Remembering Damian Corrente

Slain Freeport Man Is Celebrated At Stony Brook

Damian Corrente was remembered last week at a Stony Brook University ceremony where he was eulogized by friends and family:

The Freeport resident was gunned down last January 14th outside a local poolhall, the innocent victim of gang violence. Corrente was described by his friends as an individual who would do anything to help someone out, even if that person was a total stranger.

Fighting through tears and grief, Damian's classmates and friends spoke of the wonderful and kind nature of the slain Pre-Med student and how the are coming to terms with his

They gathered at Frederick Douglass College, the residence hall at Stony Brook where Corrente lived. Dr. Frederick Preston, Vice President of Student Affairs, expressed his and the schools condolences when he said, "we share in you grief and sorrow but also our love for Damian. He will remain a part of the university."

Dean of Students, Carmen Vasquez, added that Corrente had a jovial sense about him which, "created a spark in other people's lives. He got along with so many other people no matter who they were." She continued by saying the school was honored that after his departure, Corrente still had such an enormous impact on the student body. "This shows how we as a community can come together and love, cry, and celebrate," she said in conclusion.

A magnolia tree and an enormous rock with an attached memorial plaque will ensure that this remains the case. As his friends reminisced about their lost colleague, they found it difficult to grasp the fact that he is gone.

Diego Henriques took a long, hard look at the plaque that was commissioned by the student committee to keep Damian's memory from fading. He expressed a sense of disbelief by the entire chain of events that led up to this moment. "I have no idea of what's going through my mind right now... I just can't believe that he's not here," Henriques said. "Its

weird. It doesn't feel right that he isn't here with us." Hadded that though he only knew Corrente for one semester the deceased student's spirit could still be felt on campus.

This was the unanimous emotional feeling on this often sunny/rainy day. Corrente had been studying to be an anestigiologist, but was also an accomplished club DJ, model and actor. He had appeared in television shows like N.Y.P.D. Blue, Saturday Night Live, Law & Order, and The Chris Rock Show and was featured in such films as The Basketball Diaries, Hackers, and Marvin's Room. By all who attended the solemn day of ceremonies, Corrente was described as someone who touched many different people in so many different ways: a person who made a difference in the lives of everyone he knew.

Julie Bagu, a soon-to-be graduate, described him as a funloving and exciting person to be around. "He was supportive and friendly." she said with tears in her eyes, "he was a good person with a good heart, we'll miss him."

Kristen Duncan said Corrente was there when you needed him the most. "I refer to Damian as an angel," she said during the memorial service. "Most people don't believe in angels, they obviously didn't know Damian."

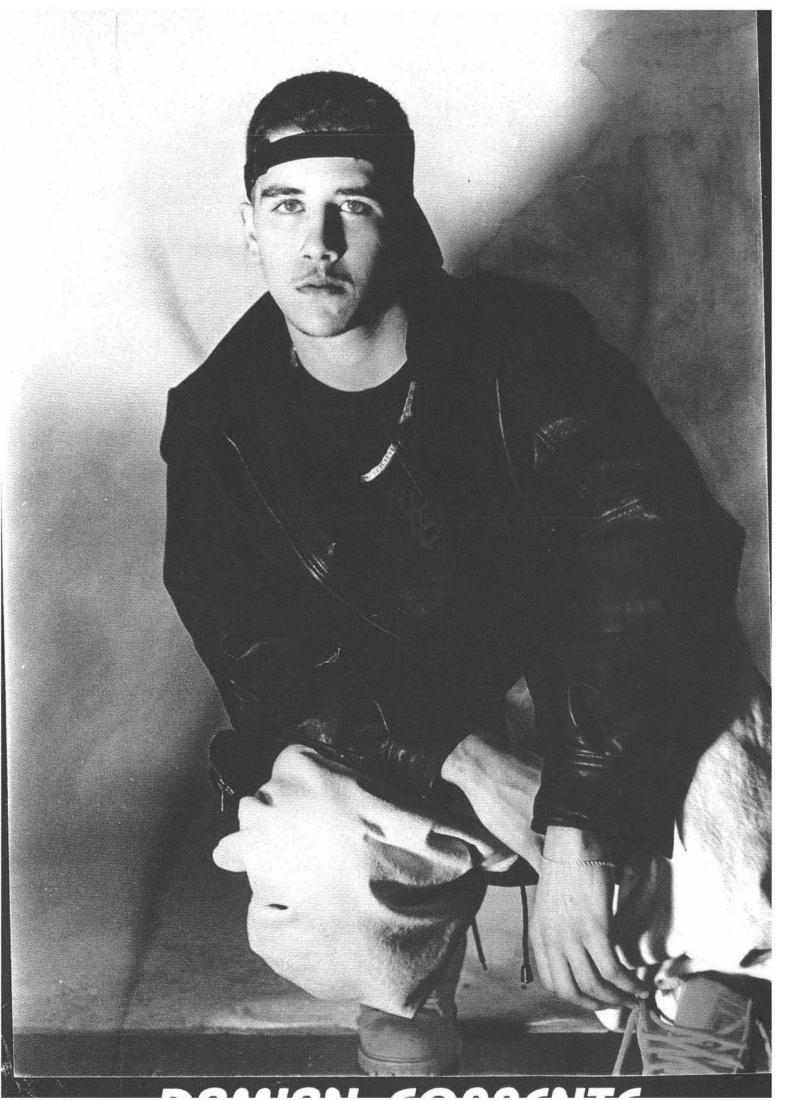

"I was Damian's roommate for two months and at one point I was also his R.A.," said Kazmi Sitvat. "The first thing he asked me was how could he get involved with the student community. He was very outgoing. I've been at this school for three years and he knew more people than I did within the five months he was here. He really lived his life. He lived it to the fullest."

Corrente's mother, Pam, thanked everyone at Stony Brook for their outpouring of love. She said the last five months have been hard time for her entire family but, she added the day's events helped bring peace and a sense of closure for them. "Its so right to have a celebration of Damian because he was a celebration of life itself."

Anthropology is a social science that seeks to understand and explain human

cultural, behavioral, and biological variation through time and space. This gives anthropology a wide reach and has resulted in the formation of three subdisciplines: social anthropology, archaeology, and physical anthropology. Social anthropology concentrates on modern human culture and behavior. Archaeology examines cultural and behavioral variation over time. Physical anthropology studies the biological evidence for human evolution, encompassing everything from the study of modern non-human primates to the earliest stages of mammalian fossil evolution. The objective of the anthropology major is to train the student in all three subdisciplines while allowing the student to concentrate on any specific subdiscipline.

Students with a major in anthropology take several post-graduate paths. Some continue their anthropology training in graduate schools, many at the finest graduate schools in the country. Others pursue, for example, medical school or conservation studies.

The undergraduate program introduces the student to the general field of anthropology, its branches, its theories and methods, and its relation to the other social sciences, the humanities, and the natural sciences. The curriculum emphasizes the fields of cultural and social anthropology, archaeology, and physical anthropology, and includes offerings in medical anthropology. Students often have the opportunity to pursue coursework in any of the three fields in different cultural settings. Please see the Director of Undergraduate Studies for details.

Astronomy is the scientific discipline dedicated to the study of everything in the universe outside the Earth's atmosphere. The undergraduate major leading to the Bachelor of Science degree in astronomy/planetary sciences (AST) prepares a student for graduate and professional work. Our graduates teach in secondary schools, work in academic, government, and industrial laboratories, and teach and conduct research at colleges and universities.

Course requirements for the B.S. program are listed below and are summarized in the accompanying chart. Upon declaring the AST major, the Director of Undergraduate Studies will assign a facalty advisor to the student. This advisor will assist the student in the selection of courses. Students should consult frequently with their faculty advisors regarding their progress and regarding appropriate science courses. Because the position of the scientist in society is esponsible and complex, the student is autioned to pay careful attention to general education in the arts, humanities, ind social sciences.

