studies. You will also hear valuable tips and techniques about inventory replenishment programs.

The program includes:

- Lessons learned from some companies who overcame these challenges.
- A summary of inventory replenishment programs and the challenges they create.
- How organizations can leverage their existing business systems, utilizing the Internet and new business tools to drastically improve replenishment programs.
- How to measure success through the SCOR-carding of business relationships.
- A clear path to implementing best practices for inventory replenishment programs.

By spending one hour with us to discuss these critical issues, you may be one of three attendees to be awarded a copy of:
