

STONY BROOK MEDICINE

FACTS & STATS

Stony Brook Medicine integrates and elevates all of Stony Brook University's health-related initiatives. It encompasses Stony Brook University Hospital, five Health Sciences schools — Dental Medicine, Health Technology and Management, Medicine, Nursing and Social Welfare — and 35 community-based healthcare settings. With 597 beds, Stony Brook University Hospital serves as Suffolk County's only tertiary care center and Regional Trauma Center, and is fully accredited by The Joint Commission.

Stony Brook is responsible for healing the sick, educating skilled healthcare professionals, uncovering the complexities of disease and discovering new treatments, and reaching out to the community to inform and teach. We fully embrace patient and family centered care, and consider our patients and families to be integral members of the healthcare team.

Stony Brook Medicine

PROGRAMS OF DISTINCTION

- **The Cancer Center** provides advanced care with Disease Management Teams, a multidisciplinary approach, and participation in national clinical trials. Our facility for outpatient services houses the Imaging Center, Pain Management Center and the Carol M. Baldwin Breast Care Center.
- **The Digestive Disorders Institute** provides expert care in all aspects of gastroenterology, including cancer screening, motility, women's gastrointestinal health, inflammatory bowel diseases (IBD), advanced endoscopic interventions, nutrition and weight loss, and liver, pancreatic and biliary diseases.
- **The Heart Institute** offers an Open Heart Surgery Program and an accredited Chest Pain Center. The Heart Institute provides a central location where world-class physicians and specially trained staff deliver seamless care to cardiac patients.
- **The Neurosciences Institute** plays a pivotal role in diagnosing and treating a full range of neurologic diseases and disorders, including stroke, aneurysms, spine disease, Parkinson's disease and many others, using advanced capabilities and sophisticated medical imaging technology.
- **Stony Brook Long Island Children's Hospital** offers the most advanced pediatric specialty care in the region, including Suffolk County's only dedicated Pediatric Emergency Department. Our more than 120 full-time pediatric specialists provide a full range of medical services in 30 specialties.
- **Regional Trauma Center**, the only such center in Suffolk County, provides patients with the highest level of trauma care in the region. Our physicians and nurses are specially trained in trauma and critical care patient management.

(See page 4 for a listing of key services.)

NEW YORK STATE-DESIGNATED REGIONAL CENTERS AND PROGRAMS

- AIDS Center, encompassing Adult, Pediatric and OB/GYN HIV specialist care
- Burn Center, including a Living Skin Bank
- Comprehensive Psychiatric Emergency Program
- Comprehensive Sickle Cell Program
- Perinatal and Neonatal Center
- Stroke Center (accredited by The Joint Commission)
- Suffolk County Regional Resource Center for Emergency Management
- Trauma Center

CLINICAL RESEARCH CENTER (CRC)

The CRC provides investigators with resources to conduct clinical research that may translate to new or improved patient care methods.

SPECIALIZED SERVICES

In addition to the many services provided under our Programs of Distinction (see page 4), Stony Brook has teams of experts that enable us to provide specialized services and optimal care to our patients. Among these many services are:

- Bariatric and Metabolic Weight Loss Center
- Diabetes Center
- Joint Replacement Center
- Kidney Transplantation Program
- Laboratories/Pathology, including specialized testing not available elsewhere in Suffolk County
- Osteoporosis Center
- Physical Therapy and Occupational Therapy, Cardiac Rehabilitation, Hand Rehabilitation and Lymphedema Therapy
- Plastic Surgery
- Speech, Language and Hearing, including cochlear implant
- Survivorship and Supportive Care Program

PRIMARY CARE/SATELLITE SITES

- East Moriches
- East Setauket
- Hampton Bays
- Islandia
- Islip Terrace
- Patchogue
- Smithtown
- Stony Brook

HOSPITAL ALLIANCES

The alliances are part of an initiative to create a healthcare system in Suffolk County that would raise the quality of care for all residents, including those living on the East End of Long Island. To date, Stony Brook Medicine has formed alliances with Peconic Bay Medical Center, Southampton Hospital and Eastern Long Island Hospital.