The field of earth and space sciences is a broadly based multidisciplinary science combining geology, astronomy, atmospheric science and marine science. The major in earth and space sciences leads to the Bachelor of Arts degree and is a diversified program in the natural sciences and mathematics aimed at fostering a basic understanding of the earth and space sciences; it also includes concentrated study in any one of the natural sciences or mathematics or interdisciplinary studies in environmental geoscience. Intended for those seeking a science-related career, the program allows flexible course selection for students who may or may not be planning on graduate studies. The program is flexible in that it is designed to meet the needs of students who desire a more diverse liberal arts and sciences background. The various programs prepare students to choose careers in teaching, law, environmental science, or research in private industry and government.

TIME IS NOW

TIME IS NOW

The University at Stony Brook athletic program has taken itself on a long and difficult journey that will finally culminate with its arrival in Division I this fall. The process of arriving in Division I was set forth in 1988 when Stony Brook upgraded its lacrosse and women's soccer programs to Division I. Stony Brook then continued its push towards a full-fledged Division I program when the athletic department announced the hiring of Dr. Richard Lashowski as the Dean of Physical Education and Athletics in March of 1993 and the was charged with guiding the athletic department into the Division I level. On June 3, 1997, University President Shirley Strum Kenny announced that the university will upgrade its entire intercollegiate athletics program to NCAA Division I status, effective in the 1999-2000 academic year. With Stony Brook's goal of arriving in Division I accomplished this fall, a new task Brook's goal of arriving in Division I accomplished this fall, a new has emerged. The Seawolves will take on the difficult task of leavi lasting impression on Division I competition.

GOALS

GOALS

Success both on and off the field has become a staple at Stony Brook as the University strives to produce a well-balanced program. Stony Brook has a clear vision of where it wants to go and its goal is to provide an equal opportunity for all athletes in all of their endeavors and the foundation for the highest level of achievement for the rest of their lives.

Ill to Division II. From Final Fours to State Championships, Stony Brook has proved to be a winner at every level which it has competed at. Just last year, both the volleyball and men's tennis teams took home the NECC Championship, and the men's and women's swimming teams won Met Conference championships. The baseball team achieved unparalleled success, winning the most games in the program's history (33) while going 8-3 against Division I teams. Head baseball coach Matt Senk also had one of his former players make his major league debut when Joe Nathan was called up to make his first major league start in May. Stony Brook is ready for the move to Division I and will now turn its attention toward establishing its deep-rooted winning tradition at the Division I level.

COMPETITION

Story Brook will put its history of athletic success on the line against some of the toughest competition in the nation. On the slate for 1999 and 2000 are matchups with teams like St. John's, Utah, North Carolina, Yale and Princeton among many others. The athletic department at Story Brook knows that to be the best you have to play the best, and University at Story Brook will play the very best.

ATHLETES IN THE COMMUNITY

Stony Brook student-athletes have a penchant for making a last-ing mark in the community. One of the many ways Stony Brook reaches out to the community is with its annual Girls and Women in Sports Day. During the month celebration, Stony Brook holds the Debbie Wh

Stony Brook Enters First Year at Division IAA SEASON OUTLOOK

SEASON OUTLOOK
The 1999 season will mark the beginning of a new era for Stony Brook
football. Division IAA non-scholarship play begins this season after completing the final year at the Division II level in 1998. Last year, Stony
Brook finished its second year as a member of the Eastern Football Conference and despite posting a 3-7 record, there is much to look forward to in 1999. Four of the losses were by a combined total of 23 points for a team that relied on 13 first-year starters in '99.

Head coach Sam Kornhauser has already lined up an outstanding re cruiting class he hopes to blend with a solid returning nucleus that will help the Seawolves make a big splash in their first season at Division IAA.

STONY BROOK OFFENSE

The quarterback position is up for grabs as the Seawolves head into

the first season at the Division I level. Stony Brook returns seven starters on the offensive side of the ball but will have to find a quarterback to take over after the loss of Scott Meyer to graduation last spring. Kornhauser will look to Oscar Alcantara, Chris Vollmer or Brian Stanley to take over a complex offense that features mul-tiple formations. Stanley has seen spot duty as the Seawolves' signal caller in his first two seasons (4-16 for 61 yards) while Vollmer has sat out his first two seasons at Stony Brook due to injury and has no var

sity experience. Sophomore deantara is an option-type quarterback who saw limited duty at the oosition last season, but he has tremendous athletic ability that can give tony Brook a big threat at the quarterback spot. Alcantara was outanding in the Red/White scrimmage during spring practice and may see the edge heading into camp. Alcantara is also a very dangerous special teams player who may

see time there as well.

Wine Receivers

Sophomore Lucas Niskanen and senior Mike Stanley return in 1999 as the team's leading receivers from last year. Niskanen made several big catches in his first season of action and ranked second in the EFC in receptions per game (5.9) and fifth in receiving yards per game (66.1) in 1998. His exploits earned him ECAC North Division II Co-Rookie of the Year and Don Hansen Football Gazette Division II All-America hon-ors. Against Pace, Niskanen had touchdown catches of 61 and 62 yards, proving he can make the big play. Stanley, brother of quarterback Brian hauled in 18 receptions last season in his first year with the team. The Seawolves also get a big boost at this position from two players who missed all of 1998 due to injury. Doug Lewis, who runs a 4.3 40-yard dash, was sidelined with a finger injury while Chris Grant (6-2, 205) returns after succumbing to a

broken hand in training camp last season. Grant made 17 receptions for 215 yards in 1997. Second-year performer lason Wahl should also make a big contribution at the wide re ceiver spot this season.

Coach Kornhauser is a versatile coach, able to adjust his game plan to suit the talent of his team. In the 1980s, Stony Brook was known as a team with a tough, stingy defense and an of-fense with a strong ground attack that would attempt to control time of possession. In re-cent seasons USB has become much more wide open offensively, as the talent at quarterback and wide receiver has permitted Kornhauser and his coaching staff to stretch the field and and his coaching staff to stretch the field and force opposing defenses to defend a much large Kornhauser is a three-time Stony Brook

freshmen Craig Matuza and Brian Szokoli may see time here as well

Three starters return along the line which featured four underclass-men last year. A developing unit, the big guys up front should be much improved this year. Sophomore Lynsett Walcolm will move from left guard to handle the center duties in 1999. Walcolm was a pleasant surprise in '98, stepping in as a freshman to start cight games at the guard spot. Senior Mike Plugues moves from right tackle to left tackle this season. At 6-3, 285, Plugues' size and strength will be counted on to keep the Seawolves' quarterbacks upright in '99. STONY BROOK DE-

FENSE

LINEMEN

Eight starters return from a defensive unit that ranked first in the EFC and 15th in the nation in passing defense last year. Redshirt sophomore DE Mitch Ramson spearheads a defensive line that should cause trouble for opponents all year long. Ramson totaled a team-high 9.5 sacks and led the team in tackles for a loss (16) while DT John Kostkowicz racked up 48 tackles, 13 of them for losses, five sacks and three fumble recover-ies last season. Kostkowicz is a ballhawk who is ninth on the all-time list for career fumble recoveries with nine. Also returning for Stony Brook is DEs George Karafantis and Brian Flaherty. Karafantis entered 1998 as the Seawolves' top pass rusher but missed the entire season due to mono-nucleosis. The senior captain totaled 39 tackles and five sacks in '97. Flaherty started in place of Karafantis last year and will look to build upon a successful campaign that saw him record 27 tackles and 3.0 sacks. Defensive coordinator Dave Caldiero will look to youth to round out the defensive tackle position.

