

NEWSBRIEFS

Sunwood Grounds Reopening

Sunwood's Victorian mansion was wrecked by fire in 1986 but the university's 30-acre Old Field estate remains available for use by the campus community. And if a steering committee headed by Carol Marburger and Ben Walcott has its way, even greater use will be made this summer of Sunwood's wooded paths, picnic spots, and Long Island Sound beach. A campus mailing is being sent by the Sunwood Beach and Gardens Group to encourage both recreational uses and grounds development assistance by faculty, staff, graduate students, alumni,

neighbors, and members of the Association for Community and University Cooperation. For those who wish to use the grounds and beach during the summer, admission will be given only to those who have parking passes, which are offered at \$10 for graduate students and \$25 for others. Admission will be available also to those who come to help at a cleanup day this spring or to help any time in cleaning up damage caused by Hurricane Gloria. In addition, donations will help pay for the parking attendant and other costs of maintaining Sunwood's grounds.

Serving with Marburger and Walcott on the steering committee are Ed Beltrami, Bentley Glass, Monica Riley, Jerry Schubel, Alan Tucker, and Eckard Wimmer.

Hearing on Computers

A public hearing will be conducted Wednesday, April 29, at 3 p.m. at Javits 105 on recommendations for the university's future central computing acquisitions. A special task force of the Computer Policy Advisory Board has drafted proposals that are being assessed by the Office of the Vice Provost for Computing and Communications and by Project Hercules. The latter's project manager, Roger J. Pijacki (632-7795), is encouraging those who endorse the plan as well as those who oppose it to participate. Each speaker will be given five minutes. Speakers must file written statements, which will be collected when they register at the door.

The Computing Technical Review Task Force's proposals include: sell the main campus' Vax 8600 and replace it, with either a Vax 8800 or a combination 8600-8700, and support undergraduate computing on the 8350 associated with SINC sites; sell the main campus' 3083JX to University Hospital, and sell the hospital's 3083B to the main campus Computing Center, which would decide either to sell the 3083B or to use it for a future capacity increase (vs. an earlier upgrade to a 3090-180); avoid continued commitment of resources to the Univac 1100/60 facilities; and configure Vax and IBM facilities to provide access from any campus computing environment.

STATE UNIVERSITY OF NEW YORK AT STONY BROOK

April 27, 1987

Jonaitis Named Vice Provost

By ALVIN F. OICKLE

Aldona Jonaitis has been appointed vice provost for undergraduate studies, making permanent a position she has filled on an acting basis since last summer. She is a Stony Brook alumna, art historian, and administrator.

Her appointment was recommended by a search committee headed by Irwin Kra, professor of mathematics.

Jonaitis said: "I'm delighted to have the opportunity to continue my work to promote undergraduate education at Stony Brook. I believe the faculty and students anticipate as much as I the new initiatives that are being prepared for this campus. The staff of Undergraduate Studies is superb, and my job as vice provost could not be done successfully without their expert assistance. Together, we can bring to this great university the level of excellence in undergraduate education that it deserves."

Provost Jerry R. Schubel, in announcing the appointment, noted that Jonaitis has served at every level as she has advanced from undergraduate student to faculty member, head of department, associate provost, acting vice provost, and, now, vice provost. He also used a word—dynamic—heard frequently in referring to Jonaitis.

Said Schubel: "In her brief term as acting vice provost, Aldona Jonaitis has shown herself to be a dynamic administrator and a sensitive advocate of undergraduate students. She has a sure and compelling vision of undergraduate education and an appreciation of students' needs, as well as of their very important role in a university such as Stony Brook. The university is in a period of transition, and I have little doubt that Dr. Jonaitis will continue to play a vital and creative part in

that transition."

President Marburger said: "The choice of Professor Jonaitis as vice provost for undergraduate studies is a felicitous one for Stony Brook. As a Stony Brook alumna and a successful scholar in her own field, she brings insights into the process of undergraduate education at Stony Brook that few can match. Her enthusiasm and sensitivity to student issues promise real progress in such traditionally difficult areas as extracurricular student/faculty interactions and teaching effectiveness."

Jonaitis succeeds Graham Spanier, who left Stony Brook last summer to become provost at Oregon State University. Jonaitis, who had been associate provost during Homer Neal's tenure as provost, agreed last July to serve as acting vice provost while a national search was launched for Spanier's successor.

