SOLAR SYSTEM UPDATE: (Phil Doesschate - Info Systems)

On Wednesday evening we will apply the following major updates to the HEPROD environment.

- ES 7.6 Bundle #23
- Student Financials Bundle #17

These changes need to be applied to correct problems we have been experiencing in the production environment and to keep current with vendor supplied fixes. The fixes are in student financials, registration, records and admissions.

We will take the HEPROD environment *Wednesday from 5pm until 8:30AM on Thursday morning* to apply the changes. **The SOLAR System and Touchnet Automated Voice Response Systems will also be unavailable during this period.**

We will not provide you with any further notification unless there are problems with the upgrade. Thank you.