Sophomores Dave Savage and Keith Rippe enter their second seasons and may emerge as big contributors in '99.

At linebacker, the Seawolves

should be as solid as any team in the NEC with senior ILB

in the NEC with senior ILB Jesus Marcano leading the way. Marcano totaled 92 tackles in '98, sec-ond-best on the team, and intercepted two passes. The senior linebacker also plays a big role on offense, coming in as a blocker in goal-line situa-tions. Rounding out the linebacker corps will be Scott Hall, Mike Spizzo, Dan Bertzos, Alexis Ayala and John Phelan. Bertzos, a sophomore, fin-ished third on the team in tackles at the weak side linebacker position as a freshman. Hall is a solid run-stopper (36 tackles) who missed four games to injury last season. Spizzo made 33 tackles on the year while both sophomores Phelan and Ayala also made big impacts at linebacker in '98. Caldiero should call upon them to fill even bigger roles this year. The Seawolves will need to find a placekicker and a punter as PK

Jason Harris and P AJ Schaeffer were lost to graduation. Schaeffer was the university's all-time leading punter with 187 punts in his career. In his freshman season, Alcantara

showed flashes of brilliance as a punt and kickoff returner, leading the team in kick return average (27.5). Kornhauser hopes that Alcantara will become a big playmaker on special teams this fall as well.

Several Seawolf newcomers hope to make their presence felt in 1999. QB Scott Bard, QB/S Eric Hatkewitz, DB Dan Patterson, DT Brandt Hausmann, 'TE David Kopp, RB Andy Okolski and DL Sal Mancino should make an impact in their first seasons. Hatkewitz was the starting quarterback in the N.Y.-N.J. Governor's Bowl that pits the New York State All-Stars versus the New Jersey State All-Stars. He was selected as New York's Offensive Team Most Valuable Player.

Stony Brook begins its inaugural season at Division IAA as a member of the Northeast Conference along with in-state rival and EFC champion Albany. Other conference members include Sacred Heart, Robert Morris, Monmouth, Wagner, St. Francis (Pa.) and Central Connecticut.

Did You Know?

Football is based on a combination of the rules of rugby and soccer. Football, American style, emerged in schools and universities during the 1860s. Walter Camp wrote the rules of the American football code in 1876, and as they say, the rest is history.

Dr. Richard Laskowski, Dean of P.E. & Athletics

Dr. Richard Laskowski,

Dr. Richard Llaskowski arrived at Stony Brook in the spring of 1994 with the directive to lead the university's athletic programs to Division. I Five years later, after moving the program from Division II to Division II, Laskowski has fulfilled his directive all of the Seawobes variity teams will begin Division I opportion this fall.

Now beginning his sixth year as Dean, Dr. Laskowski has designed and NCAA Reclassification program for the university's upgrade to Division I revised and increased the academic standards of the university's student-athletes; undergone the first ever voluntary NCAA compliance review of the athletic program; negotiated the televising of numerous contests in men's and women's hasketabli, footable, Lerosse and women's Sucception of the top three Development and Marketing programs in the logs and nickname of the Stony Brook teams to the Seawobes'; and oversaw the creation of the top three Development and Marketing programs in the country in Division II with income approaching \$1,000,000 a year.

We have been able to make tremendous progress in our move to Division I as a result of the tireless efforts and dedication of our coaches and staff, and the support of our President, Dr. Shirley Strum Kenny,' said Laskowski. 'Competing in one of the finest Division II conferences in the country for the past four years, the New England Collegiant Conference, we were able to steadily improve our won-loss record each and every season. We have been see expectations for Division I; we didn't upgrade our program just to be classified as Division I, we did so with the intention of developing a highly successful program both in the classroom and on the playing field.*

'In order to successful a Division I you must have a great coaching staff, and we have been able to stract top coaches to Stony Brook over the last three years. However, you must also be able to provide scholaribigs, excellent facilities, competitive schodules, and other amenities that your competitive against the

Just one year away from the jump to Divi-sion I, the 1998 Stony Brook men's cross country team looks to write the final chapter in heir successful stint at the Division II level. The Seawolves enter a new era in the program's listory with a move into Division I competition with general bushders there, but seems under next season, but before they go, the team would next season, but before they go, the team would like to leave a lasting impression upon Division II. Last season, Story Brook fought through a tough schedule with a relatively young team. This season, after losing just one runner to graduation, head coach Jim Meegan hopes that the experience gained by his team a year ago will make an immediate impact on this season's successions succession.

The 1998 Stony Brook roster boasts of just ne senior, but with five juniors and a sophomore returning from last season to lead the charge, the Seawolves look to raise their per

STONY BROOK SEAWOLVES

he 1998 edition of the men's bas Little's accomplishments in his fresh man year were outstanding as he proved to be one of the best pure shooters in the NECC. Little hit 72 threepointers on the year, the second best mark for three-pointers made in a season in school history. "In his rookie year, Josh proved to be a steady outside shooter who should develop into an outstanding all-round shooting guard," Tomlin stated. Complementing Little will be veterans Bobby Mahoney and Demez Carrington. Carrington returns as the only Seawolf with experience at the point guard position while Mahoney is a versatile performer who is the best defensive player of the roster. His explosive quickness also gives the Seawolves scoring punch in the transition game.

The freshman should provide a big lift at this position. Roel Moors, one of two freshmen from Belgium, is an excellent floor general who can penetrate and break down defenses. Moors has the ability to step in right away and make an impact. Tomlin also has high hopes for Steve Pratta, who comes to Stony Brook after spending last season at Tyler Junior College and the previous year at the University of Houston. Pratta played in 16 games while at Houston in his freshman year, displaying versatile combination guard skills with a shooting touch from the outside and the ability to run an offense when called upon to do so.

Red-shirt sophomore Rob Hartma will be in the backcourt mix as well this season. Hartman looks to pick up where he left off after his freshman year when he was one of the best NECC newcomers in 1996-97. He sat out last season due to a knee injury but hopes to rebound this year and build upon his excellent first season. His tenacious defense and uncanny shooting ability makes him a valuable member of this

year's team. Sophomore Eric Lomot gives Tomlin flexibility and depth at the guard spot.

Forwards

Sophomore Chris Balliro returns after pushing teammate Josh Little for NECC Rookie of the Year honors in '97. At 6-7, Balliro frustrates opponents with his tenacious style of play. "He can rebound, score and he is an intense player that will be a big part of our success this year," says Tomlin. Veteran Pablo Porras returns for his third season at Stony Brook. Porras can play more than one spot as he provides good defense and solid rebounding for the Seawolves. Senior Kendall Richards is a steady, aggressive and reliable reserve who will play valuable minutes for the Seawolves off the bench.

Tomlin also went international at the forward position, nabbing Belgian Stefan Salden for his frontcourt. "He has excellent perimeter skills and post moves and will be a great addition for the Seawolves under the basket," explained Tomlin. Freshman Dan Graham,

1998-99 SEASON PREVIEW

ut of Williston Northampton High chool in Massachusetts, is an athletic layer that excels in an up tempo game, style that Tomlin may use a lot more nis season. Francois Oloa, a native of rance, will also make his debut this eason after sitting out last season upon ansferring from Concordia. Oloa is a reat leaper who could see time at both ne guard and the forward position.