Kra said: "We considered over 120 candidates, internal and external, some who came to us through the application process and others who were nominated by distinguished colleagues and administrators here and elsewhere. It is the consensus of the search committee that, of all the people considered, Dr. Jonaitis is the best person for the job at this time. She has a strong academic record and has had a brilliant administrative career at Stony Brook. She is extremely devoted to undergraduate education."

Several administrators cited important changes begun by Jonaitis during her term as acting vice provost. These include improved faculty involvement in student advising, steps toward creation of an honors college, and strengthened efforts to attract minority students.

From Student to No. 1 Undergrad

By SUE RISOLI

No doubt about it—Stony Brook's undergraduates are getting a different education than they might have five years ago. Curriculum reform and renewed emphasis on writing are just two of the changes that have stirred things up. And students can count on the new vice provost for undergraduate studies to continue the stirring.

Aldona Jonaitis replaced Graham Spanier after he left Stony Brook last year to become provost at Oregon State University. For her—a long-time member of the campus community—this is an especially rewarding time to be involved with undergraduate education.

High on her list of priorities is increasing faculty-student contact. "These are two groups of people who would like to interact better with each other, but they need help to bring them together," Jonaitis says. "Students say that faculty are inaccessible. At the same time, I hear faculty complain that they sit in their offices during office hours and students don't come to see them." The solution? Jonaitis wants to assign each undergraduate to his or her own adviser, a faculty member who would be available to help from the student's first days on campus through graduation. "Students would get a sense of warmth and concern about their individ-

ual academic needs," says Jonaitis.

"You know," she reflects, "I believe the faculty will enjoy the contact with students. It will enable them to feel involved in campus life." She and her staff plan to set up a pilot advising program next fall and a broader program the following year.

Already in the works is the URECA (Undergraduate Research and Creative Activities) program, which her office oversees. Undergraduates will be teamed with faculty members to form research partnerships in the arts, humanities, and sciences.

"In order to build a great research institution, we have to have a very

solid undergraduate base," says Jonaitis. "We have excellent undergraduates here. Now we must focus on them in order to give them what they need as paying customers."

Jonaitis hopes the increased contact between faculty and staff will yield benefits beyond graduation. "We live in an anti-intellectual society," she observes. "I would like to see us—faculty and staff—work very hard at sharing a love of learning, a sense of culture, and social commitment with our students. We can communicate to them why they're here, and what the benefit of a college education is."

See JONAITIS Page 2

StonyBrook

1957 - 1987

Statesman, April 19, 1959

On Wednesday, microphones were set up in Library Hall in preparation for two hours of speeches as part of Action Wednesday. About 20 speakers, including several faculty members, spoke about current problems ranging from the war in Vietnam and racism to specific Stony Brook problems. All those who wished to speak were heard.

Those "brave" men who burn their draft cards should also forfeit their citizenship rights. Without the draft, what power could any government have? Those people are putting themselves above and beyond the power of the United States. They are the ones who are doing the most damage.

Instead of marching around and shouting, why don't you come up with a realistic and responsible solution to putting an end to this war and to prevent all future Vietnams as well?

Statesman, April 27, 1977

A rally has been scheduled to protest the 12-day jail sentence given to Polity President Gerry Manginelli for his role in February's demonstration on next year's academic calendar. The rally, to be held in the Academic Mall, will join a hunger strike in protest of the sentence.

Here at Shoreham, just 10 miles from campus, we are starting support for our friends in New Hampshire, as well as giving LILCO our thoughts. Please join us (at the protest rally). Speakers and entertainment will be present. And remember...Better to be Active Today Than Radioactive Tomorrow.

For the Record

The list of authors and editors in the April 6 Currents erroneously listed two history professors, Joel Rosenthal and Bernard Semmel, in another academic department.

