03. Workshops/Courses/Training

1. EAP Lunchtime Learning-The Practice of Yoga

The practice of yoga, traditionally, does not emphasize the physical body as the primary medium for personal growth. Instead, it lies in its ability to cultivate more clarity and ease in our daily life. This workshop clarifies a less westernized yet highly practical understanding of yoga, a philosophy that has its origins in times where inner transformation triumphed over the ‘quick fix.’ You will: acquaint yourself with the idea of doing yoga practices to support your stage of life,

learn how yoga can be useful beyond a group classroom setting,
understand certain qualities, which will arise through an appropriate yoga practice, experience some breathing practices you can incorporate into your own life even during a stressful day at work.

Guest Speaker, Danielle Tarantola, Director, The Yoga Foundation
June 3, 2008, HSC, Classroom 085, Level 2, 12:00-1:00
June 5, 2008, Wang Center, Room 201, 12:00-1:00