Center

Ryan McDermott returns for his hird year as the Seawolves center rst two season and should only get rame during the off season. cDermott has also shown the ability get up and down the floor to finish

pound center enters his first year with Stony Brook. Tomlin acknowledges that Klepkos should be an immediate force in his first season at Stony Brook. "He is a strong power player that can score inside and rebound in traffic." Klepkos will get help from junior transfer Boris Reznik who also enters his first season with the Seawolves, some three years after it looked like he would Reznik who initially planned on coming to Stony Brook three years ago out of high school, has spent the last 2 1/2 years as a member of the Cal-Irvine Anteaters. Reznik was a mid-season trans fer in 1997-98 and will eligible to participate in late December. His 6-10 frame gives the Seawolves a post player who can be a big force in the paint, giving Tomlin size and depth on the boards

Going Global

Of the six new faces on this year's roster, four of them reside in foreign countries, with the other two were born outside the United States

The 1998-99 schedule will be a stern test for the Seawolves. The slate includes seven Division I opponents including Cleveland State, Columbia, Delaware State, Drake, Wisconsin-Milwaukee. The Seawolves will also play the College of Charleston in the College of Charleston Tournament and either Delaware or Charleston Southern in the second round of the tournament in De-

The conference schedule will again provide a tough test for the Seawolves. Sacred Heart, Southern Connecticut, Franklin Pierce and New Hampshire College will all be vying for the top spot this season. New Hampshire College comes into the season ranked ninth in the nation at Division II. If Stony Brook is to claim the conference title, it will

Bernard Tomlin

have to prove they can beat those teams at home and on the road.

Outlook

After a surprising 10-6 finish in the NECC last season, Coach Tomlin has set his sights on a bigger prize this season the NECC title "With the addition of some strong inside players and the return of freshman class that proved that can score, we feel that the champion-ship is a realistic goal.* Our goal through our Division I schedule is to establish Stony Brook as a true competitor and let others know that Stony Brook will be a tough opponent when we become a Division I school next year. With the addition of our new recruits and the return of a good nucleus, we are looking to generate some excite ment for our student body and the long Island community. I think we'll do just that."

EAD COACH

Eighth Seaso

The 1997-98 NECC Coach of the Year, Bernard Tomlin enters his eighth season at the helm of Story Brook's men's basketball program, bringing to the University a wealth of basketball coaching experience, ranging from all levels of NCAA competition as well as the professional ranks. In his seven years at Story Brook, Tomlin has compiled a 90-93 record and led the Seawholves to four postsesson appearances.

Tomlin came to Story Brook after serving as head coach of the Long Island Surf of the United States Basketball League in 1991. While with the Surf, Tomlin coached current NBA

United States Basketoal League in 1971, write writt the Jun, toning consider of states asserted with the Surf, Tomlin was an assistant coach at the University of Rhoc Island for three years, which included the Rams' trip to the second round of the NCAA To. nament in 1992. Tomlin was a key figure in the recruiting process for the Rams. Prior Rhode Island, Tomlin was the head coach at Adelphi University in 1987-88. During the 198 87 season, Tomlin began his head coaching career by guiding William Paterson College to 90-9 mark and an Eastern College Athletic Conference (ECAC) playoff appearance. He as served as an assistant with three other Division I programs: Duquesne University, St. Bonaventure, and his alma mater, Hofstra.

Playing Experience

A standout performer at Hofstra University, Tomlin led the Flying Dutchmen to their firstever NCAA Division I Tournament appearance as a serior. In his junior season, Tomlin led the
team in scoring, averaging 19,8 points per contest and was named to the All-East Coast Conference Team. Tomlin still holds the Hofstra record for most field goals in a game with 90, and is
the Flying Dutchmen's all-time free throw percentage leader (1880). Tomlin graduated from
Hofstra in 1976 with a degree in Social Science.
Prior to playing at Hofstra, Fomlin suited up for the Runnir' Utes for the University of Utah,
where he scored a whopping 30.9 points per game and was named conference Rookie of the
Year.

Following his senior year at Hofstra, Tomlin was selected in the 1976 NBA College Draft by the New Orleans Jazz. A sixth round selection, Tomlin was the final cut made before the regu-

ar season.
In high school, Tomlin starred for Malverne in Nassau County and still holds the all-time scoring record for points in a game with 45.

Personal

During the summer months, Tomlin serves as Director of the Stony Brook Superstars Bas-ketball Camp. He also gives lectures and serves as a coach at various camps in the East. Tomlin also is the Director of the NBA Pro Development Basketball Camp, a week long camp for NBA players and top college prospects that has featured such prominent NBA first-round picks such as Adonal Foyle (Golden State) and John Thomas (Boston). The Instructors are former NBA head coach Bob Hill and NBA Hall-of Famer Bill Walton who are annual fixtures at the camp

The 1998-99 Seawolves: An International Attraction

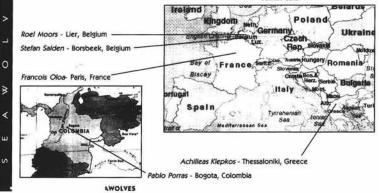

The 1998-99 edition of the Stony Brook Seawolves features a unique blend of talent from all over the globe. Of the 16 players on the roster, seven were born in a foreign country, five of which make their permanent home in other countries around the world.

The international roll call looks like this: Roel Moors and Stefan Salden (Belgium), Achilleas

Klepkos (Greece) and Francois Oloa (France) Pablo Porras (Colombia). In addition to those players, two others were born abroad in Boris Reznik (Russia) and Dan Graham (Holland).

Coach Bernard Tomlin sees the addition of these players as a big step for the program. Last spring, Tomlin spent four days in Belgium and three days in France scouting

some of the best young talent in Europe. He came away very impressed by what he saw overseas. 'Stony Brook has a large international population in its student body and with the emergence of European basketball, iknew that it would be a good opportunity for players from overseas to come to Stony Brook to receive a great education and excel on the basketball court,' Tomlin said.

Why Seawolves?

Why SB is Among the Elite In a national study of research universities, Stony Brook was tied for second among public research universities, behind only UC Berkeley.

Story Brook's faculty tutored one out of every eight Westinghouse Science Talent Search Finalists.

Stony Brook is the first public university in New York State to be ranked a "Type 1 Resea University" by the Carnegie Foundation for the Advancement of Teaching, a distinction gran to fewer than two percent of all colleges and universities in the nation.

The University Hospital at Stony Brook is ranked among the 15 Best Teaching Hospitals in the United States and one of the best 100 hospitals overall.

The National Science Foundation funded two new Materials Research Science and Engineer-ing Centers at SB. Only 20 such centers are funded nationwide, and Stanford is the only other university with two.

Stony Brook has been named a Best Buy by Money Magazine and U.S. News and World Report.

The faculty includes a Nobel Prize winner in Physics; a faculty that ranks second among America's best public universities in research per faculty member.

An Overview

OVERVIEW

OVERVIEW

One of the up and coming lacrosse teams in the nation, Stony Brook enters the 1999 season with a great deal of optimism, hoping that this will be the year it takes the next step and earns a Top 20 national ranking. The 1998 team helped Stony Brook to its second consecutive winning season, going 7-5 after posting a 9-4 record the year before. The result was impressive, considering the team had lost is top three offensive players to graduation and had to rely on many players who were entering their first year of competition.

on to record seven wins, a mark that coach Espey looks for his team to improve on from this season. Espey hopes are buoyed by a strong incoming recruiting class who has

strong incoming recruiting class who he hopes will blend with a solid veteran nucleus to make the 1999 Seawolves one of the university's best ever, as they look to post their third straight winning campaign.

ATTACK

Despite losing one of the best players in school history in Robb Aitchison to graduation, the Seawolves still have plenty of firepower up front. attackman and will be the featured man on offense this season. Each year, D'Orazio has improved tremendously, combining size and strength with good skills to develop into a premier attackman. Last year, he found the net 28 times as Stony Brook's top gun. Joining D'Orazio up front will be a trito of freshman who will look to make an impact in their first season. Jon Tompkins, who played middle in high school, will move to attack. Coach Espey considers Tompkins a strong, intelligent player who has demonstrated outstanding composure during the fall season. Freshman Kevin Pall also came on strong in the fall, showing tremendous ability in front of the opponent's net while Matt Campolletano is an intense player who also brings good size and strength to the Stony Brook attack. Tom Mazeika, a transfer from Rutgers, will see time at attack as well.