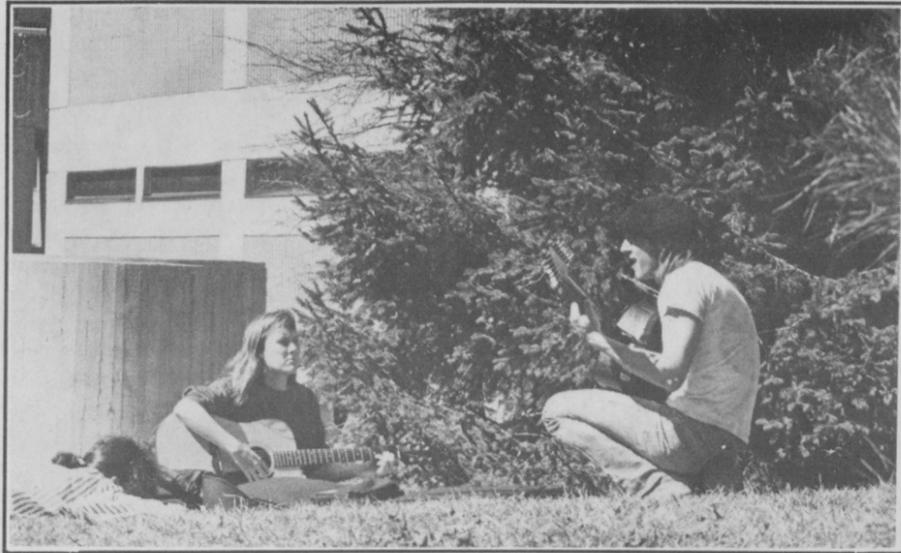

Photo: Sue Dooley

SPRINGTIME is sing-time, and this pair of dueling guitarists seems unaware of what awaits them: a prone ovation from an audience of one.

NEWS BRIEFS

Cooperative Effort Pays

Robert L. Lichter, vice provost for research and graduate studies, has commended those who produced the new Graduate Admissions Directory. The booklet, to be distributed nationally, was prepared under supervision of Ann Carvalho, assistant vice provost. It contains a special acknowledgment for Printing Services. Lichter said: "Production on the tables in the first part of the book was done via computer, the first time the Printing Services has used that procedure. They've done an excellent job and should be commended."

Faculty Opportunities

The Office of the Provost has faculty associate openings for three faculty members: a half-time position beginning July 1 coordinating major lectures and a publication; and two 3-6 months appointments, one in teacher education and one in strategies to promote research and graduate education. For more information, contact Ben Walcott, associate provost.

Cold Spring Harbor Directors

Two Stony Brook faculty members are on the board of the Cold Spring Harbor Laboratory. Sidney Strickland, associate professor of pharmacology, is an institutional trustee, and H. Bentley Glass, distinguished professor emeritus of biological sciences, is an honorary trustee. Glass, a founding member,

chaired the board for six years, 1967-73, and was a director for eight years, 1968-76, of the L.I. Biological Association, a group supporting the laboratory. Bayard D. Clarkson of Memorial Sloan-Kettering Cancer Center was elected chair to succeed Walter H. Page, who retired after 25 years' membership.

Honors for Faculty/Staff

Lenora J. McClean, dean of the School of Nursing, has been elected president of the Mid-Atlantic Regional Nursing Association ... Thomas T. Liao, professor and chair, Technology and Society, gave the keynote address, "Tooling Up for Tomorrow," at the annual conference of SCOPE (Suffolk County Organization for the Promotion of Education) in Smithtown on March 26.

Chaplain Named to Board

The Rev. Robert S. Smith, director of the Chaplaincy Service at University Hospital, has been appointed to the Board of Directors of the United Network for Organ Sharing. UNOS serves as a national organ procurement and transplantation network. The group works to encourage more people to donate organs and to ensure that patients have fair access to donated organs.

Smith is currently a member of the Governor's Task Force on Life and the Law, and serves on the Board of Directors of the Society for Bioethics Consultation. He is adjunct professor in the Department of Community and Preventive Medicine at Stony Brook.

Faculty Development, Travel Awards

Award opportunities are available for new and experienced faculty.

New, non-tenured, tenure-track faculty appointed on or after July 1, 1985 may apply for a Faculty Development Award (maximum \$750). The award can be used for teaching, research, or travel, among other purposes. Closing date for applications is Oct. 15, 1987.

Experienced faculty appointed before July 1, 1985 are eligible for travel awards that can support travel to conferences or seminars, or travel to an institution where the applicant will conduct research. The travel must have begun on or after July 1, 1985 and must be completed no later than September 30, 1988. The application deadline is May 15, 1987.

Applications and award guidelines are available in the Human Resources and United University Professions (UUP) offices on main campus, and at the Health Sciences Center. For information, call Human Resources at 2-6145.

