34. Wellness Seminar - Free Meditation Workshop - Cultivating Mindfulness
35. Wellness Center Hours
36. Afternoon and Evening Fitness Class Opportunities
37. SUNY Training Center Computer Classes
38. Stony Brook Volunteer Ambulance Corps is Recruiting!

=====

1. Innovative Technology Development Grant (ITD) Program

The Center for Biotechnology is pleased to announce the 2002 Call for Applications for the Innovative Technology Development Grant (ITD) Program. The ITD program supports a broad range of commercially promising, translational research in all areas of medical biotechnology, including research products, diagnostics, or therapeutics. ITD grant funding is available to faculty at SBU for translational research on the academic campus. Applications must provide evidence for commercialization potential and be consistent with the Centers' mission of economic development in NYS. We encourage projects that are complementary to, and seek

collaboration with, the Center's Applied Bioscience Laboratories. Faculty with interest or considering submission, are strongly encouraged to contact Dr. Anil Dhundale, Director, Scientific Affairs (anil.dhundale@sunysb.edu), prior to writing a full proposal. Application forms can be downloaded from the Center's web site at www.biotech.sunysb.edu or by calling 631-632-8521. The deadline for receipt of written proposals is 5 p.m., Friday, February 22, 2002.

2. Topics in Atmospheric and Oceanic Sciences Seminar February 6, 2002

Topics in Atmospheric and Oceanic Sciences (TAOS) Seminar

February 6, 2002

11:30 a.m.

Institute for Terrestrial and Planetary Atmospheres,
Marine Sciences Research Center, Endeavour Hall 120

Speaker: Peter H. Stone, Department of Earth, Atmospheric
and Planetary Sciences, Massachusetts Institute of Technology

Topic: "Quantifying Uncertainties in Climate System Properties
Using Recent Climate Observations"

<http://atmos.msrc.sunysb.edu>

Submitted by: Gina Gartin/MSRC

=====

3. Breast Cancer Prevention

The Cancer Clinical Trials office is still recruiting participants for the STAR Study. In STAR, two drugs, Tamoxifen and Raloxifene will be compared for their effectiveness in reducing the risk of breast cancer. We are looking for postmenopausal women ages 35 and older who are at risk for breast cancer. You will be considered at risk if you have: 1) previous benign breast biopsy, 2) a mother or sister with breast cancer, 3) history of LCIS via excision only, 4) at least 1.66% projected 5 year risk of developing breast cancer per STAR Risk Assessment Form. If you need more information about this study, feel free to call the Clinical Trials Office at (631) 444-7913, and ask for Gerty Fortune, Clinical Research Nurse Coordinator.

Submitted by: S. Denise Ellis/UHMC

=====

4. Department of Neurobiology and Behavior Seminar Speaker - Carlos Brody, Ph.D., of NIH

On Thursday, February 7th, 2002, Dr. Carlos Brody of NIH, will

give a Seminar for the Department of Neurobiology and Behavior. Dr. Brody will speak at Noon, in Room 038 of the Life Sciences Building. The title of his talk is "Dynamics of a Sensory Area During Discrimination and Decision Task."

Submitted by: Kathleen Delaney/CAS

=====

5. Department of Neurobiology and Behavior Seminar

Dr. Carlos Brody, of the Cold Spring Harbor Laboratory, will give a Seminar for the Department of Neurobiology and Behavior on Thursday, February 7th, 2002, at 12 Noon, in Room 038 of the Life Sciences Building. The title of Dr. Brody's talk is: "Dynamics of a Sensory Area During a Sensory Discrimination and Decision Task".

Submitted by: Kathleen Delaney/CAS

6. Summer Sessions: A Chance to Catch Up or Get Ahead

Summer Sessions classes enable students to take courses they may have been unable to schedule during the academic year. Or to complete their degree requirements if they plan to graduate in August or December. Or any of a host of other reasons. This summer almost 450 graduate and undergraduate courses are scheduled, with a mix of day and evening classes so that students can schedule classes around summer jobs. Stony Brook's Summer Sessions classes are also open to visiting students from other institutions, and summer housing and the deferred payment plan (TOPP) are open to all students.

