## Enrollment Figures Show Stony Brook On Upswing

By Wendy Greenfield

Enrollment is up by 3.2 percent on the main campus and 3.9 percent at the Health Sciences Center, compared to last year's figures.

The total number of undergraduate and graduate enrollment on main campus is 14,975, compared to last year's figure of 14,509. At HSC, total enrollment is 1,743, compared to 1,678 last year.

Graduate school enrollment experienced the largest upswing. On main campus, the number of graduate students increased by 9.9 percent to 4,212; at the Health Sciences Center, by 8.2 percent to 745 students. Undergraduate enrollment increased 0.8 percent on main campus to 10,763, while at the Health Sciences Center it declined by 5.4 percent to 505.

One of the major contributions to the increased enrollment in graduate studies is the School of Continuing Education.

Full-time enrollment is up 37 percent from last year, from 91 students to 125. Part-time enrollment increased 19 percent, from 1,335 to 1,587. Total enrollment overall numbers 1,712, a 20 percent increase compared to last year's figure of 1,426.

Paul Edelson, dean of the School of Continuing Education, attributes the increase to the expansion of new programs, the growth of off-campus enrollment and favorable publicity about the school.

"As new programs come in, the growth will skyrocket," Edelson predicts, adding that within the next five years he expects an enrollment of at least 3,000 students.

New programs to come on board in the near future include a master's of arts in teaching, a master's of professional studies and five certificate programs.

Undergraduate enrollment is up this year on main campus, thanks to transfer students and those enrolled in the part-time evening program.

Though the number of full-time, matriculated

freshmen declined by 150, the number of full-time, matriculated transfers increased by 133 and (matriculated and non-matriculated) part-time students, by 134.

"What has happened is the pool of high school graduates has been and will continue to decrease," said Theresa LaRocca-Meyer, director of admissions and dean of enrollment planning.

As a result, Stony Brook has stepped up recruitment efforts for high school graduates, as well as transfer students and part-timers.

Campus officials attribute the growth in the two latter groups to increased outreach at the Island's two-year colleges and an expansion of the part-time evening program.

The part-time evening program has increased dramatically over the past two years, said Nancy Rothman, assistant vice provost for Undergraduate Studies and director of the undergraduate evening program. The number of courses has grown from 20 to more than 100, and the number of students has soared from 80 to nearly 500.

Two programs are largely responsible for the increase in transfers. Freshmen at Nassau and Suffolk County Community Colleges and SUC Farmingdale who are in a joint admissions program with Stony Brook are guaranteed admission to the university upon successful completion of an associate's degree in arts or science. As part of this program, Stony Brook counselors provide academic advising to community college students on their campuses.

Another contribution to the recruitment effort has been joint planning between Stony Brook and the two-year colleges, in areas such as curriculum development.

"The programs have helped a great deal," said Rothman, who developed both efforts last spring. "We've developed a positive feeling between the two-year colleges and Stony Brook."

Another effort that helped boost transfer enrollment

was On-Site Transfer Day last June, sponsored by the Admissions Office, when 100 transfer students turned out in the Student Union to get information about Stony Brook or be admitted to the university. Of the 100 who showed up, 80 were accepted, said Elaine Kaplan, assistant vice provost for Undergraduate Studies and director of the transfer program.

Kaplan said the university is able to attract transfers because of the quality of our undergraduate program. In addition, the high cost of private colleges makes Stony Brook an attractive choice.

"Students go away for a year or two, then they'll run out of money," Kaplan explained. "Going to school closer to home allows them to work and save money."

## Humanities Institute Puts University In Forefront of National Trend

By Wendy Greenfield

If humanities institutes are the "creative way to do the humanities these days," as a University of California professor puts it, then Stony Brook can count itself in the vanguard.

Stony Brook's year-old Humanities Institute is now one of more than 300 on campuses nationwide. With humanities institutes proliferating, they are now a major part of the resurgent interest in humanities scholarship, scholars say.