PERFORMANCE INITIATIVES

Stony Brook is an active participant in the Institute for Healthcare Improvement's various quality and safety initiatives, most recently joining the collaborative "Impacting Cost + Quality" and the Web seminar series on Preventing Readmissions and on Early Warning Systems, the latter of which Stony Brook served as a mentor hospital. Stony Brook frequently participates in University HealthSystem Consortium's collaborative efforts, which include improving patient satisfaction and patient flow from the Emergency Department to the inpatient floors. Some of the most important efforts are:

- Deploying and improving early warning systems and Rapid Response Teams

- Focusing on delivering reliable, evidence-based care using the electronic health record, especially for the Centers for Medicare and Medicaid Services' core measures for acute myocardial infarction, congestive heart failure, community-acquired pneumonia, and prevention of surgical infections and complications as well as childhood asthma care
- Implementing a series of interdependent, scientifically grounded steps to prevent central line-associated bloodstream infections and catheter-associated urinary tract infections
- Implementing a series of interdependent, scientifically grounded steps to prevent ventilator-associated pneumonia
- Utilizing the National Surgical Quality Improvement Program and the Surgical Safety Checklist to enhance performance to prevent surgery-related complications and surgical site infections

QUALITY/PATIENT SAFETY

Stony Brook strives to be a high reliability organization (HRO) — an organization focused on getting it right with error-free operation over time. Many quality initiatives support this goal, and Stony Brook has been recognized by a variety of organizations for quality excellence.

- **Early Sepsis Identification** Stony Brook was identified as a leader within New York State in the Surviving Sepsis Campaign of the Society for Critical Care Medicine. Recently, it served as a mentor hospital for a continued collaborative in Reducing Sepsis Mortality with the Institute for Healthcare Improvement and the Stop Sepsis Collaborative of the Greater New York Hospital Association. Survival rates for patients identified in the Emergency Department with severe infections have improved by 51 percent from 2006 through the end of 2010. Stony Brook was recognized for these efforts in 2011 by the National Association of Public Hospitals (NAPH) with one of its national patient safety awards.
- **Prevention of Central Line-Associated Bloodstream Infections (CLABSI) and Ventilator-Associated Pneumonia** Stony Brook has dramatically decreased the frequency of these infections in its intensive care units over the past four years so that in the past 12 months the decrease was 80 percent compared to baseline rates in 2007. Achievements with CLABSI were recognized in 2011 by the Department of Health and Human Services and the Critical Care Societies Collaborative with an Outstanding Leadership Award.
- **Prevention of Complications Associated with Newborn Prematurity** The Department of Pediatrics and the staff of the Neonatal Intensive Care Unit (NICU) are the State-designated Level 4 Regional Perinatal Center for Suffolk County. They also participate in the Vermont Oxford Network, the premier database for comparing complication rates associated with very low birthweight infants. Over the past several years the NICU has recorded significant successes in improving neonatal nutrition and in preventing disturbances of vision due to the need for ventilators.

MAJOR MODERNIZATION PROJECT (MMP)

The MMP helps ensure that Stony Brook Medicine continues to provide access to the latest medical advances and offer comfort and convenience to patients and their families. Phase one, completed fall 2008, with 154,000 square feet of new construction and 48,000 square feet of renovation, included a new wing housing a Women and Infants Center, state-of-the-art surgical suites, an expanded Emergency Department and the creation of a new hospital lobby. Phase two, which encompasses an additional 105,000 square feet, includes further expansion of the ED, new PACU (post-anesthesia care unit) and second-stage recovery space, a new Neonatal Intensive Care Unit, completion of the Labor & Delivery Suite, upgrading of the Admitting Department and renovation of the former lobby space. In November 2009, Stony Brook opened a dedicated Pediatric Emergency Department — the first of its kind in Suffolk County. In 2011, a ceremony was held to commemorate the opening of a 10,000-square-foot facility for the Comprehensive Psychiatric Emergency Program, which provides separate areas for adults and children, and triples the size of the former space for emergency psychiatric care.

COMMUNITY CONNECTIONS

Stony Brook Medicine provides access to healthcare services and partners with the community to promote health and well being through such things as:

- Lectures, seminars, workshops, screenings and other events.
- HealthConnect®, Stony Brook's telephone helpline, (631) 444-4000, staffed by registered nurses and other healthcare professionals, and a Cancer Helpline (800-862-2215) staffed by oncology nurses, to answer questions.
- Partners in Care Advisory Council, which supports Stony Brook's model of patient and family centered care. Council members include former patients and relatives of those who have received care at Stony Brook.
- The Stony Brook Medicine Development Council, composed of community representatives, to help raise awareness and strengthen relationships throughout the region.
- Stony Brook Medicine's website, *stonybrookmedicine.edu*, which features a calendar of events and an Ask the Expert Library, providing expert insight on a broad range of health topics.

