

March 24, 2004

To: All Faculty and Staff

Colleagues,

On Monday, March 29, Dr. Charles F. Stevens, Investigator in the Howard Hughes Medical Institute and professor of molecular neurobiology at the Salk Institute for Biological Studies in La Jolla, CA, will present this year's Swartz Foundation Mind/Brain Lecture on "Probing the Mysteries of the Mind: How the Brain is Like (and Unlike) a Computer" at 4:30 p.m. on the Main Stage in the Staller Center for the Arts.

For more information please visit the Swartz Foundation Mind/Brain Lecture webpage at <http://www.stonybrook.edu/sb/mind/index.shtml>

Please pass along this information to any students you feel might be interested in attending.

Thank you,  
Robert McGrath  
Provost and Executive Vice President for Academic Affairs
