Office of the Vice Chancellor for
University Affairs and Development

September 2, 1982

General Manager
WUSB-FM
State University of New York at Stony Brook
Stony Brook, New York 11794

Dear Manager:

The Office of University Affairs and Development is producing, with the able assistance of the various public information offices, a weekly 15-minute radio program ("Something Different") which we hope will be aired by commercial and public radio stations throughout the state.

When completed, each program will feature conversations, comments, and interviews from scholars, scientists, students, and visitors at our 64 campuses. We hope that "Something Different" will provide an animated and exciting insight into the abounding talent of our university.

If you would care to participate in our program, please send us tapes of sprightly interviews and interesting personages which you want considered for inclusion in "Something Different." They should be of broadcast quality, on reel-to-reel tape preferably (but we will accept cassettes), and about topics of interest to a general statewide audience. Preferred running time per segment is two to five minutes. Send audiotapes, a brief written summary of the tape, and a signed release form (see attached), to:

Dr. Maria Rita A. Rudden
N-130
State University of New York
State University Plaza
Albany, New York 12246

If you would like to discuss this project further, please call me at (518) 473-1825. I hope to be hearing from you.

Sincerely,

Maria Rita A. Rudden

Date: 2 September

Thank you for this great idea which you see is now being implemented.

Thank you also for the tapes. I thought the best was the bone transplant and the DES daughter. Very near to unusable (unfortunately because topic is very interesting) is the Asiagraphics tape with the overriding him. Thank you for your efforts. They will contribute to the quality of 'Something Different.'

Maria

Maria: Thanks for the report. Because of your interest in the Asiagraphics word processing invention, I've arranged to do a studio interview, 5-10 minutes, with Christopher George on Sept. 16. I'll send the tape along soon after. Chris will be at the UN Chinese mission Sept. 9 demonstrating his equipment. They have 60 or so translators who spend weeks hand-writing and editing; his equipment will do this work in minutes and store it on floppy discs for editing and revision for eternity. We may have an updating for you! Best,

Al