Stony Brook's institute serves as a center where faculty members and graduate students work on their own projects, in addition to teaching. The institute sponsors faculty seminars and reading groups, lecture series, symposia and other public programs. One of the institute's aims is to bring in international scholars.

"Interdisciplinary work cannot easily be accommodated in the confines of a department," said Humanities Institute Director E. Ann Kaplan. "There was a need for space where people could meet and discuss their work across disciplines."

With Kaplan's interest in women's studies, the institute ran a faculty seminar last spring on "Motherhood and Representation" that discussed philosophy, literary theory, sociological theory and history regarding the image of motherhood. Kaplan said the seminars have also served as a resource for some faculty members who have used the material in their undergraduate classes.

As director, Kaplan is free to teach a graduate course of her choosing. This fall, she is teaching "Psychoanalysis and the Arts," with Professor Donald Kuspit.

Kaplan said one of the major goals of the institute is to attract international scholars. Last month, the institute sponsored a two-day conference on the work of Louis Althusser, one of the most controversial philosophers of western Marxism, and a lecture by Jacques Derrida, one of the most well-known and influential French post-structural theorists.

Both events drew a large crowd, Kaplan noted. At the Althusser conference, students and faculty came from the University of Massachusetts, Amherst College, the University of Pennsylvania and New York University. At the Derrida lecture, faculty and students from New York University and local two-year colleges were among the audience.

The institute also publishes a journal, "The Stony Brook Bulletin for Theory and Criticism," which includes work sponsored by the institute. The first issue is scheduled to be released in January.

Faculty members involved with the institute are optimistic about its goals. Adrienne Munich, assistant professor of English, said she finds the activities "stimulating and enriching."

"It's essential because it keeps us from being isolated in our departments," she said. "Now, we have a network of humanists within the university."

## Kuschner Awarded The Highest Honor On Campus

By Wendy Greenfield

Dr. Marvin Kuschner, distinguished lung cancer researcher who served as dean of the School of Medicine from 1975 until this year, received the University Medal at a symposium in his honor Sept. 30 in the Health Sciences Center.

The University Medal, presented by President John H. Marburger, is given to someone for extraordinary service or accomplishment.

Dr. Thomas Cottrell, associate dean for clinical affairs in the School of Medicine, announced that an endowed professorship will be established in Kuschner's name.

Kuschner is nationally recognized as one of the foremost investigators in the causes of lung cancer and as a leading environmental medicine clinician. He came to Stony Brook in 1970 as professor and chairman of pathology. Kuschner served as president of the medical board of University Hospital and president of the Associated Medical Schools of New York. He also served as chairman of the Environmental Health Sciences Review Committee of the National Institute of Environmental Health Sciences.

He is chairman of the board of trustees of Associated Universities, the corporate organization that provides policies and guidance for Brookhaven National

Dr. Marvin Kuschner

Laboratory and the National Radio Astronomy Observatory in Green Bank, W.Va. He is also a member of the board of trustees of Winthrop University Hospital.

Among those who received the University Medal award in the past were Richard P. Schmidt, acting president of the university from 1979-80; T. Alexander Pond, acting president from 1978-79 and executive vice president from 1968-78; and former U.S. Sen. Jacob Javits.

## MERIT Award Will Extend Pilgis' Diabetes Research

Dr. Simon J. Pilgis, chairman of the Department of Physiology and Biophysics, has received a MERIT Award (Method to Extend Research in Time) from the National Institutes of Health for his work on the regulation of gluconeogenesis and glycolysis.

The awards are given to investigators who are leaders in their fields based on reviews of their research both by a NIH study section and by an NIH advisory council. The awards fund their research for five years plus an additional three to five years.

In Pilgis' case, he will receive about \$3.5 million. In the last grant review cycle only 12 such awards were given out. Stony Brook's Health Science Center investigators accounted for 25 percent of such awards, which reflects the excellence of basic science research here.