Halpin Reports on University

Patrick G. Halpin, who represents the 11th Assembly District in the New York State Legislature, had some encouraging words to say about Stony Brook in one of his recent weekly "Halpin Reports" columns submitted to Long Island newspapers. He noted that President Marburger had recently outlined for him "developments at Stony Brook that are contributing to the Long Island economy." Halpin noted especially the construction of a veterans nursing home and a high technology incubator, establishment of Stony Brook's Waste Management Institute, and introduction of two academic majors at the Harriman College of Policy and Management. Halpin concluded: "It's good to know that our colleges and universities are turning an eye toward the 21st century, because they truly are the key to the future of the Long Island economy."

Workshop for Physicists

Two Stony Brook faculty members served with three scientists at Brookhaven National Laboratory to organize a recent international workshop, "Electronic Structure and Atomic Dynamics: Simulated Annealing and Related Methods." Phillip Allen, professor of physics, and Jeremy Broughton, assistant professor of material sciences, helped plan the two-day meeting.

Jonaitis—

Continued from Page 1

One group Jonaitis and staff are trying hard to reach is part-time, evening students. Stony Brook has 350 of them. "We have traditionally thought of ourselves as a 'day college,'" Jonaitis says. "We can't afford to do that anymore." Night courses are taught by university faculty, she points out, rather than by part-time teachers—"so evening students don't feel like second-class citizens."

Another group that will come into its own if Jonaitis has anything to say about it is one she calls "foreign-born students who are permanent residents." She says: "They don't qualify as international students, yet their needs are special. Often their academic qualifications are quite good, but they don't speak English well." She also plans to strengthen programs such as AIM (Advancement on Individual Merit), which provides academic and financial support for students who are both academically and economically disadvantaged.

Of continuing interest is Stony Brook's curriculum reform, already in place. Jonaitis says, "We will now be educating students about broad and significant concepts, such as the relationship of American culture to others throughout the world. And every person who graduates has to be validated by his or her department as being competent in writing in their majors." Jonaitis also hopes to help introduce "honors college" programs for academically outstanding students.

Jonaitis herself is a product of Stony Brook. She earned her bachelor's here in art in 1969 ("an interesting time to be on any college campus, but especially here"). While working on her Ph.D. at Columbia University, she says, "I ran into the chairman of Stony Brook's art department and said, 'Do you need someone there to teach primitive art?' They did, I came back, and here I am."

Though she welcomed a switch to administration (first as chair of her department, later as associate provost and acting vice provost), she misses having direct contact with students. "But the job I have now is just terrific," she says. "I get to worry about students again—interact with them, think about what it means to be educated as an undergraduate."

She's still very much involved with her own research on the art of the Indians of the northwest coast of the United States, and she recently finished a book on the subject for the American Museum of Natural History. Scholarship "energizes" her, she says, as does being on campus.

"I've been here for a long time, and I still love it," she says. "Though there's always been a spirit of healthy skepticism at Stony Brook, the fact remains that we have a great deal to be proud of."

"We have to admit it—we're very, very good."

CAMPUS CURRENTS welcomes letters for publication as well as news about faculty and staff at Stony Brook.

FACULTY/STAFF

Faculty in the News

Stony Brook faculty and staff are frequently mentioned in periodicals around the country. Here are a few from recent clippings:

A six-page report in the Smithsonian, the monthly magazine of the national institution in Washington, features the research conclusions of William Arens, professor of anthropology, that cannibalism is a myth ... R. Lorraine Collins, assistant professor of psychology, was mentioned in a Chicago Tribune story reporting on recent research she and two University of Washington colleagues completed on conditions contributing to heavy drinking ... "Your Health," a syndicated newspaper column written by Judith Randal, reported on the research of Leo Sreebny, professor of oral biology and pathology in the School of Dental Medicine. He identified a saliva deficiency among people regularly taking certain medications, and that in turn creates a major risk factor for cavities.

New York newspapers recorded several major faculty activities. The Times noted that Art's Anita Moskowitz was among five Renaissance scholars consulted on the authenticity of a plaster model believed to have been used by Michelangelo for his famous statue of David in Florence. A second Times story, on the resignation of the chancellor of the University of California at Santa Barbara, said that Homer A. Neal, professor of physics and former provost at Stony Brook, was "among the contenders" for the position. Neal

was quoted as saying he "doesn't intend to accept the job." And the Daily News reported on the award of the 1987 McKim Commission of the Library of Congress to Daria Semegen, associate professor of music, to compose a chamber work for the Kennedy Center.

