**4 R's Weekly Column:**

Every year, Stony Brook celebrates Earth Day with a full week of green events, talks and activities. The campus is literally buzzing with sustainability initiatives. Early on,

Southampton joined with the West Campus to help celebrate Earthstock. Earthstock is an award winning event created many years ago by the Department of Recycling and Resource Management! Our first Outreach Coordinator, Jessica Vito, and Department Manager Michael Youdelman brainstormed about ways to reach students and the community, and the fun and festive Earthstock celebration was born! Exhibitors want to raise environmental awareness, and love talking to students!

This year, Southampton's events will include film screenings, 2 plantings, a green job fair, the Green Formal, a Tap vs. Bottled Water Challenge and a Conservation lecture. Earthstock is a great time to learn about something new, and to encourage everyone to go a little greener.

The events at the West Campus are also fun and interesting! Stop by the website (<http://www.stonybrook.edu/sb/earthstock/>) to check out lecture topics, read up on the Farmer's Market, get ready for the Duck Races, check out the Bands and much more!

Keep it green!