PROGRAMS OF DISTINCTION

This is a partial listing of key services under each clinical program. For information on additional services, call (631) 444-4000.

CANCER CENTER

Multidisciplinary disease-specific care in:
breast; colorectal; gynecologic; lung;
melanoma; neurologic; pediatric; sarcoma;
stem cell transplantation and hematologic
malignancy; thyroid, head and neck;
upper aerodigestive; and urologic oncology

Adult and Child Neuro-Oncology

Amifostine Radioprotection

Blood and Marrow Stem-Cell
Transplant Program
(autologous/allogeneic)

Cancer Clinical Trials and
Research Programs

Cancer Genetic Counseling Program

Esophageal Cancer or
Benign Disease Structure

Fine-Needle Aspiration Biopsy

Image-Guided Body Radiation
Therapy and Stereotactic Body
Radiation Therapy (SBRT) with
the ExacTrac® X-Ray System

Irreversible Electroporation (IRE)
with the NanoKnife®

Lung Cancer Evaluation Center, including
Cryoablation and Radiofrequency Ablation
of Lung Cancers

MammoSite® and Bronchial
HDR Brachytherapy

Mohs Micrographic Surgery

Oral and Intravenous
Radionuclide Therapy

Radio-Immunoglobulin Therapy

RapidArc™ Radiotherapy

Respiratory Gating System

Robotic-Assisted Surgery (da Vinci® S HD™)

3D Conformal Radiation Therapy

Total Body Irradiation

DIGESTIVE DISORDERS INSTITUTE

Gastrointestinal Motility Center

Gastrointestinal Women's Center

Interventional Endoscopy Center

HEART INSTITUTE

Adult Congenital Heart Surgery and Repair

Arrhythmia Surgery, Microwave
Maze Surgery, and Minimal Access
Maze Surgery

Atrial Septal Defect (ASD)

Balloon Angioplasty

Cardiac Assist Device (Impella® 2.5)

Cardiac Catheterization
and Electrophysiology Studies

Cardiac Reconstructive Surgery

Cardiothoracic Surgery

Chest Injury Repair

Chest Pain Center

Coronary Artery Bypass Surgery —
CABG, OPCAB, MIDCAB and
Thoracoscopic CABG

Coronary CTA/Computed Tomography
Angiogram (320-slice CT Scanner)

Coronary Stenting

Drug Eluting Stents

Idiopathic Hypertrophic Subaortic
Stenosis (IHSS)

Intravascular Ultrasound

Laser Angioplasty

Lung Volume Reduction Surgery (LVRS)

Major Aortic Surgery including
Endovascular Aortic Surgery

Pacemaker Implantation and
Automatic Implantable
Cardioverter-Defibrillator (AICD)

Patent Foramen Ovale (PFO)

Radial Artery Bypass Conduits and
Total Arterial Revascularization

Reoperative Surgery and
Gastroepiploic Bypass

Robotic-Assisted Surgery (da Vinci® S HD™)

Robotic Catheter Ablation (Sensei®)

Transmyocardial Revascularization (TMR)

Transradial Cardiac Catheterization

Valve Center

Ventricular Assist Devices, including
Intra-Aortic Balloon Pump (IABP),
Biventricular Assist Device,
Left Ventricular Assist Device (LVAD)

Ventricular Resynchronization

NEUROSCIENCES INSTITUTE

Cerebrovascular and Stroke Center

Aneurysm and Brain Arteriovenous
Malformation (AVM) Management

Cerebral Angiography

Endoscopic Brain Surgery

Endovascular Neurosurgery

Intracranial and Carotid Stenting

Interventional Neuroradiology

Christopher Pendergast ALS Center
of Excellence

AWARDS AND HONORS

CONSUMERS RANK STONY BROOK IN TOP 10 PERCENT

Stony Brook Medicine received a 2011/2012 award where healthcare consumers determine the ranking of hospitals nationwide. As one of just 260 hospitals, Stony Brook ranks in the top 10 percent, the result of a survey of 250,000 households.

BEST DOCTORS

Eighteen full-time and voluntary physicians at Stony Brook were named to *New York Magazine's* 2011 Best Doctors list.