MIDFIELD

At midfield, Stony Brook has several versatile performers who can run at middie and see time at attack as well. Dave Ozsvath re-

An Overview

The Solid freshman campaign. Before succumbing to a broken ankle, Ozsvath notched 13 goals and four assists in seven contests. Senior Ken Lorenz enters his final season at Storn Brook and has developed into a key contributor at midfield for the Seawolves. Lorenz possesses good speed at the midfield spot and has plenty of experience at the position. Espey will also need junior Vim Miller to step up into an even bigger role this season. Last year, Miller was the team's most improved player, seeing most of his action at attack. In '99, he will be used both at midfield and at attack where last year he scored 20 goals, third best on the team. Junio Erfic Bruckner came on strong last season in his first year with Stony Brook after transferring from Pace. Espey expects Bruckner came from prove on his 10-goal performance from last year to give the Seawolves more punch at

midfield. Ed DeLaura also returns at this posi-tion, where he scored 12 times last season. Freshmen will also play key roles at the midfield position this year. Denis Scannell, who attended West Point Prep school last year, dem-orstrated outstanding ability in the fall and could earn a starting spot this spring. Phil Archabald is a well-conditioned athlete who will make an impact offensively along with Tris Gillen, who will rotate between middle and attack this sea-son as well. Gillen possesses good skills and will be a valuable member of this year's team. There is plenty of depth at the midfield opsi-tion this year. I ason Taveras returns after sitting out last season and newcomers Brian Abrams Trevor Smith, Mike Nagelberg, Jerenny Oraper and Frank Barile round out the midfield opsi-

Captain Jim Inhof returns to anchor the Sea-wolves defense. A four-year performer, Inhof is a steady defenseman whose leadership will be critical to this year's team. Jeff Puglia also

returns as perhaps the team's most consiste performer. Senior Adam Donaton's tenacio style frustrates opponents on the defensive er and in the midfield as well. Newcomer D. DaPonte steps in right away in the defensi-rotation. DaPonte is a tall, solid defensem who can run well and should give the Se wolves a weapon on defense. Sophomo Tim Bridgwood returns for his second seast along with Gerard Weiser while newcome James Smith, Lee Levine and Dante Dad will add strength and depth to the defensi-corps.

GOAL

Competition for the starting job betwee the pipes should be the fiercest on the tear Whoever earns the starting spot will have be shoes to fill. Come is Greg Taylor, who let all NCAA Division I goalles in save percer age and was fourth in goals again average last season. Sophomore To Bushy saw limited action in '96 b has worked extremely hard over the last year to earn the starting nod. It is being challenged by freshman Job Dobias. Dobias led Comsewogs High School to the New York St. Class B High School tittle one ye ago. Pushing those two will be Min Hyun who returns for his second se Hyun who returns for his second se son with the Seawolves

Head Coach John Espey .

John Espey enters his 12th year as head coach of the Seawolves and his eighth season with \$B in NCAA Division I competition. At Stony Brook, Espey has pumped pride and excitement into the lacrosse program and for the last two seasons brought the Seawolves into the last two years, Espey has molded a team that has competed with the finest teams in the nation. During that time his team has gone 16-9 and hvice moved into the Top 25 in the nation. Last season, the Seawolves posted a 7-5 mark, its second raight winning season and two vears ago, his team posted a 9-4 record ter going 3-8 the season before that. The finished matched only UMBC in the best turnaround record in the nation, improving six victories is once season. Last season, the team pushed 814 ranked North Carona into the fourth quarter before dropping a 14-9 decision at Seavolves Field.

In his first season at Stony Brook in 1988, Espey led \$B\$ to the militants of the ECAC NY/N Metropolitan Lacroses Championships,

In his first season at Stony Brook in 1988, Espey led SB to the milifinals of the ECAC NI/NI Metropolitan Lacrosse Championships, here they fell at Montclair State, 12-4. Two years later, Espey led ony Brook to a school-record 12 victories. After losing its first game the season to Georgetown 11-9, Stony Brook won 12 straight games or the longest NCAA winning streak of the season. Since that time, peep has upgraded the Seawolves' schedule to regularly include tation's cille teams, including North Carolina, Princeton, Navy and wile. In 1999, the Seawolves tace tournament participants Vinginia dUMBC and will take on Cornell in the final home game of the asson.

Since graduation, Imhof has also been working on his coaching skills. Last spring, he was the head coach at Stimson Middle School and has been a camp coach at the Stony Brook Lacrosse camp for the last four years. He has been a member of the Suffolk Lacrosse Club since 1997 and played for the New York Metro All Stars in 1998. He is the cousin of current Seawolves player Jim Imhof.

Seremet has been one of the New York Saints leading scorers for four seasons.

Assistant Coach Jerry DeMeo

Jerry DeMeo enters his fifth season at Stony Brook, where he will serve as Defensive Coordinator and will also be in charge of recruiting in Suffolk County.

DeMeo previously was head coach of the New York Athletic Club Lacrosse Team, where he compiled a 47-11 record over a four-year span and was named USCLA Club Coach of the Year in 1990. The club reached the USCLA championship game in both 1990 and 1991.

DeMeo was also head coach for two years at Southampton College, where the Colonials captured the Knickerbocker Championship in 1984. He was an assistant coach at Cornell University and an associate coach at Darremouth College. At Cornell, the Big Red reached the national championship game. While at Dartmouth, DeMeo was also the assistant women's soccer coach. In 1983, DeMeo was a consultant for the Australian Lacrosse Federation where he worked to promote the sport of lacrosse.

Greg Taylor Claims Save Percentage Title

Seawolves standout goalie records nation's best .671 mark in '98

Greg Taylor became the first goalie in Stony Brook men's lacrosse history to win the NCAA Division I save percentage title, compiling a .671 save percentage during the

A three-year starter for Stony Brook, Taylor finished with an 18-17 career record, including a 16-9 mark over the last two seasons. His play during that span helped vault the Seawolves into the Top 25 for the first time in school history. In the spring of 1997, he helped Stony Brook register an overtime win over #17 Hartford, the first time Stony Brook has ever defeated a ranked opponent.

The 1998 season saw Taylor turn in two 20-plus save performances, including a 25-save effort in an 18-8 win over Dartmouth. His outstanding play was rewarded as be was selected to play for the North squad in the annual North-South All-Star Game at Nazareth College on June 13.

Taylor also ranked third in the nation in goals against average, yielding only 7.92

Head Coach Scott Dean

Scott Dean begins h second season as head coach of the Stony Brook Seawolves. Dean came to SBU in 1997 from the University of Rhode Island after a season of serving as the school's assistant men's soccer coach. Dean brings over seven years of coaching experience to his first head coaching job at the collegiate level.

Several coaching and player changes finally caught up to the Seawolves in 1997 as the team finished 0-17-1 in its inaugral season under Dean. The Seawolves broke a string of five consecutive losses to start the season with a 2-2 tie in overtime with New Jersey Tech.

At Rhode Island, Dean was an integral part of the Rams surge to national prominence. Involved in every phase of the Rhode Island program, he helped make Rhode Island into a Top 20 team, a program that was ranked as high as fourth in the nation. At the end of the regular season. Rhode Island received a NCAA Division | Tournament berth

Prior to Rhode Island, he served as the Connecticut Olympic Development Coach while also assuming the role of head coach at Old Saybrook High School. In his three years at Old Saybrook HS, Dean led the team to its! first tournament bid in his first year and then followed that up with a perfect 16-0 record in his second season. In his third season, Dean guided the team to 19 wins, which was a school record for most wins in a season.

