Subject Friday: 2 events in the Provost's Lecture Series

Colleagues,

This Friday, March 7th, there will be two events in the Provost's Lecture Series that I wish to bring to your attention. As part of the continuing series on Current Global Issues, Ronald M. Atlas, President of the American Society of Microbiology, will present "Responding to the Threat of Bioterrorism" at 1 pm in HSC Level 3 Lecture Hall 6.

Then at 2:00 p.m. in the SAC Auditorium, Stephen Wolfram, President & CEO of Wolfram Research, Inc. and creator of the computer algebra system "Mathematica", will speak on "A New Kind of Science".

Please pass this announcement along to any students you feel might be interested in attending.

Thank you,
Robert McGrath, Provost & Executive Vice President for Academic
Affairs