Visit the Summer Sessions website now (www.stonybrook.edu/summer) to view the summer course list and academic calendar. The complete schedule - with days and times - will be posted on the Web in early February. Information about the new Web-based enrollment and registration system will be posted in March.

<http://www.stonybrook.edu/summer>

Submitted by: Megs Shea/Prov

=====

7. Free Computer Training for Introduction to Access

UUP(west campus), CSEA and PEF union members, spouses and retirees may take this course at no cost, which offers an introduction to the most widely used database management program. An integral and powerful part of the Microsoft Office suite, Access aids budget managers, accountants, and office managers by efficiently organizing customer and inventory information. Topics include how to create databases, forms, filters and reports. Classes are from 9:00 to 12:00pm, Feb. 27; Mar. 6, 13, 20, 27, 2002 at SBS room N114. Certificates awarded upon successful completion.

Submitted by: Frank Esposito/Prov

=====

8. Harriman School Seminar - Wednesday, February 7, Noon, 304
Harriman Hall

Including Principal Component Weights to Improve Discrimination
in Data Envelopment Analysis, Dr. Nicole Adler, School of
Business Administration, Hebrew University of Jerusalem.

This research develops the combined use of principal component
analysis (PCA) and data envelopment analysis (DEA). The aim is
to improve discriminatory power in DEA models with many inputs
and outputs relative to decision-making units. We develop three
PCA-DEA formulations. The first introduces assurance regions
using PCA weights as objective constraints on groups of adapted
data. The second and third apply PCA separately to all inputs
and outputs. Subsequently, all PCs are utilized, objective
assurance region constraints are applied, and discrimination is
maximized without loss of information. The third formulation
searches for a single set of global weights with which to fully
rank all observations. We show that the PCs dramatically improve
the strength of DEA models. More information - Call 632-7181.

Submitted by: Thomas Sexton/CEAS

9. Alumni Association Sponsors Eight Student Awards 2002

Do you know a student who deserves some recognition? The Alumni
Association is sponsoring eight awards to students who have
excelled in different areas, including academics, leadership, and
the improvement of community life. Recipients will receive a
plaque honoring their accomplishments, as well as a cash award.
Please help us spread the word! Applications can be obtained from
the Alumni Office, or online at www.alumni.sunysb.edu. Deadline
for applications is February 8, 2002. For more information
please call 632-6330.

12. "Sizzling" Electronic Music Concert 8 pm Friday, February 15 at the Staller Center Recital Hall

Experience both sizzling energy and subtle expressions of electronic sounds and musique concrte. Take our amazing adventure tour of the latest experimental sound works and video art by composers with unique styles and techniques, including live virtuoso instrumental performance. Works by Alves, Hanley, Hoffman, Pfeiffer, Semegen, Shields, Soveral and others, presented by Stony Brook's Electronic Music Studio, Professor Daria Semegen, Director. Join us for this one-of-a-kind sonic extravaganza. Admission is free.

Submitted by: Robin Pouler-Mcgrath/CAS

= = = = =

13. INTERNATIONAL SERVICES COFFEE AND CONVERSATION HOURS

Beginning Friday, February 8, and continuing through Friday, May 17, International Services will hold informal discussion sessions on Fridays, 3:00 - 4:15 p.m. Coffee, and sometimes light snacks, will be available. International students may come to discuss whatever is on their minds. Please note, however, that these sessions are not intended for individual immigration advising. For individual advising, students should come to our office during our regular advising hours. Spouses and other guests are also welcome to come and join the discussion. We are hoping to see many students coming in to take advantage of this opportunity.

14. LASER REFRACTIVE SURGERY AT SUNY STONY BROOK

Stony Brook Ophthalmology is pleased to announce the establishment of a LASER REFRACTIVE SURGERY service, headed by Dr. Marc Dinowitz.

Refractive surgery (i.e LASIK) can reduce one's dependence on glasses or contact lenses. The laser can now be used to treat many forms of near-sightedness (myopia), far-sightedness (hyperopia), and astigmatism.

A special discounted rate will be extended to all Stony Brook students, faculty, staff, and their immediate family members.

If you would like to learn more about LASIK (and other types of refractive procedures), or to schedule a FREE & INFORMATIVE consultation with our laser vision specialists, call (631)444-4090.