TOP 10 PERCENTILE FOR HANYS PINNACLE AWARDS

HANYS (Healthcare Association of New York State) presented awards for safety achievement to Stony Brook in "Reducing Complications in the Neonatal Intensive Care Unit by Optimizing Nutrition and Growth" and "Increasing Detection and Standardizing Care for the Treatment of Severe Sepsis."

EXCELLENCE IN PATIENT SAFETY AWARD

The Nassau-Suffolk Hospital Council presented Stony Brook with its inaugural patient safety award for achievements in patient safety and quality improvement in decreasing sepsis mortality.

STONY BROOK BECOMES A MENTOR HOSPITAL FOR IHI

Stony Brook University Hospital achieved this status within the Institute for Healthcare Improvement (IHI) by successfully deploying quality initiatives related to Rapid Response Teams, surgical safety checklists and treatment of patients with acute myocardial infarction. Stony Brook continues to function as an IHI Mentor Hospital for daily goal sheets and central line infections so that other hospitals can connect with Stony Brook to learn about its best practices and favorable results.

STONY BROOK FIRST HOSPITAL NATIONWIDE TO SIGN GREEN AGREEMENT WITH EPA

Stony Brook University Hospital was the first hospital in the nation to sign a "green" agreement with the U.S. Environmental Protection Agency (EPA). Under the terms of the "Comprehensive Green Memorandum of Understanding," the institutions are working to mutually reduce the Hospital's environmental footprint.

PARTNER FOR CHANGE AWARD

In 2011 for the fourth consecutive year, Stony Brook has been recognized by Practice Greenhealth with the "Partner for Change Award." The 2010 recognition, "With Distinction," honored Stony Brook for improvement in mercury elimination, waste reduction and pollution prevention programs beyond the Partner for Change basic criteria. Stony Brook is one of only five hospitals in New York State to receive this prestigious award.

STONY BROOK'S TRAUMA SERVICE IS IN THE TOP FOUR PERCENT OF TRAUMA CENTERS NATIONWIDE

According to the report "Survival Measurement and Reporting Trial for Trauma" by the Agency for Healthcare Research and Quality, Stony Brook's Trauma Service ranks in the top four percent nationwide, with the lowest mortality for victims of injury.

OUTSTANDING LEADERSHIP AWARD FROM U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Stony Brook received an Outstanding Leadership Award in 2011 for achievements in eliminating central line-associated bloodstream infections (CLABSI), sponsored by the U.S. Department of Health and Human Services and the Critical Care Societies Collaborative. The Hospital dramatically decreased its hospital-wide CLABSI rates by 59 percent from 2008 to 2010, resulting in a decrease of 1,144 patient days and an estimated cost savings of \$7.6 million.

NAPH SAFETY NET PATIENT SAFETY AWARD

Stony Brook was recognized by the National Association of Public Hospitals and Health Systems (NAPH) as a recipient of the 2011 NAPH Safety Net Patient Safety Award for the Hospital's efforts in the reduction of severe sepsis mortality. From 2006 to 2010, the Hospital demonstrated a 50.8 percent reduction in the incidence of severe sepsis mortality.

AMERICAN COLLEGE OF SURGEONS COMMISSION ON CANCER OUTSTANDING ACHIEVEMENT AWARD

Stony Brook University Cancer Center received the 2011 American College of Surgeons Commission on Cancer Outstanding Achievement Award. This award is designed to recognize cancer programs that strive for excellence in providing quality care to patients with cancer.

STONY BROOK DESIGNATED A UNITEDHEALTH PREMIUM® CARDIAC SPECIALTY CENTER

Stony Brook has been designated a UnitedHealth Premium Cardiac Specialty Center from 2007 to 2009. UnitedHealthcare developed the designation to give its members information about hospitals that meet rigorous quality criteria.

GET WITH THE GUIDELINES® GOLD AWARD FOR HEART FAILURE OUTCOMES

The American Heart Association/American Stroke Association's Get With The Guidelines-Heart Failure program granted the Gold Quality Performance Achievement Award to Stony Brook in recognition of achieving an 85 percent or higher rate on all heart failure indicators aggregated over a 24-month period.

AWARDS AND HONORS

GET WITH THE GUIDELINES®—STROKE PROGRAM

For the second consecutive year, the American Heart Association/American Stroke Association recognized Stony Brook with its Get With The Guidelines—Stroke (GWTG—Stroke) Gold Plus Performance Achievement Award. The award acknowledges Stony Brook’s ability to achieve 85 percent or higher adherence to all GWTG—Stroke quality achievement indicators for two or more consecutive 12-month intervals and 75 percent or higher compliance with six of 10 GWTG—Stroke quality measures.

