To All Faculty and Staff:

SAVE THE DATE!

Stony Brook University, the Department of Neurobiology and Behavior,
and the Swartz Foundation cordially invite you to attend The 14th
Annual Mind Brain Lecture

Understanding the Recovery of CONSCIOUSNESS
Nicholas D. Schiff, M.D.
Director, Laboratory of Cognitive Neuromodulation
Weill Cornell Medical College
Monday, March 15, 2010 - 4:30 pm
Staller Center for the Arts
Stony Brook University

Despite major advances in neuroscience, recovery of consciousness
after brain injury remains poorly understood. How does recovery
happen and what can doctors do to help? Dr. Schiff, a
physician-scientist with expertise in neurological disorders of
consciousness, will review studies that have expanded the
understanding of the potential for late recovery of cognitive
function and provide insight into mechanisms that may lead to the
recovery of consciousness.

For more information on Dr. Schiff and the lecture, please visit
