook is to insure that each individual may become all that she is capable of being. To realize this purpose Student Government must be cognizant that they represent the Student point of view which places those items concerning the educational atmosphere above all else. To this end Student Government is mandated to create and perpetuate programs which reflect upon the total environment of the University.

Student Government ultimately derives its power from the Student Body which must be considered an autonomous unit within the University Community. Student Government is created to carry out its mandate through the delegation of powers to it by the Student Polity.

Each page that flashes back to mind
Seems like it was untouched by time
I can't recall quiet all the names
Each one is precious just the same
How strange to think
How many friends were lost
somewhere behind
Where are they now ...

John Bettis

Because of a Friend,

Life is a sweeter, stronger, fuller,
more gracious thing
for the friend's existence,
whether he be near or far.

If the friend is close at hand,
that is best; but if he is far away
he is still there to think of,
to wonder about, to hear from, to write to,
to share life and experience with,
to serve, to honor, to admire, to love.

—Arthur Christopher Benson

OH END THIS DAY.