Pilgis is studying the mechanism whereby hormones, such as insulin,

regulate the rate of glucose production by the liver. The liver is the key organ in the body for the control of blood glucose. Disruptions in that control result in disease states such as diabetes which is responsible for serious eye, neurological and renal complications.

One of the goals of Pilgis' research is to better understand how the liver's metabolic pathways for glucose production and utilization are regulated at the molecular level so that it will be possible to design drugs and therapies for the diabetic patient.

Pilgis' lab was responsible for the discovery of a sugar disphosphate which acts as a signal molecule which tells the liver to utilize or produce glucose.

Pilgis hopes that his research result will result in better treatments for diseases such as diabetes as well as providing basic information on the modulation of such key regulatory proteins.

Stony Brook Librarian Virginia Rasbold sets up a display of banned books for the censorship conference hosted on campus last week. The conference also included a lecture by Harvard Law Professor Arthur Miller, and an address by Ira Glasser, director of the American Civil Liberties Union.

## Women Lose In Final Round Of Soccer Tournament

The first annual Holiday Inn at MacArthur Airport Women's Soccer Invitational turned out well despite a 3-0 loss by the host Lady Patriots to the University of California-San Diego in the championship game.

Stony Brook advanced to the championship game of last week's tournament by defeating Franklin & Marshall 2-0 as Lisa Paladino and Rose Hickey scored goals. Dawn McHugh recorded the shutout. Cal-San Diego defeated the two-time defending national champion University of Rochester 5-2 in overtime in the other first round game.

San Diego goalkeeper Julie Freiss recorded her seventh shutout of the season in the championship game, as the Tritons improved their record to 9-0. Rochester defeated Franklin & Marshall 4-2 in the consolation game.

McHugh, Hickey, and Michele Turchiano were named to the All-Tournament Team from Stony Brook.

In addition to some fine college soccer (all three invited teams — California-San Diego, the University of Rochester, and Franklin & Marshall — are Top 10) the tournament also featured a youth soccer clinic for young female players, their parents and coaches. The clinic attracted

over 300 people to the university.

On Sunday, the Stony Brook Soccer Shoot For Loot, challenged six contestants to kick a soccer ball through a special target for a \$25,000 prize. Although there were some close calls, no one succeeded in winning the prize.

The men's soccer team will host the Stony Brook Student Life Invitational on Saturday and Sunday Oct. 8-9. The University at Albany, Haverford, and Muhlenberg will challenge Stony Brook for the title.

A youth soccer clinic for boys, their parents and coaches will take place on Oct. 8 at 10 a.m. The rain date is Sunday, Oct. 9. For more information, call 632-7205. In the event of inclement weather on Oct. 8, call the Sports Information Office at 632-7287.

### Important Notice

University Convocation Date Correction:

A letter dated Sept. 23 from the Provost's office to all faculty and staff showed an incorrect date. The next convocation will be held Wednesday, Oct. 5, 1988.

## Almanac

### Appointments

◆ Pat Murray, Sports Information Director at Stony Brook has been appointed to the Committee on Women's Sports Information and Promotion by the College Sports Information Directors of America (CoSIDA). Before coming to Stony Brook, Murray was the Women's Sports Information Director at Canisius College.

### Awards/Honors

◆ Dr. Max F i n k , professor of psychiatry, has been awarded the annual Gold Medal of the Society of Biological Psychiatry for

contributions in experimental psychiatry, particularly for his studies of convulsive therapy and the effects of drugs on the human brain.

◆ Kathryn Moss, assistant professor in the School of Social Welfare, was recently recognized for her article, "The 'Baby Doe' Legislation: Its Rise and Fall," which was published in the Policy Studies

Journal in 1987.

Moss was named the fifth annual recipient of the Theodore Lowi Award, given for the most outstanding article submitted to the journal in a given year.

The journal is a publication of the Policy Studies Organization, a group that promotes application of political and social sciences to policy problems.

