LOOKING AHEAD

Chinese New Year begins on February 9th. **It's the year of the rooster !!**
Thank you Janet and Nathan. I stand corrected - my source was not reliable, obviously.

When is the Chinese New Year's Day in Year 2005?

February 9, 2005 is the first day of the new year.

There are three ways to name a Chinese year:

1. By an animal (like a mscot). The new year is known as the Year of the Rooster.
There are 12 animal names; so by this system, year names are re-cycled every 12 years. [More](#).
2. By its Former Name.
The new year is the year of **Yiyou**. By this system, the Name of the Year is repeated and re-cycled every 60 years.
岁次 2005 乙酉
3. It is Year 4702 by Chinese calendar.
