**A MESSAGE FROM THE SERIALS ACQUISITIONS & CONTROL DEPARTMENT :**

Due to our inability to pay invoices or create new records in NOTIS during the month of March, we have a backlog of more than a month in setting up of new titles, title changes, and invoice payments. With the advent of Aleph, also, our first priority will be to get all of our current issue information input into the new system, a process which could take several months. Since our top priorities have now become invoice processing, setting up of new titles and title changes, and updating current receipt information, coupled with a lack of trained students, we are forced to suspend bindery operations at least until the summer. This service interruption only applies to the Central Reading Room binding; other branch libraries, of course, will continue to set their own priorities relating to binding.

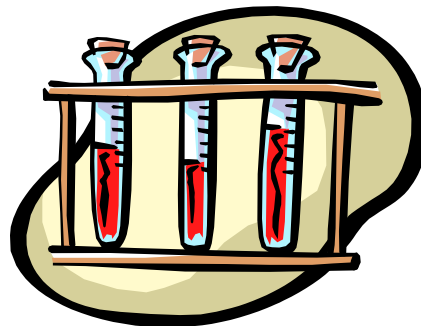

**SEARCH HELP NEEDED:**

The instructor of a library course is looking for a 4 volume set of Library of Congress Subject Headings books. She had left them in the Director's Office while teaching a course last spring and now needs them for the course she is currently teaching. She wrote her name Roslyn Mylroie in these volumes which were donated to her by Tauro College!

If you find these, please send them back to the Director's Office. Thank you.