The Jewish Floridian of Miami, among others, listed Robert Goldenberg, associate professor of Judaic studies, on the faculty of the Academy for Jewish Studies at Skidmore College this summer. Professional journal reportage included four Stony Brook activities: David Anaise, Wayne C. Waltzer, Angelo N. Arnold, and Felix T. Rapaport, Department of Surgery, wrote a paper, "Adverse Effects of Cyclosporine A on the Microcirculation of the Cold Preserved Kidney," published in the March issue of the New York State Journal of Medicine ... a letter by Farouque A. Khan, associate professor of medicine, on the subject of "Hypoproteinemic Alkalosis," appeared in the March issue of the American Journal of Medicine ... Jay Steven Danowitz, assistant clinical instructor of internal medicine, wrote a case presentation for the "Problem Patient" department of Hospital Practice magazine's March issue ... John B. Chang, assistant professor of clinical surgery, wrote a report on extra-anatomic bypass in high-risk patients, covered by a story in Surgical Practice News ...

Five Massachusetts newspapers carried reports on our faculty recently. The Cape Cod Times recorded a lecture by Seymour Cohen, distinguished pro-

Photo: Kate Ryan

WILLIAM T. NEWELL, JR. (right), executive director of University Hospital, and State Senator James Lack were among those attending the Nassau-Suffolk Hospital Council's recent legislative luncheon.

fessor emeritus in pharmacology, on Dumas Malone, whose biography of Thomas Jefferson won a Pulitzer Prize ... The Berkshire Eagle of Pittsfield reported on a talk, "On Things I Do Not Know, and Why," given by Clifford Swartz, professor of physics, at North Adams State College ... Monica Bricej, research assistant professor in marine sciences, was quoted on the subject of brown tide in the New Bedford Standard-Times ... An Ipswich Chronicle story featured the research of Raymond J. Dattwyler, director of Stony Brook's Lyme disease clinic ... and the Worcester Evening Gazette interviewed three Bay State cardiologists on the widely reported research on silent

heart attacks by Peter Cohn, professor and chair of cardiology. Typical of their comments: "It's an epidemic of awareness, not an epidemic of pathology."

Amiri Baraka, who chairs the Africana Studies program, was covered in a "musical performance" of his poetry by the News Tribune, Woodbridge, N.J. That newspaper also reported on the Montclair (N.J.) Art Museum's salute to Afro-American art, an exhibit by seven artists, including Howardena Pindell, associate professor of art ... the News-Chronicle of Shippensburg, Pa., reported on a lecture on criticism, given at Dickinson College by Donald Kuspit, professor of art history.

CAMPUS CURRENTS CLASSIFIEDS

JOB POSTINGS

Note: Submit one application for each position to either Main Campus or University Hospital Human Resources Departments. Candidates for state positions identified with an asterisk preceding reference numbers are selected from New York State Civil Service Eligibility Lists. Contact the Human Resources Departments with questions.

Application Deadline: April 27

87-070 - Assistant Vice President for Physical Facilities, Office of Vice President for Campus Operations, PR5, \$37,089-64,550.
87-072 - Associate Director, SIDS Center, School of Social Welfare, PR2E, \$28-32,000.

Application Deadline: April 28

87-035 - Assistant Director of Campus Public Safety, PR2, mid-\$30s.
87-061 - Assistant Operations Analyst, Clinical Practice Management Plan, PR1E, \$16,821-27,000.
87-084 - Assistant to Chair, Chemistry, PR1, \$20-26,900.
87-085 - Programmer/Analyst, Library Director's Office, PR2, \$30,000 minimum.

Application Deadline: April 30

87-080 - Practice Manager, Occupational Medicine/CPMP, PR2E, \$25-38,000.
87-081 - Technical Specialist, Orthopaedics, PR2, \$24-30,000.
87-086 - Assistant to Director, Physics, PR1E, \$18-24,000.
87-087 - Assistant to Dean, School of Allied Health Professions, PR2, \$24-30,000.
87-088 - Assistant to Director, Center for Biotechnology, PR1E, \$13,350-33,500.

Application Deadline: May 4

87-073 - Assistant for University Financial Analysis, Grants Management, PR1E, \$20-25,000.
87-074 - Assistant to Director, Pharmacology, PR1E (part-time), \$16-26,000.
87-075 - Project Associate, Community and Preventive Medicine, RO2, \$25-40,000.
87-076 - Research Associate, Community and Preventive Medicine, RO2, \$25-40,000.
87-077 - Project Assistant, Community and Preventive Medicine, RO1, \$16-30,000.
87-078 - Technical Assistant, Pathology, PR1E, \$20-23,000.
UH-1158 - Associate for University Systems Analysis, Information Systems, PR3, \$24,830-50,000.

