UUP Distance Learning Survey via the Web

Your union is committed to determining the effects of distance and on-line education on our members and their workload. To that end UUP in conjunction with it's Technology Issues statewide committee is conducting a web survey on that issue so that your union may get an accurate and comprehensive picture on distance learning and it's effect on our members. Be assured that all information is confidential, no ISP addresses will be collected and no identifying information will appear in any public document or be shared. The hotlink is attached:
