FOR MEREDITH:

This is the last week of work for our Project Archivist, Meredith Bouchard. Meredith worked for several years cataloging the extensive Environmental Defense collection. This collection spans the years 1967 to the early 1990's and consists of documents, board minutes, court proceedings, legislation, periodicals, books and other material. **A thank you card is in the Director's Office. You are welcome to sign this card in appreciation for her work with this valuable addition to Special Collections .**