NATIONAL ASSOCIATION OF CHILDREN’S HOSPITALS AND RELATED INSTITUTIONS

Stony Brook Long Island Children’s Hospital is an associate member of the prestigious National Association of Children’s Hospitals and Related Institutions (NACHRI), a not-for-profit organization of children’s hospitals, large pediatric units of medical centers, and related health systems, including those that specialize in rehabilitative care of children with serious chronic or congenital illnesses.

GASTROENTEROLOGY IS RANKED AMONG NATION’S BEST

U.S. News & World Report’s “2010-11 Best Hospitals” issue ranked Stony Brook’s Division of Gastroenterology among the top 50 in America. With this ranking, Stony Brook Medicine joins an elite group of only 152 medical centers nationwide in 16 specialties.

STONY BROOK’S TRAUMA SERVICE RANKS AMONG THE BEST STATEWIDE

According to a New York State Department of Health report, Stony Brook was among four of 40 trauma centers in the state with survival rates for patients with severe traumatic injury that are significantly above the statewide average. Stony Brook was one of only two in the state recognized twice consecutively for this achievement.

U.S. HEALTH AND HUMAN SERVICES ORGAN DONOR BRONZE MEDAL OF HONOR

Stony Brook was awarded a Bronze Medal of Honor by the U.S. Department of Health and Human Services for its success in increasing the number of organs available for transplantation and recognizing the Hospital’s achievement of a 75 percent conversion rate. Stony Brook is one of eight hospitals in the state and the only one on Long Island to be presented with this prestigious award.

NATIONAL ACCREDITATION FOR CAROL M. BALDWIN BREAST CARE CENTER

The Carol M. Baldwin Breast Care Center was granted three-year/full accreditation by the National Accreditation Program for Breast Centers — the first breast center in New York State to receive such accreditation.

BREAST CARE CENTER DESIGNATED BREAST IMAGING CENTER OF EXCELLENCE

The American College of Radiology has designated the Carol M. Baldwin Breast Care Center a Breast Imaging Center of Excellence and recognizes the Center’s achievement in earning accreditation in mammography, stereotactic breast biopsy, breast ultrasound and ultrasound-guided breast biopsy.

ORTHOPAEDIC RESEARCH AND EDUCATION FOUNDATION CLINICAL RESEARCH AWARD

A team of Stony Brook Medicine researchers received the prestigious 2009 Orthopaedic Research and Education Foundation/Kappa Delta Sorority/American Academy of Orthopaedic Surgeons “Clinical Research Award” for the work they have done in the use of collagenase in treating Dupuytren’s contracture and the use of collagenase for the treatment of frozen shoulder.

PALLIATIVE CARE LEADERSHIP AWARD

The National Consensus Project (NCP) selected Stony Brook’s palliative care program, Survivorship and Supportive Care, recipient of its 2009 Palliative Care Leadership Award. The program is one of nine in the country selected for this award.

STONY BROOK RECOGNIZED FOR PROSTATE CARE

The Prostate Care Program at Stony Brook received a New York State Proclamation in recognition of the program’s continuous prostate cancer screening efforts in Suffolk County. Now in its 17th year, the program has screened more than 15,000 men in Suffolk and Nassau Counties for the disease.

RECOGNITION FOR BLOOD DONATIONS

Stony Brook Medicine was recognized for its efforts in sponsoring blood drives and collecting blood donations with an Award for Blood Donations from the Long Island Blood Services, a division of the New York Blood Center.

“MOST WIRED” AWARD

For the third consecutive year, Stony Brook was named as one of the Top 100 Most Wired Hospitals in the U.S. The award is sponsored by *Hospitals and Health Networks (H&HN)*.

MISSION, VISION, VALUES

OUR MISSION

At Stony Brook Medicine, we improve the lives of our patients, families, and communities, educate skilled healthcare professionals and conduct research that expands clinical knowledge.

OUR VISION

Stony Brook Medicine will be:

- A world-class healthcare institution, recognized for excellence in patient care, research, and healthcare education
- The first choice of patients for their care and the care of their families
- An academic medical center that attracts educators and students with the desire and ability to provide and receive the highest quality, innovative education
- One of the top ranked institutions for scientific research and training

OUR VALUES

Integrity

Compassion

Accountability

Respect

Excellence
