### **STAFF NEWS:**

Keith took the following photos. 1) Helene presented a slide show to feature the prolific French author Duras. There were about 30 staff in attendance who enjoyed viewing the abbey where she did her research and the surrounding picturesque countryside. 2) Three of the four staff who were recently honored at the Service Awards program and reception gathered for a group photo. Missing is Flora Pollydore.

### **RESEARCH FORUM COMING SOON:**

The date is just around the corner, **March 13th and the time is noon - 1:30 pm**. So bring you lunches; the dessert is "on us". Dana and Cynthia will be taking time to tell us about their research projects. **Does anyone else want to join in and tell us about a project idea - either just in the thought process or actually under way ??**

- Dana is working on the early stages of a study of database content overlap.
- Cynthia, as a MMI (Marine Metadata Initiative) collaborator, intends to create and evaluate a template + thesaurus in a category of oceanography (e.g. chemical oceanography).

The location will be either the large conference room or Javits depending on the response. **In the next couple of days let Maryanne know if you will be attending.**

**LIU - C.W. POST HOSTING LECTURE:** Scan001.PDF

John Regazzi mailed the attached notice.  The lecture will include how knowledge will be developed, retained and transferred within organizations and societies. In case you have a free evening and wish to attend, the scanned details are above. It is FREE!

### **AN INCENTIVE:**

The Department of Recycling and Resource Management is challenging us to get caught "green handed." If you get caught by a recycling rep you could win one of three iPod nanos. Your name will be put into a raffle to be held at Earthstock, on the academic mall, April 20th.

*Some ways to get caught are on display in the Director's Office.*
