February 10, 1982

Mr. Robert Perrin  
Vice Chancellor for University  
Affairs and Development  
State University of New York  
State University Plaza  
Albany, New York 12246

Dear Bob:

I think the plans to have a state-wide radio program as outlined in your January 21 letter are excellent. We, at Stony Brook will be most pleased to assist in any way that we can in the development of this program.

You should know that over the past year, we have developed over 15 hours of radio tapes. These tapes have been used both on the campus station and have also been forwarded to be used by radio stations on Long Island and, in a couple of cases, upstate New York. We are planning to continue our investment in radio and therefore we will be able to supply you with the tapes on probably a bi-weekly if not weekly basis that will fit into your program.

I believe that by expending some time, SUNY will be able to develop an interesting and important showcase for participating campuses.

Please let us know how you would like us to assist in the development of the radio program and we are ready to begin whenever you are.

Warmest regards,

James B. Black  
Vice President for University Affairs
