**Subject:** info on family via marvin holland collection

Dear Sir,

I am sending you this e-mail per your request. I am looking for information about my family and my great-grandmother's name came up in one of my searches about three years ago. It is in the Marvin Holland Collection along with some other items totaling five items with my family's name on them. My great-grandmother's name was Minnie Brown and next to her name was "Note: Estate#2207" along with the four other items also mentioned. I had contacted you a few weeks ago and am sending this to you in hopes of some information. You had said in our conversation that you would have to take my request before the council and see what they say. Please let me know what kind of proof you may need to legitimize my request. I am only asking for the information or folders on my family and nothing else. I am eagerly waiting for your response. I live in Florida so if there is some information or legwork needed up in New York, I still have cousins up there who can help me out.

Thanks for your help  
Sincerely Yours,  
Robert Rieder
