MEMORANDUM

TO Lew Lusardi
FROM Dave Woods
SUBJECT Radio Syndication
DATE December 21, 1983

Thanks to you and your colleagues at ECC for joining us as co-sponsors on a trial basis of our "Here At Stony Brook/Conversations Unlimited" syndicated statewide radio news show.

As you know, it has long been my feeling, one which I know you share, that ECC represents a logical, potentially invaluable outlet for such public information communication endeavors by the University and I hope this experiment will be a harbinger of things to come.

With your involvement, and if Al Oickle's energies and vocal chords hold up, I have visions of seeing this program move from its present WUSB-based informal syndication use by five other stations (from Elmira east to Riverhead) to a point where it will be a regular weekly means of keeping Stony Brook in touch with the entire state through syndication to two dozen or more stations, much the same as we did with our "Checklist for a State on the Move" public service radio program at Penn State which you and I have discussed.

It's good to have you with us!