UH-1159 - TH Physical Therapist, Physical Therapy Dept., PR1, \$16,821-33,500.
UH-1160 - TH Occupational Therapist, Physical Therapy Dept., PR1, \$16,821-33,500.
UH-1161 - Wage and Salary Assistant, Human Resources, PR1, \$16,821-26,000.
UH-1162 - Associate Director of Nursing, Nursing Administration, PR3, \$24,830-50,000.
UH-1163 - Associate Director of Nursing, Nursing Administration, PR3, \$24,830-50,000.

Application Deadline: May 7

87-059 - Adviser, Undergraduate Studies, PR1, \$18,000.

Application Deadline: May 8

87-038 - Assistant Vice Provost for Special Programs, Undergraduate Studies, PR3, \$42-47,000.

Application Deadline: May 11

UH-1166 - TH Social Worker, Social Work Services, PR2, \$20,025-41,500.
UH-1167 - TH Social Worker, Social Work Services, PR2, \$20,025-34,500.

Application Deadline: May 14

87-042 - Technical Specialist, Surgery (Oncology), PR2, \$20,045-34,500.

Application Deadline: May 15

UH-1168 - TH Respiratory Therapist I, Respiratory Care, PR1, \$16,821-27,000.

Application Deadline: June 1

F-14-87 - Assistant or Associate Professor, Physical Education and Athletics, \$25-35,000.

Application Deadline: Open

F-25-87 - Assistant/Associate Professor, Biostatistician, Psychiatry; salary open.

EVENTS

We welcome contributions to this calendar. To be considered, all events must take place on the campus, and be open to the campus community. Written notices must be received at the Campus Currents office, 328 Administration Building, two weeks prior to date of publication. Telephone calls cannot be accepted. List the type of event, its title, name of leading artists or speakers, date, time, place, cost (if any), and telephone number for more information. We will not publish information that is incomplete or illegible.

MEETINGS

Mondays

ADULT CHILDREN OF ALCOHOLICS, Al-Anon, Mondays, 8-10 p.m., Stony Brook - Union 226; 246-4183 or 246-4613.

Wednesdays

N.O.W., Wednesdays 12-1 p.m., SBS S216; April 29, Jill Sutor, "Married Mothers Return to College;" May 6, Joan Kuchner, "American Mosaic: Cultural Influences on Mothering."

ACADEMIC

Monday, Tuesday, April 27-28

PRIME TIME intensive academic advising for students, final two days.

Monday-Friday, April 27-May 1

ADVANCED REGISTRATION for fall semester for undergraduates.

Monday, May 4

SUMMER SESSION - Registration begins for all Summer Session classes in both terms; Registrar's Office; 10 a.m.-4 p.m. daily. Course bulletins available from offices of Registrar, Summer Session, Undergraduate Studies, Admissions.

Tuesday, May 5

SUMMER SESSION - Registration hours extended from 10 a.m. to 7 p.m. at Registrar's Office for benefit of working students.

EXHIBITIONS

Through May 1

STUDENT EXHIBIT - Painting and Drawing Students Group Exhibition, Student Union Gallery, Mondays-Fridays; 632-6822.

May 4-15

PHOTOGRAPHY by Mel Rosenthal; daily; Student Union Gallery; 632-6822.

Through Summer

FACULTY PUBLICATIONS - Books and journals written and edited during 1986 by faculty members; Administration Building Lobby.

SPORTS

Wednesday, April 29

WOMEN'S SOFTBALL vs Hunter College, 3:30 p.m.

Saturday, May 2

WOMEN'S SOFTBALL vs Dowling College, 12 noon.

COLLOQUIA, SEMINARS

Monday, April 27

MICROBIOLOGY SEMINAR - "Targeting and Regulation of the Activation of Plasminogen," Dr. Walter Mangel, Brookhaven National Laboratory Biology Department; 12 noon; Life Sciences 038.

Wednesday, April 29

N.O.W. - "Married Mothers Return to College," Jill Sutor, Sociology; 12 noon; SBS S216.

