Subject   Mathematica Training

We are conducting a brief survey to indicate interest in training for
the application "MATHEMATICA" which was licensed to SUNY last year
for faculty, staff and student use. The training seminar is
anticipated to take place at Binghamton University early next fall.
This training can be focused for faculty and/or student development.

If you are interested, please take a moment and complete the online
survey. The results will help determine the type and frequency of
training which may be developed.
