

LIBRARY SERVICES COMMITTEE  
Minutes for December 13, 2005

In attendance: Dana Antonucci-Durgan, Meredith Bouchard, Elissa Daub,  
Kristen Nyitray, and Maryanne Vigneaux

LIBRARY ISSUES FORUM:

Dana confirms that John Regazzi will be giving a talk at 11:00 am on January 10<sup>th</sup> in Javits Room. This will allow time for him to join some of the staff for lunch at J-Club. Maryanne will check to make sure that J-Club is open during intersession. A notice will be included in the Library Bulletin. (Aside - We are not paying Regazzi an honorarium as per Chris.)

There will be a forum for library staff on Wednesday, January 4, 12:00 – 1:30 pm in the large conference room, to informally talk about Google, in preparation for Regazzi's talk which will probably include the use of Google by research universities. Dana will get the attachment/link to Regazzi's paper on this topic and also info on Google Scholar to be included in a Bulletin. [Info follows]

On Wednesday, February 15<sup>th</sup>, there will be another forum in the large conference room 12:00 – 1:30 pm, on Wikis and blogging. Elissa will lead this informal discussion.

MIND AND SPIRITS:

About 21 people attended Dan Kinney's presentation of his sabbatical study on 19<sup>th</sup> century organs at the Episcopal church in Stony Brook on December 8, 2005.

We tossed around some ideas for a "more prominent" speaker who would give a presentation to include the campus community. Kristen will check with Greg Hunter to see if he is receptive to presenting a talk on electronic management. Another person, Chris Kretz –sp, is known in the area of pod casting, a means to provide audio information, may be a further contact.

Looking to schedule a speaker for March, Dana mentioned that she could check with Yu Zhou (who works here at Stony Brook) to see if he was available to give a talk on storage of materials.

POSTING OF LSC MINUTES:

It was decided to send the summary of each meeting for the members' approval, then put them on the share folder for all library staff to read. After a year, the summaries could be collapsed into a year file. This could serve as an archival area.