As the Connecticut Olympic Development Coach, Dean participated in the selection of the team as well as scheduling. A USSF State Staff Coach, he planned training sessions and lesson plans while also evaluating, grading and issuing state licenses.

Along the way, Dean's coaching excellence has earned his numerous awards. Dean was twice named the Shoreline Coach of the Year (1994-95) and was the Connecticut Senior Bowl Coach in 1993-94.

A 1988 graduate of Green Mountain College in Poultney, Vermont, Dean earned a bachelor of science degree in business. At GMC he captained the Fagles and was named to the Mayflower Conference team and the NAIA. District V Team in 1987.

Upon graduation from GMC, Dean served as an assistant men's soccer coach at his alma mater for one season before moving on to become Westbrook High School's head

SEASON PREVIEW

George Dacos Assistant Coach

George Dacos enters his first season with the Seawolves. Dacos has coached with the Stony Brook Boys under 16 Club Team and the Ward Melville and Comsewogue High School summer teams. He has a NSCAA Advanced National License. Dacos played at New York Tech where he received his degree in mechanica

Kurt Kelley Volunteer Coach

Kurt Kelley joins the Seawolves staff as a volunteer coach. Kelley was a goalkeeper on the Costa Rican Naional Championiship teams in 1989 and 1997. During his 12-year career he has played with Deportivo Saprissa, Deportivo Carmelita, Club Sport Cartago and Deportivo Belen. He will assist the Seawolves as a goal-

1998 Season Outlook

The Storry Brook University men's soccer program will have a new look once again under second-year head coach Scott Dean. Dean travelled the globe in search of new talent for the 1998 edition of the Seawolves and found 18 newcomers to add to the squad including players from Sweden, Mexico, West Africa and the West Indies. We are expanding our recruiting bound-

aries and going all over the world to find the best studentathletes.* Dean said.

The 1998 Seawolves will try to improve upon last year's 0-17-1 record. Coach Dean is confident that a combination of experienced veterans, talented newcomers and a year of experience under his belt will lead to dramatic improvement.

Newcomers to lead offense

Offensively the Sea-

wolves will look to its incoming group of newcomers to add a scoring punch to a team that scored just 11 goals last season. Leading the charge will be Sam Glassen, Angel Vassilaras, Juan Manuel Sanchez, Michael Megaloudis and Diego Bravo. The newcomers will be supported by last years leading scorer Ricky Brown and co-captain Gerrard Sampson who sat out last season because of NCAA rules regarding transfers.

The captain steers the defense

The Seawolves defense will be led by returning veteran and co-captain Paul Breun. Dean will look to the veteran to lead the talented newcomers on defense. Among those expected to

contribute on the defensive side are **Diogo Henriques**, **Stephen** King and Moses Sarr.

Taking over the reigns in net for the Seawolves will be freshman Brian McOmber. McOmber arrives at Stony Brook as an outstanding scholar-athlete who was captain of the varsity soccer

> team and an honor roll student. Stefan Ursu, a transfer from SUNY-Oneonta, and John Gorman, a freshman, arrive at Stony Brook to provide relief for McOmber.

Preparing for the Future

Dean knows the importance of tough schedule and how it will prepare the program for the challenges that lay ahead in Division I. Playing in the NECC will

only help our transition to Division I. It's going to be a tough conference to compete in. We are very young and more talented but we also have less experience so it should be an excellent learning environment for us,* Dean stated.

The Seawolves have been able to take the lessons learned from Dean's first year at the helm and turn them into positives for the 1998 season. ""What we have to take from the first year is the motivation to where we have to go to become one of the best teams in the country," Dean said. "We now know who we are playing and what we are in for. Our main goal at this point is to get team cohesiveness as soon as possible and have everyone on the same page."

ASSISTANT COACH THIRD SEASON SUNY-CONTIAND '85

Kevin O'Reilly enters his third year as a member of the Seawolves' coaching staff. In joining the SB baseball program, O'Rellly will utilize his experience in working with Stony

Brook's pitchers. Prior to Stony Brook, O'Reilly guided the Suffolk-West baseball program to the playoffs in each of the last four years.

In those four years, he managed five All-Region players, two distinguished Academic All-Americans and 18 players who received academic or athletic scholarships.

In 1994, one of his pitchers led Region 15 and finished fourth in the nation in strikeouts. That same year, O'Reilly's closer ranked seventh in the nation in saves.

O'Reilly graduated from the State University of New York College at Cortland in 1985. He spent three years as a member of the varsity baseball team and graduated with a degree in Physical Education.

Presently, O'Reilly teaches Physical Education at Brentwood West Middle School. He currently resides in Shirley with his wife and his three children, Morgan, Kyle and

Brook, the Seawolves will look to capture the program's first ever NECC little as well as post the best record in school history. "After coming so close to a conference title last season (Story Brook finished one-half game behind UMass-Lowell), that certainly will be our focus this year." said Senk, "We also need

one-hart game between versions were versions and version will be our focus his year." said Series, "We also need to play well against our Division I opponents because that is who we will be on it he years to come."

Although a conference little is every team's goal at the beginning of the year, this season's Seaworkes squale setures an expenienced group of players with incredible tabors. Several of the players have seen considerable playing time over the course of the last flew years and their development has enabled Story Brook to post one of the top records in Division II. Behind the Plate One of the keys to the offensive success Story
Brook enjoyed last year was the development of catcher Craig Amsman. Ansman, a jurior, was named the NECC Player of the Year, First Team All-NCCC, First Team All-NCTP, Story (433), home runs (16), RBIs (59) and slugging percentage (833). He ranked third in the nation in home runs, fourth in RBIs and fifth in the nation in home runs, fourth in RBIs and fifth in the nation in slugging percentage. A preseason All-American candidate, Arraman is a termendous hiller with power to all fields. He is also one of the top detensive catchers in the NECC.

A Look at Stony Brook

Stony Brook, established in 1957 at Oyster Bay, Long Island as a State Univer-sity college to prepare secondary school teachers of mathematics and science, has grown at a prodigious rate and is now rec-orgized as one of the nation's finest uni-versities. In 1960, the State Board of Re-gents and the late Governor Nelson Rockefelier, established Stony Brook's man-riate as a comprehensive university conter.

gents and the late Governor Nelson Rockefeller, established Story Brook's mandate as a comprehensive university center to 'stand with the finest in the country.' The school moved in 1962 to its present location on Suffolk Country's north shore. Now, only 40 years after its founding, the State University of New York's Comprehensive university center for the downstate metropolitan area. At Stony Brook, students join one of the most respected and invigorating academic communities in the nation and leave with a degree recognized widely as the mark of a distinguished and rigorous education a degree that literally restees opportunities. The quality of students attracted to Story Brook accounts in on small measure for its impressive record of placement. Moreover, students engage with faculty that can only be described as superto - a floculty that can only be described as superto - a floculty that can only be described as superto - a floculty that can only be described as superto - a floculty that can only a flower and so the superto - a flow that the superto - a flower of the American Academy of Arts and

stature. The University is in an excellent po-sition to make major contributions in policy and problem-oriented research of regional as well as national importance. The most re-cent Middle States Report confirms that 'Stony Brook has made outstanding progress' in becoming 'one of our nation's topmost research universities." Stony Brook is the only public university in New York State, and one of 88 public and private colleges nationwide, designated Re-search I by the Carnegile Foundation, a de-termination based on breadth of undergradu-tate programs and commitment to graduate education and research. That distinction makes a statement about value. As the burden of student debt inexcrably increases, Stony Brook offers an education that's still affordable without sacri-ricing quality. In fact, Moray Magazine raded Stony Brook 14th among the 200 'Best Buys' for your education dollar. We think, you'll agree that Stony Brook. We think, you'll agree that Stony Brook.