◆ Five employees received 1988 President's Awards for Excellence in Classified Service.

They are: William Schultz, safety specialist, Department of Environmental Health and Safety; Mary Galary, senior stenographer, Psychology; Joanne Elsesser, secretary to the president; Virginia Stuart, senior stenographer, Office of Admissions; and Thomas Gomez, chief janitor, Custodial Services.

Initiated by President John H. Marburger, the annual awards also include categories of librarianship, teaching, professional service, affirmative action and research. Each recipient is awarded \$500.

◆ Five Stony Brook graduate students have received research awards from the Geological Society of America to support their dissertation research.

The students are: Peter Rude, Marine Sciences; James Scoates; Bruce Fouke; William Meurer; and Erik Oswald. The latter four are all in the Department of Earth and Space Sciences.

Board members of the campus University Association present a check for \$200 to Monica Roth, director of the Office of Disabled. The association serves the university by welcoming new arrivals, providing undergraduate scholarships and assisting campus and community programs. (Left to right) Barbara Grannis, Dr. Joan Kuchner, Carol Marburger, Monica Roth, and Elise Frank.

## CAMPUS CURRENTS

Director of News Services  
Vicky Penner Katz

Assistant Director  
Sue Risoli

Managing Editor  
Joseph M. Caiola

Senior Writer  
Wendy Greenfield

Campus Currents is published weekly during the academic year by the Office of University Affairs, 322 Administration Building, State University of New York at Stony Brook, Stony Brook, NY 11794-0605. Phone: 516/632-6310.

Currents welcomes material from the university community. "People" items, Notices and Calendar listings should be submitted two weeks prior to publication date of the issue in which they should appear. These items may also be sent via the All-In-1 network to SRISOLI or JCAIOLA. News of significant national or regional interest should be discussed directly with News Services Director Vicky Penner Katz or Assistant Director Sue Risoli (632-6310).

**StonyBrook**

# People

Items for "People" should be directed to Assistant Director Sue Risoli, 319 Administration Building.

## University Senate Election Results Announced

Results of the 1988-89 University Senate elections have been announced.

Members of standing committees (two-year terms) are as follows: administrative review—Florence Boroson, College of Arts and Sciences; campus environment—Ann Forkin, conferences and events; CED council—Constance T. Welzel, nursing; education and teaching policy—Sandra Burner and Laurie Johnson, undergraduate studies; long-range planning—Eleanor Kra, School of Allied Health Professions; resource allocation and budget—Joan Moos, undergraduate studies—Richard Wueste, general institutional services; undergraduate admissions, Monica Roth, admissions.

Also elected were Toni Edwards, registrar's office—two-year term, College of Arts and Sciences Committee

for Academic Standing and Appeals; Lois Koh, engineering and support shops—three-year term, College of Engineering and Applied Sciences senator; Lorraine Manzella, University Hospital fiscal services and Edward Rock, radiology—three-year terms, HSC/University Hospital senators.

Results of the state-wide SUNY senate election are as follows (all are three-year terms): senators are Beverly Birns, social sciences interdisciplinary and Ruth Shepard, psychology. Alternates are James Keene, career development; Martin Rosenfeld, allied health professions, John Russell, Germanic and Slavic languages.

Elected to the Faculty Student Association, Class-A members, three-year terms were Mary Bruno, philosophy and Gary Matthews, physical facilities.

## Conference Explores Asian/Asian-American Stereotypes

The popular view of Asian and Asian-American students as "superachievers" can be damaging and misleading. Now the university is holding a one-day conference for faculty and staff, to explore the stereotype of the "model minority."

The conference will be held 9 a.m. to 5 p.m. on Oct. 20, in the Alliance Room in the basement of the Frank Melville, Jr. Memorial Library. It will include an address by Dr. Derald Wing Sue, professor of educational psychology at California State University at Hayward, on "Cultural Differences with Asian and Asian-

American Students."

