#### **6. EAP Lunchtime Learning - How to Use Your Credit Cards Wisely During this Holiday Season, Presented by American Debt Resources**

This workshop will cover how holiday spending and aggressive marketing can entice consumers to spend more than they can afford. We will discuss the psychological spending patterns of consumers during this time of the year and all year round.

The use of credit cards and their minimum monthly payment calculations are broken down to reveal the reason for the extremely long payoffs. We will discuss the tools for smart spending to understand that we sometimes have a false impression of what it will take to pay off these bills in a reasonable amount of time.

A real world exercise will be presented to enlighten consumers on how they feel when they use

their credit cards compared to when they use cash. This workshop is accompanied with a handout of all the information that will be addressed.
