4. Eleventh University Senate Survey

The University Senate is conducting another survey among the faculty and professional staff in order to determine priority concerns for the University. A similar survey was conducted in 2003, so we will be comparing results with the previous survey to determine changes in campus attitudes and perceptions. All responses are non-attributable, and are only summarized at the highest organizational level (e.g., College).

This year, the survey is available only on-line at

<http://naples.cc.sunysb.edu/DoIT/senatesurvey.nsf/survey>

Please take the time to respond. The survey should take only about 15-20 minutes to complete, and a high response rate will make the results more meaningful.