Please R.S.V.P. by Oct. 11 to JoAnn Rosen or Barbara Oliva, at 2-6720 or 2-6725.

The program is sponsored by the University Counseling Center, in cooperation with the Asian Students Association, the Office of Equal Opportunity/Affirmative Action, the Office of Foreign Student Affairs, the Graduate School, International Programs, the President's Office, the Provost's Office, Student Affairs, and the Office of Undergraduate Studies.

The search is on for Provost Jerry Schubel's successor. Schubel will return to the MSRC.

## Schubel Leaving Provost Post; Successor Sought

The search to find a successor to Provost Jerry R. Schubel is in progress.

Schubel is returning to the Marine Sciences Research Center, where he served as director since 1974, and dean and director since 1983, before becoming provost in 1986.

According to Edward S. Katkin, chairman of the Psychology Department and chair of the provostial search committee, candidates will be sought locally as well as nationwide and internationally. The position begins July 1, 1989.

"We are hoping to broaden our search by publishing in *Campus Currents*," said Katkin, who stressed his interest in candidates put forth by members of the campus community.

Candidates must have a distinguished record of scholarship and must have had administrative experience at dean's level or higher, at complex institutions such as graduate or professional schools.

In addition, candidates should, ideally, be "familiar with the complexities of a state university bureaucracy," said Katkin.

# Bulletin Board

## Notices

Academic and administrative notices should be directed to Assistant Director Sue Risoli, 319 Administration Building.

◆ **Walk Service:** Public Safety's walk service provides student escorts to faculty, staff or students from 9:30 p.m. to 3 a.m. on campus. Those interested may call the Student Public Safety Auxiliary at 2-6348. The service is free. Last year, students made 600 walks as part of the service.

◆ **Psychology Honors Program:** Sophomore Undergraduates are being interviewed for acceptance into the Psychology Department's Honors Program. The program begins with a Junior Year Seminar and ends with the completion of a faculty-sponsored research project. Requirements: overall GPA of 3.00, psychology GPA of 3.5 (exceptions individually considered). Applications and information available at Prime Time and in Undergraduate Psychology Office, Psychology B 117.

◆ **Change in garage parking:** Plaza level parking at University Hospital, made available temporarily during construction of the third tier of the parking garage, will no longer be available as of Oct. 3. Construction of the third tier has been completed, and there are now sufficient spaces available in the garage.

◆ **Honor Society for Psychology:** Psi Chi, the National Honor Society in Psychology, founded in 1929, has a Stony Brook Chapter which is accepting

eligible a student must be registered as a Psychology major and have an overall GPA of 3.0 with a GPA of 3.3 in psychology. There is a one-time application and membership fee of \$30. Interested students should contact the Chapter President, Hilda Kong, who is available in the Psychology Advisement Office, Psychology B-116, on Tuesdays from 3 p.m. - 4 p.m.

◆ **Female Support Group:** A support group for female graduate students with children is being offered by the University Counseling Center, Monday through Friday, 10 a.m. to 3 p.m., on the second floor of the Infirmary Building. For information call the center at 2-6720.

◆ **Association seeks antiques:** The Alumni Association is looking for convertibles and antique cars for the university's homecoming parade, to be held Oct. 22 at 10:30 a.m. Contact Ann Begam, director of Alumni Affairs, at 2-6330 by Oct. 7.

◆ **All current full-time students eligible:** ACUI REGION 3 Annual Photo Competition. \$50 purchase prize. Call 632-6822 for more information.

◆ **English As A Second Language, Fall '88:** Sponsored by New York State and CSEA. Classes that began Sept. 13 will continue through Dec. 21 from 10 a.m. to 3:30 p.m. in SBS Room N115. Call Millie at 632-6575.

## Employment

### POSITIONS AVAILABLE

NOTE: Submit one application for each position to either Main Campus or University Hospital Human Resources departments. Candidates for state positions that are identified with an asterisk preceding reference numbers are selected from New York State Civil Service eligibility lists. Contact the Human Resources departments with questions.

