■ **Pride Patrol prepares for campus clean up** ■ **Family events planned for USB's Open House** ■ **A new research center in the School of Social Welfare**

Still Time to Join 'Pride Patrol'

There's still time to sign up for the "Pride Patrol," the special across-the-university community team that will be scrubbing, shining and sprucing up the campus Friday, April 28.

"Close to 100 people have signed up so far," says Ann Forkin, director of Conferences and Special Events, who is coordinating the volunteers. "But we need to double that number."

A year around effort, "Project Pyramid Of Pride," that will be launched with the April 28 clean-up, will be a joint effort of the Student Alumni Club, headed by Michael Randall, and his dad, Warren Randall, assistant vice provost for undergraduate studies.

This year members of the Pride Patrol will clean up an area near the Engineering Loop, repaint blue step stripes for the visually handicapped, pick up litter, wash windows and plant shrubs."

Members of the Pride Patrol will work one hour shifts. Volunteers will be issued "Pride Patrol" caps and equipment. The day will end with a reception for the volunteers on the main floor of the Administration Building.

If you'd like to volunteer, call 632-6320.

Open House Scheduled May 6

Circle Saturday, May 6 on your calendar. That's the day USB holds its annual Open House.

On that day, Long Islanders will come to explore the campus. While here, they'll tour academic labs and museums, view exhibits and videos and sample a variety of international fare reflecting the cultural diversity of the student body, faculty, staff and surrounding community. In addition, several hundred alumni will be on campus for annual reunions.

The day's events, which will run from 10 a.m. to 4 p.m., will include numerous displays by the university's Health Sciences Center, School of Continuing Education and Admissions Office; performances by the Stony Brook Gospel Choir, PEP Band and Department of Music; puppet shows and a sign language demonstration provided by Middle Country Public Library; a display of fire trucks from the Setauket and Stony Brook fire departments; the Suffolk County Police Department Education Van; and a program for children including face painting and games

"The New Age of U.S. - Japan Relationship," sponsored by the W. Averell Harriman School of Management and Policy, was held April 5. Keynote speakers included from left to right; Ambassador Masamichi Hanabusa, consul general of Japan, Angier Biddle Duke, chancellor of Southampton Campus at Long Island University and former U.S. ambassador, and Spencer Ross, president of the National Institute for World Trade.

provided by USB's Day Care Center.

One of the largest displays will be put together by the Marine Sciences Research Center which will demonstrate the use of oceanographic gear in a large, water-filled tank.

For information call 632-6320.

School to Teach Independence Skills

A resource center for teaching independent living skills to teenagers will be established by the School of Social Welfare with a one-year grant of \$500,000 from the State Department of Social Services.

The center will be geared towards staff of child welfare agencies who work with teenagers who have been moved from foster home to foster home and never learned basic living skills. Staff will get help in teaching teens how to look for an apartment or a job, how to manage their money, how to maintain and balance a checkbook, basics of nutrition and how to cook for themselves.

Modeled after the South Bronx Human Development Organization Independent Living Skills Center, the USB facility will not be housed on the Stony Brook campus. "Since we are a regional center, we will locate closer to New York City," says Betty-Jean Wrase, project director.

She says she expects the center to be operational by fall. Similar centers will be set up by SUC at Buffalo and SUNY at Albany.

Marburger Thanks USB Community for 'Constructive Response'

In the following letter to the university community, President John H. Marburger comments on the controversy that has followed the Suffolk Police Department's arrest of USB senior Quincy Brandon Troupe. Mr. Troupe has been charged in connection with a rape reported to have occurred on the campus March 24.

While the issue is not yet resolved, and may be with us for some time yet, I want to thank students, faculty and staff for the concerned, yet essentially constructive responses to the recently reported rape and subsequent accusation and arrest involving two of our students. Only the legal process can resolve questions that have been raised by the incident. The issues are so sensitive, and are so potentially destructive with respect to both interracial relations and attitudes toward the exploitation of women that every possible means must be tried to prevent a deterioration of goodwill and civility among us.

Therefore, I am particularly pleased to learn both from personal conversations with students and from many reports that the dialogue engendered by the incident is not veering toward hatred and irresponsibility. Demonstrations of concern for justice for the victim and for the accused have been natural responses of a caring community. I am aware of a few cases where faculty have

stimulated discussion of the issues in the context of their courses as encouraged by Vice Provost Jonaitis. I am also aware of strenuous efforts by Student Affairs personnel to devise and implement programs throughout this campus to encourage constructive thinking about the situation.

One result of this measured response has been an unusually sensitive coverage of the incident by the news media. Reporters looking for racial hostility on our campus are not finding it. Nor have they received the impression that women here are in a state of terror. The problems of our campus regarding personal safety, respect for women, and racial tensions are not different from the problems within larger society and need to be discussed and addressed seriously and realistically. While media exploitation of such incidents is to be expected, I am convinced that the agonizing effort of our community to come to grips with this tragedy has minimized misleading negative reporting.

I call upon each of us to continue to respond to this incident with sensitivity and understanding as well as with concern while it unfolds. The mechanisms of justice in our society respond favorably, as we do, to high expectations. Let us establish a high standard for those who have to deal with the situation in its subsequent stages.

SCORES: The lacrosse team defeated Holy Cross 9 - 3 to improve its record to 4 - 1. John Sproat scored four goals and added two assists in the game, and was named Stony Brook Athlete of the Week.

The men's baseball team defeated Queens College 7 - 4, and the women's softball team lost two games to Albany 9 - 4 in eight innings and 9 - 5 in the second game of the doubleheader.

In other sports news, seniors Noreen Heiligenstadt (women's soccer) and Leslie Hathaway (women's basketball) were presented with the New York State Women's Collegiate Athletic Association (NYSWCAA) Scholar-Athlete Award recently in Syracuse. Only seven student-athletes from New York State were chosen for this honor. The award is presented to those student-athletes who have enjoyed success in both the classroom and on the playing field.