15. The Stony Brook Volunteer Ambulance Corps and the National Collegiate EMS Foundation present the Ninth Annual NCEMSF Conference February 8-10

The Stony Brook Volunteer Ambulance Corps in conjunction with the National Collegiate Emergency Medical Services Foundation is hosting the Ninth Annual NCEMSF Conference February 8-10 at the Islandia Marriott. Our conference theme, 'Professionalism Within Collegiate EMS,' will assist in further developing currently established practices. Our lectures will focus on topics that aid in the development of programs and policies of EMS protocols and operations. The Stony Brook VAC is a student-run organization that provides 911 Advanced Life Support emergency medical care and ambulance transport to the 30,000 person population of the SUNY Stony Brook Campus. The National Collegiate EMS Foundation is an organization comprised over 300 groups that provide emergency care at colleges throughout the US and other parts of the world. Delegations from collegiate EMS groups from across the country are expected to be in attendance at this year's conference. Scheduled lectures include many nationally renowned speakers.

16. University Orchestra at SUNY Stony Brook announces informal auditions for interested students who play string, woodwind, brass and percussion instruments

Informal auditions for interested SUNY students who play string, woodwind, brass or percussion instruments will be held on the afternoon of Tuesday, February 5. The University Orchestra is open to undergraduate and graduate students at SUNY Stony Brook who wish to continue their musical involvement in orchestral music. The University Orchestra rehearses Tuesday evenings from 6:30 to 9:30 p.m. in the Fine Arts Center, Room 0111. The

orchestra will present two concerts this semester at Staller Center's Main Stage. To schedule an audition or obtain additional information, contact Dr. Susan E. Deaver, music director and conductor, c/o the Department of Music at 632-7330.

Submitted by: Susan Deaver/CAS

=====

17. Help Build the Habitat for Humanity Stony Brook House

Homelessness is on the rise on Long Island, but you can help break the cycle of poverty for a deserving family. Join our campus community and Habitat for Humanity as we work together to make a North Bellport family's dream of home ownership come true.

It costs roughly \$60,000 in materials and services to build a house on Long Island. Stony Brook has committed to raising \$40,000; the balance is funded through Habitat for Humanity. Every department on campus and a variety of student groups are making plans to raise funds for their designated part of the house.

So, take the Habitat Challenge calling for communities to eliminate substandard housing in their area within this generation. Support the Stony Brook House fundraising events and help us reach our goal. For more information, contact your department coordinator, or visit our web site on YOCL page at www.stonybrook.edu.

19. Group Sessions for Breast Cancer Patients-

The Division of Wellness and Chronic Illness in the Department of Family Medicine will be conducting two, two-hour group visits for patients with breast cancer and at high risk for breast cancer. These visits will involve a brief, individual evaluation followed by group sessions on nutrition (whole foods, supplements) and

mind/body medicine (meditation, imagery, prayer).

These series of two group visits will be on Wednesdays, February 6th and 13th from 4:30 to 6:30 p.m. at 33 Research Way in Stony Brook Technology Park. Most insurance plans accepted with the appropriate co-pay. For those without insurance, the cost of both sessions will be \$80.00 per person payable at the time of registration.

For questions and to register for these group visits, please call 631.444.9815.

Since each session can accommodate only 15 people, please register as soon as possible.

=====

24. Wed. 2/6, 4:30pm at HISB: Josh Cohen, University of London: "Interrupting Redemption: Art, Religion and the 'New Categorical Imperative'"

HISB is located at E4341 Melville Library

If, as Adorno claims, Auschwitz imposes a 'new categorical imperative' on humankind to think and act such that nothing similar will happen, how is this imperative to be respected? Drawing on the interplay of aesthetic and religious motifs in Adorno himself, Levinas and Edmond Jabes, Dr. Cohen's lecture will argue that the imperative demands a fundamental reworking of the meaning of redemption. Rather than being understood in terms of a will to finality, the redemptive names an 'interruptive' thought of the essentially incomplete.

Josh Cohen is Lecturer in English at Goldsmiths College, University of London. He is author of Spectacular Allegories: Postmodern American Writing and the Politics of Seeing (Pluto Press, 1998) and Interrupting Auschwitz: Art, Religion, Philosophy (forthcoming from Continuum Press, 2002), as well as a wide range of articles on modern literature, Continental philosophy and cultural theory.
