

To All Faculty and Staff:

Hi Colleagues,

This is to announce the link to the Fall, 2009 issue of the SUNY University Faculty Senate Bulletin. This issue contains articles by the Chancellor, the Chair of the Board of Trustees, the newly-appointed Interim Provost, and the President of the SUNY University Faculty Senate on matters that they believe are important to the SUNY family. In addition, there is some information on the budget (prior to Governor Paterson's Public Higher Education Empowerment and Innovation Act--PHEEIA); announcements of four major appointments to senior administrative positions in SUNY with a brief description of the new appointees; the text of the resolution by the Board of Trustees on "student mobility" (i.e., transfer policies); a detailed report of the activities of the Senate's Committee on Undergraduate Academic Programs and Policies; an innovative proposal for collaborative medical research; a description of the programs at Upstate Medical University; and much more. In short, I believe that you will find the effort to examine the Bulletin quite worthwhile.
