5. You will then see a message indicating that your actions have triggered "business rules". Click "OK". This action will add the applicant to the GCF nominee roster and collect all pertinent information from his application *in lieu of* preparing and submitting a GCF Nomination Form.

Microsoft Internet Explorer						
2	Saving this application page "triggers" a series of business rules (i.e., sending an email, defaulting a question response, etc.). Please click on the "OK" button below to enforce these business rules. If you do not want the business rules to be triggered, please click on the "Cancel" button. The applicant data you just updated will be saved to the database, but the business rules will not fire off.					
	OK Cancel					

** Because all applications are in Apply Yourself, the Graduate School will directly access the student's application and letters of recommendation.