WOMEN'S STUDIES - "Determinants of American Women's Status in the Post-War Years," Naomi Rosenthal, SUNY/Old Westbury, and Diane Hereford, William Paterson College; 3 p.m.; SBS S207.

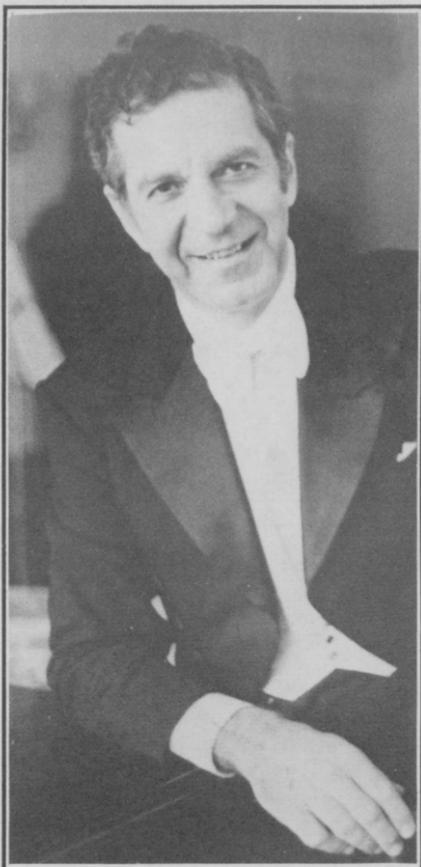

Photo: Laura Rosenberg

CLAUDE FRANK performs on the Main Stage at the Fine Arts Center on May 2 at 8 p.m.

Thursday, April 30

PHYSICAL CHEMISTRY - "Bonding and Chemistry of Metal Cluster Ions;" Dr. S. L. Anderson, Stony Brook; 12 noon; Chemistry 412; 632-7880.

ASTRONOMY COLLOQUIUM - "Accretion Disks Surrounding Young Stars;" S. Kenyon, Center for Astrophysics; 4 p.m.; ESS 450; sponsored by Earth and Space Sciences, 632-8221.

Friday, May 1

BIOLOGY - "Cell Shape and Contacts in the Regulation of Cytoskeletal Expression during Differentiation;" Dr. Avri Ben Ze'ev, Weizmann Institute of Science; 12 noon; Life Sciences 038; sponsored by Graduate Program in Cellular and Developmental Biology.

LECTURES

Friday, May 1

ASTRONOMY OPEN NIGHT - "Quasars: The Most Distant Objects Known," Dr. Martin Gaskell, visitor faculty member; 8 p.m.; Harriman 137; viewing session following, weather permitting, with university's small telescopes; Museum of Long Island Natural Resources and Earth and Space Sciences Library, both in ESS Building, open without charge.

Wednesday, May 6

TIME Honors Darel Stark

Darel Stark, a violinist who has been associated with the university since he was 11 years old, has been honored as one of 80 finalists in the 1987 Time Magazine College Achievement Awards. He was in competition with 600 juniors from more than 300 colleges and universities around the country. He will receive a \$250 cash prize and other awards in recognition of both his academic excellence and outstanding achievement outside the classroom. His achievement appeared in the April 6 edition of Time.

Since he was 6 years old, Stark has had a single goal—to be a great violinist. He began performing at the age of 7 and quickly developed into a talented musician. At 11, Stark joined the Stony Brook Symphony Orchestra. Two years later, while still attending JFK Junior High School in nearby Port Jefferson Station, he was selected as concertmaster of that group and a member of the Stony Brook Graduate Orchestra. He was the youngest person ever to play in either orchestra.

Stark has earned numerous awards in his short career, including two fellowships to the Garth Newel Chamber Festival in Hot Springs, Va. He has performed in more than 100 recitals and concerts around the nation, and is familiar to Fine Arts Center audiences for his recital work. A student at Stony Brook of Lazar Gosman, Stark will represent the United States this month in the Yehudi Menuhin International Violin Competition in Folkestone, England.

Music Note

Conductor Steve Freides will lead Stony Brook's Camerata Singers in a free concert of German Baroque music and American contemporary works at 8 p.m. May 17 in the Fine Arts Center Recital Hall. The program includes Schein's "Die mit Tranen saen," Bach's "Lobel den Herrn," Pinkham's "Wedding Cantata," and a just-published work titled "Songstream," which features the poetry of Edna St. Vincent Millay, set to music by composer Alice Parker.
