CAMPUS ENVIRONMENT COMMITTEE

2003/2004

Charge: It shall examine all aspects of the campus environment, neluding but not limited to safety, security, facilities planning, state of facilities, and general appearance of the campus. It will consult with and advise the Assistant Vice President for Facilities and Services.

STOP HOTEL CONSTRUCTION AT THE MAIN ENTRANCE

Take action to:

- Preserve Stony Brook's forests
- Prevent commercialization of the campus's main entrance

Stony Brook University is considering plans to allow construction of a private hotel adjacent to the main entrance of campus. Please sign below and urge the University administration to stop plans to build at this site, consider alternate locations for the hotel, and complete an Environmental Master Plan before any undertaking any new construction projects.