For the last two years, the Seawohves honor roll (3.0+ GPA) has grown in number from 110 to 156 student-athletes. In particular, the men's termis team has received Academic-All America honors for three years in a row, boasting a 3.56 team GPA and four individual Academic All-American honorees. Not to be outdone, the women's cross country team has also gamered Academic All-American honors for the past three years. On an indi-vidual lever, the Story Brock at Heless earned GPC District I Academic All-American honors this years.

Services offered by the Center's staff include academic and general advising, scheduling and registration updates, monitoring academic progress, tutor assignments, study hall, computer stations and coordinating curriculum requirements with team advisors and instructors. In the upcoming year, the Department will begin to develop a life skills program that will assist student-athletes with the preparation for life after Stony Brook.

Strength & Conditioning

As Stony Brook upgrades its athletic program to the Division I level, it will be necessary to provide the athletes with the strength and conditioning program on par with any school at the Division I level. Strength training and conditioning is vital to athletic success as it serves to improve performance and reduce the risk on injury.

In 1997, the Division of Physical Education and Athletics purchased over \$10,000 of new Nautilus and Hammer Strength exer-cise equipment for Stony Brook's athletic teams. The new state-of-the art equipment meets the needs of all athletes from different sports as they prepare themselves for competition. In addition to a comprehensive free weight room, a variety of exercise bicycles, starimasters and Nautilus equipment combine strength and condi-

tioning with cardiovascular endurance.

Overview

Coach Hobin will look to use the depth, versatilty and mo-bility of each of the players on the Stony Brook roster to con-tinue the growth the program has made in the last two sea-sons. The Seawolves, in their final season in Division II, will look to build momentum for the move to Division I next sea-son and also to leave their mark on the Stony Brook record book. With 13 wins last season, Hobin's Squad fell just a win shy of the school record set by the '91 team.

Diane Hobin enters her third year as head coach of the oftball team at Stony Brook University.

She is the seventh coach in the history of Stony Brook's 25-year program. Hobin, who earned her BA degree in Psychology, was a four-year starter for the Flying Dutchwomen's basketball and softball teams.

As a softball player, Hobin was a two-time North Atlantic Conference first-team selection as well as an Eastern College Athletic Conference (ECAC) and two-time Mid-Atlantic regional All-American selection during her career.

On the basketball court, Hobin is a member of the 1,000 point club and was named to the East Coast Conference All-Rookie team in 1992 and All-Conference team in 1994.

Hobin has brought enthusiasm to a program that finished 1-20-1 in its first season at the NCAA Division II level in 1996. In her first year at the helm, Stony Brook posted six victories including an upset over #8 C.W. Post. In Hobin's second season, Stony Brook finished 13-24-1. It tied for the third highest win total in the program's history. Last season, Hobin took another step in her successful tenure as head softball coach as she watched several of her young players establish new SBU records. Stephanie Spader set new standards as she broke the schools all-time and single-season strikeout marks. Spader also equalled a single-season high for wins, with nine,

New England Collegiate Conference

Few athletic conferences can boast eight National Champion-ships, but the New England Colle-giate Conference can make such a claim. NECC members have cap-tured five soccer and three basket-ball national titles since 1966, inclum-ing at least one National Champi-onship every year from 1986 to 1990. 1990.
The conference includes the

University at Albany. University of Bridgeport, Franklin Pierce College, the University of Massachusetts-Lovell, New Hampshire College, the University of New Haven, Sacred Heart University, Southern Connecticut State University and Stony Brock University.

The NECC's success culminated in 1986 with the conference's first national champion, as Sacred

women's basketball the following year. The conference would claim two more national championships during the 1987-88 school year, as Southern Connecticut captured the crown in man's soccer and Lowell won the third basketball title. New Hampshire College followed with

national crowns.
Without question the New gland Collegiate Conference won respect across the country has established itself as one o premier conferences in Divisin athletics.

THIS IS STONY BROOK

Stony Brook University, established in 1957 at Oyster Bay, Long Island as a State University college to prepare secondary school teachers of mathematics and sciscriot teachers of mannermancs and sci-ence, has grown at a prodigious rate and is now recognized as one of the nation's finest universities. In 1960, the State Board of Regents and the late Governor Nelson Rockefeller, established Stony Brook's mandate as a comprehensive uni-versity center to "stand with the finest in the country." The school moved in 1962

Now, only 40 years after its founding, the State University of New York at Stony Brook is New York's comprehensive uni-versity center for the downstate metropoli-tan area. At Stony Brook, students join one of the most respected and invigorating academic communities in the nation and leave with a degree recognized widely as the mark of a distinguished and rigor-

Moreover, students engage with faculty that can only be described as superb a faculty that includes a Nobel laureate in physics; a Pulitzer Prize-winning poet; MacArthur, Guggenheim, and Sloan fel-lows; and members of the American Academy of Arts and Sciences, the Nationa Academy of Sciences, and the National

Academy of Engineering.
The quality of Stony Brook's programs was praised by a distinguished national team of scholars in the 1984 Middle States Association of Colleges and Secondary Schools Reaccreditation Report, which recognized Stony Brook's spectacular achievements in is quickly becoming "an institution of national stature. The University is in an excellent position to make major contributions in policy and problem oriented research of regional as well as national importance." Stony Brook looks to have an equally successful season this year, and with the players that Tabibnia has returning, a repeat performance is indeed possible.

Returning for the Seawolves this season will be #1 singles player Daniel Antonius, # 2 singles player Tae Byon, as well as senior Arman Halajian, and sophomores Seheui Jo and Kyle Warner. These players will be further complemented by some top newcomers, led by freshman tion Adam Lazaurus, transfer Paul Powlowski, and former Eastern tennis standout Krasmier Kolev.

Baccalaureate Address

May 13, 1999 By Kevin Keenan

My first exposure to Stony Brook occurred when I was a junior in high school. My high school guidance counselor gave me a booklet describing the University, its various programs of study, and the vast intellectual and personal development opportunities that existed here. The first thing I noticed on that booklet was the logo—it was a single red star, trailed by a curved line. It appeared to be a "shooting star."

That was just about five years ago, and Stony Brook's logo has since changed—but the 'star' concept has remained. If you look at tonight's program you will see three small circles clustered together, pierced by rays emanating from a rising star in the central, red circle. I intent to use this logo as a backdrop to my speech tonight, and to explain why it is quite apt for Stony Brook, for not only is Stony Brook a "rising

star" itself but it also raises stars, many of whom you see here tonight.

As the stars brighten our skies during the night, so too does an education brighten our minds. Here at Stony Brook, we have been provided with an education that far surpasses other schools in this nation, and one that rivals some of the best in the world. We have grown intellectually brighter and stronger through the research we have conducted, through the self-discipline and devotion to study that we have learned, and through the rigorous coursework that we have pursued. Our minds our so much brighter, so much more powerful, and our intellect so much more well-founded that we can approach a brighter future, not only for us, but for many.

I assure you, everyone benefits in an enlightened society that pursues intellectual and academic inquiry. Stony Brook is preparing the intellectual leaders that will lead such a society. The students you see here tonight carry with them an education—a star if you will—so bright that it will be an effective force towards extinguishing the darkness of ignorance that still pervades many aspects of our society and our world. Many, if not all, of the students here tonight have conducted some sort of research during their academic years at Stony Brook—whether it was in Political Science in order to understand voting behavior as I have done—or in Biology in order to understand the nature of the human body and our environment. We have worked towards the understanding of our life and world and we have answered many, many questions. In so doing, we have undeniably brightened the body of human knowledge, and the prospects for a remarkable future.

We have been challenged here, Stony Brook demands a lot from its students. We have responded to that challenge, and as a result, we have learned the value of self-discipline and perseverance. These qualities will enable us to not only to be a rising star here at Stony Brook, but in any academic, professional, or personal setting that we may find ourselves in.

