■ Reviewing the master plan May 8 ■ A panel will continue its probe into an alleged hazing incident ■ Construction on campus swings into high gear.

#### Master Plan Presentation Set for Monday

What will the University at Stony Brook look like in the year 2015?

The general university community will get its first glimpse next week of a master plan projecting the development of the university over the next 25 years. Ben Walcott, associate provost and chair of the campus advisory committee that has been working with the architects, will present the firm's preliminary plan for land usage Monday, May 8, at 3:30 p.m. in Room 109 of the Javits Lecture Center. Faculty, staff and students are invited to the session, which is sponsored by the Long-Range Planning Committee of the University Senate.

At this stage, noted Dr. Walcott, "nothing is set in concrete. The architects have produced a variety of designs to solve certain problems—such as parking, excessive vehicular traffic on the mall, and older buildings in need of rehabilitation. We are at the stage now of soliciting comments and testing solutions."

The architects, who are with Perkins and Will, New York City, have been scrutinizing the campus for the last eight months—studying traffic flows, pedestrian patterns, signage, and a long list of other factors that ultimately determine how the campus works.

They have incorporated into their designs not only the perspectives of faculty, students and staff, but also those of community representatives. A 14-member "Community Advisory Council," chaired by former Town of Brookhaven planner Vincent Donnelly, has provided input from town officials and civic leaders, including the chiefs of the Setauket and Stony Brook Fire Departments, the mayor of Oldfield, the president of the Three Village Civic Association, a representative from the Three Village School School District and a representative from the Brookhaven Department of Planning, Environment and Development. A full presentation of the master plan will be made to the council later this month.

The architects aim to produce the final plan for the campus by July, said Dr. Walcott.

#### Panel to Study Alleged Hazing Incident

A panel of students will continue its probe May 8 into charges that a USB senior was physically abused last February during unauthorized pledging by four members of the Stony Brook chapter of Kappa Alpha Psi. The fraternity has been on suspension since March 6.

Details of the incident also have been sent to the Suffolk County District Attorney's Office which could press criminal charges against fraternity members named in the complaint.

The May 8 campus administrative hearing reconvenes an earlier session that was halted April 24 after participants got into a lunch hour scuffle that had to be broken up by public safety officers. When the shoving resumed outside the hearing room, Associate Dean of Students Gary Mis called a halt to the proceedings. Additional security will be on hand for the next hearing.

The four students charged with alleged violations of the University Student Conduct Code were issued executive suspensions from the university on March 7, barring them from the campus in anticipation of a March 27 hearing on the matter. But when the complainant asked for a postponement, the four were reinstated and were able to resume class attendance and campus residency.

#### Mild Weather Signals New Construction

The pounding of hammers, buzzing of power saws and the roar of the bulldozer will become familiar sounds on campus this spring.

A mild winter allowed work to proceed on several construction projects. Others await warmer temperatures,

with more than three dozen projects targeted for a spring

Work has continued over the winter on the \$25 million Long Island State Veterans Home which is a half mile from University Hospital. When completed in 1990, the three-story brick building will house 350 beds and will employ a staff of 400. Construction is being coordinated by the State Office of General Services.

Also under construction is the \$17 million 70,000 square foot field house. With seating for 5,000, the new field house which will accommodate athletic events and other major activities. Scheduled for completion by fall, 1990, the field house will double the amount of seating in the existing gymnasium.

Other major projects now underway include a \$9 million addition to the School of Dental Medicine and a \$2 million renovation to the Ambulatory Care Pavilion at University Hospital, scheduled for completion by August, 1990

By October, the scaffolding that has encased the Basic Sciences Core at the Health Sciences Center will be removed, marking the end of a \$1.3 million repair job.

G Quad, Kelly Quad, Roth Quad, Tabler and Roosevelt Quad residence halls are all targeted for repairs. About \$1 million in interior repairs and renovations to buildings K and L in the Chapin Apartment complex will begin in July. The total cost will be just over \$4.4 million.

#### **USB Establishes International Program**

A program in Continuing International Education (CIE) has been established at USB; it is a collaborative effort between the Department of Political Science and the School of Continuing Education.

One of the program's main purposes will be to involve the Long Island community and New York-based international organizations, including the United Nations, in activities which would be of practical use to Long Island in terms of business skills and world-wide interaction.

Among the activities planned is a May conference, "Peace Through Trade: The Soviet Union and Long Island," to be held at the United Nations. The conference is co-sponsored by USB and the United Nations and will be chaired by Nassau County Executive Thomas Gulotta. Graduate and undergraduate courses in international studies offered by the School of Continuing Education are planned for spring 1990.

Yassin El-Ayouty, a visiting professor of political science at USB since 1972, has been named director of CIE. A Fulbright Scholar, he is a former principal officer of the United Nations, where he served for 32 years at its

spring headqua

headquarters and abroad in international politics, security and public interest and Third World affairs.

For information, contact Dr. El-Ayouty at 632-7641.

SCORES: The men's baseball team swept a doubleheader from Manhattanville 8-4 and 6-0 to move into first place in the Knickerbocker Conference. The Patriots are now 12-8 overall, 9-6 in the conference.

The women's track team captured the Stony Brook Invitational on April 30. Sarah Lenchner was a triple winner, capturing the high jump in a school record 5 feet, 5.25 inches, the triple jump with an effort of 38 feet, 2.5 inches, and the long jump with a leap of 18 feet, 4.5 inches. Claudette Mathis won the 800-meters in a time of 2:20.5

The men's team finished second in the invitational. All-American Jean Massillon set a school record in the 110-meter high hurdles in a time of 14.4 seconds

The lacrosse team dropped a 10-8 decision to Georgetown.