Further, Stony Brook's strong emphasis on a multicultural education has brightened our knowledge of others, and fostered an appreciation of our neighbors. We are one small step closer to creating the beautiful, peaceful, and loving society that humanity is quite capable of. Indeed, our strong academic grounding, coupled with the breadth and depth of our education and the diversity of our experiences comes up as an altogether profound mix—one that will have far reaching ramifications, one that will shine for a very, very long time.

A few moments ago, I mentioned that each of you is as responsible as we are for the achievements honored here tonight. I also indicated that I would explain why Stony Brook's current logo is a quite apt for this institution. The students you see here tonight are rising stars. But, as Stony Brook's logo suggests, our light does not shine alone. The education that we have received, and the many goals that we have achieved, are due, in part, to the guidance shown to us by the faculty and administrators here, and the support given to us by our families and friends at home. Our light, the light that is shining so brightly right here and now, finds its source from within us. But, it was sparked by a mother or father, a caring friend, a guiding faculty member, and rigorous standards and intellectual demands. Our light emanates within, but shines upon two distinct spheres, each of which are connected to us through a love of, and respect for, learning and education. And while we may be on the top right now, we are there because you are supporting and guiding us.

We have succeeded here, and should rightly be proud of our accomplishments. But so should you, for our success is as much ours as it is yours. I truly believe that we could not have done this without each of you. When I was a junior in high school, I saw a red-shooting star and made a wish, as people often do when they see such a star. I wished then that I could be educated and enlightened. And tomorrow, that wish comes true. Thank you all for sharing in my education, enlightenment, and dreams and in the education, enlightenment, and dreams of all those you see here today. And again, congratulations to all of you, my fellow graduates, your family and friends, and all of those here at Stony Brook who have helped us achieve this—we could not have done it without you. Thank you.

SAYED KARAR ALI COMMENCEMENT ADDRESS

At last we have reached our destination. Through hard work and constant struggle, we've finally crossed the finish line, but this has just been one race in the never-ending journey called life. The road that we have traveled in these past four years has fortified us with an arsenal of lessons that we will take with us on the journey that lies ahead.

All the midnight oil we burnt, the early classes we could not afford to miss, the anxiety during finals and the waiting on long lines to perfect our semester schedules has finally paid off. All those advisement sessions to make sure we graduated, the books from the libraries to write our papers and endless hours in front of the computers making sure

we finished our papers on time was well worth this day.

Let us reminisce about our years at Stony Brook. Today as a product of Stony Brook University, we prepare for tomorrow's journey to our new destination in the outside world. I will use myself as an example to exemplify the products we've become. In September of 1995, I flew from Nairobi, Kenya to attend State University of New York at Stony Brook. The first few months, I was as miserable as ever, alone in a foreign country with an accent and no friends at all, I learnt to persevere. I suffered from major cultural shock — different food, different attitudes and especially different manners, I learnt to adjust.

As a freshman, registering for the classes was nerve racking. The classes I wanted always seemed to be full and I thought at this rate I would never graduate, I learnt to persist. Once in class, I promised to do my best and during midterms and finals, I stayed up until wee hours of the morning making sure I finished reading the class material, and

over the course of four years. I learnt to discipline myself.

I lived my entire Stony Brook life with a roommate. We helped each other during times of crisis and later we became good friends, I learnt to share. I made many good friends at Stony Brook, friendship that I will always cherish, and although we constantly quarreled on where to eat and what movies to watch, I learnt to compromise. I sometimes missed classes and often a friend would pick up an extra syllabus for me and lend me his/her notes to copy, I learnt to care.

In my sophomore year and in subsequent years, I ran for a Student government position. My friends and I would work days and nights soliciting votes for myself through posters, phone-mail and word of mouth, I learnt to be a team member. As a student leader, I often received complains from students about various issues and trust me, if your are not a listener, being a leader can be tough, so I learnt to listen. Juggling the demands of my academics with the needs of the students that I was representing was often difficult. Many a times, I was faced with situations that forced me to prioritize. As a consequence I learnt to be responsible. By taking courses that I found interesting and talking to the professors about them, I began to explore. Standing online at he registrars to add or drop a course with other upset students, I learnt to be patient. To struggle with that one math or physic or chemistry problem that I could not seem to answer, I became a hard worker. To be away from home and family especially when I craved for mum's cooking, I learnt to appreciate. When I set my mind to achieve my goals, even if it meant breaking down barriers, I learnt to strive. On Thursday nights, enjoying the company of my friends at the local hangout location, I learnt to have fun. But most of all when I put all my lessons together, I learnt never to give up.

Our future too will be full of battles, only this time the protective walls of Stony Brook University will be behind us. From what I have gathered, life in the real world is quite competitive and not as easy as we perceive it to be. There is no need to worry, we have been well equipped with lessons to survive. This graduation is a stepping stone for us. We have done something that millions dream of doing and if we have made it this far, then surely we can cover the rest of the journey. Honestly, I am not an expert on life and I am unsure about what my future has in store for me. I am thrilled to be graduating, but I am also nervous about the real world. What I do know, is that we have the will power to make the impossible possible. Napoleon once said "impossible is only found in the dictionary of fools" and I guar-

antee that we are not fools. We shall succeed and we shall attain our goals.

Graduation will not be complete if I do not mention the people who put up with the idea of parting with us so that we could learn life for ourselves. Today we have fulfilled not only our dreams, but also the dreams of our parents. Dear parents, this graduation is our way of saying thank you. Thank you for your trusts, support, comfort, sacrifice

and for molding us to be who we are today.

To all the friends we have made at Stony Brook, we've shared times of joy, pain, sorrow and lots of laughter. Thank you for being there in time of need and for trusting in us to be worthy of your true friendship. And finally to all our professors and teachers, thank you for parting knowledge to us and for your patience and confidence in us. On this happy occasion, we must not forget our friends who are not with us today, wherever you are, we love you and you are always in our thoughts.

Good luck to all the 1999 graduates and may all your wishes and dreams come true!

"Helping hands are what make the world go around"

Welcome,

Student Polity Association Inc. is your student government run for and by the students. It's focus is to address the concerns of the student body. Polity is comprised of over 150 clubs and organizations each in its own unique way of promoting student unity, advocacy, and individuality. There are programming boards, service organizations, ethnic groups, academic clubs, athletics and many others. This vast array allows students like yourself to become involved in an affiliate that suits your individual needs as well as the needs of the undergraduate population.

However, as easy as it may seem, maintenance of such an immense organization requires the constant support and involvement of the entire student body. I encourage each and every one of you to get involved.

Many students like yourself has been given the opportunity to attend fine institutions, but all to often we forget how these opportunities came about. Somewhere along the line somebody paved a road, which made your journey a little bit easier to travel. And like our Polity Logo proudly displays "Helping hands make the world go round." Do not take your opportunity for granted.

On behalf of your student council, welcome!

Respectfully

COMMENCEMENT MESSAGE

ongratulations to all our graduates! You have had the responsibility of shaping your education and choosing your life's work. You have discovered a lot about facts and figures and people. You have had your share of triumphs, and I suspect you have learned something about fortitude. I hope you have experienced joy.

Now your days at Stony Brook are over. You are setting forth on the next leg of your life's adventure. We wish you only the best.

I am optimistic that undergraduates have learned, along with calculus and Shakespeare and periodic tables, to connect with others, to cooperate, to work together for shared goals. Graduate students have learned that your profession, whatever you have chosen, will serve you well only if you serve others well.

Commencement is a very special time not only for you but for Stony Brook. It is the time when we know the importance of what we do because we realize the impact that you-our graduates-will have on the future.

May your next journey be full of happiness. May you thrive, prosper, and grow.

Shirley Strum Kenny, President