Application Deadline October 5

\*C-251-88 - Senior Stenographer, SG-9, Student Affairs  
UH-2144 - Th Assistant Director of Nursing, SL5 (\$4,000-56,000), Cvicu

Application Deadline October 7

#88-189 - Personnel Associate, PR-1, (18,000-25,000), Human Resources  
#88-186 - Research Assistant, RO-1 (20,000-25,000), Pharmacology

Application Deadline October 10

#88-194 - Lead Programmer Analyst, SL-3, \$34,000, Academic Computing Support

Application Deadline October 21

UH-#2147 - Th Medical Instrumentation Assoc., SL-2, (21,000-28,000), Biomedical Engineering  
UH-2146 - Senior Programmer Analyst, SL-4, (35,000-45,000), Technical Support  
UH #2145 - Th Financial Analyst, SL-3, (\$28,000-34,000), Cost and Budget

Application Deadline October 24

#88-188 - Research Assistant, RO-1, (\$18,000-20,000), Microbiology  
#88-613 - Technical Specialist, PR-1E,

(\$15,000-25,000), Division of Surgery Oncology/Department of Surgery  
#88-187 - Assistant for University Financial Analysis, PR-2E, (\$25,000-37,000), Surgery  
#88-185 - Technical Specialist, PR-2E, (\$25,000-33,000), Allergy/Rheumatology and Clinical Immunology

Application Deadline October 27

#88-190 - Project Staff Assistant, SE-3, (\$24,000-28,000), Harriman School of Management and Policy

### EMPLOYEE RELATIONS UPDATE

◆ **Estee Lauder**— Admission tickets to the Estee Lauder Warehouse Sale on Oct. 8 are available at the Office of Human Resources.

◆ **Stony Brook Film Society**— *Pandora's Box*, with Louise Brooks. Wednesday, Oct. 12. 7 p.m., Stony Brook Union. Reception, refreshments and introductory talk by Professor Jim Harvey.

◆ **Career Women's Luncheon.** Tuesday, Oct. 18, noon. Stony Brook Union, Room 201 (adjacent to End of the Bridge). Ruth Brandwein, Dean of The School of Social Welfare will speak about "Women on the Move." Call Faith Devitt, 2-6474 for reservations and menu selection.

◆ **Trip to Reading, Pa.**— Oct. 29. Departing 7 a.m. for a day of shopping at the factory outlet centers. \$24 round trip bus fare. Call Angie Healy, 2-6096. All monies must be in by Oct. 12.

# Upcoming

Calendar items, event material and photos should be sent to the Upcoming Editor, 319 Administration Building.

## Monday October 3

**Astrophysical Journal Club**, ESS Room 450, noon

**Seminar Series: Molecular Endocrinology and Cell Biology** — "Receptor Recycling and Acidified Compartments" Dr. Frederick R. Maxfield, Dept. of Pathology, Columbia University, to be held in Dept. of Physiology and Biophysics, Basic Sciences Tower, Rm. 140, T-6, 4 p.m.

**Seminar: Beta-Lactamase** — Structure and Function from x-ray crystallography. Dr. Osnat Herzberg, Center for Advanced Research in Biotechnology, University of Maryland. Life Sciences Lab. Noon, Room 038.

**Seminar: Computer Modeling of Protein Structure.** Dr. John Moulton, Center for Advanced Research in Biotechnology, University of Maryland. Life Sciences Lab. 4 p.m., Room 038.

**Sophomores: Health Professions Applicants meeting today.** Professor Thomas Kerth, Faculty Associate for Health Professions. Humanities 101 - 5 p.m. - 6:30 p.m.

## Tuesday October 4

**X-Ray Diffraction and Crystal Structure Analysis**, Professors Lauher and Koch, Chemistry, Room 412, 7 p.m. - 10 p.m.

**Town Meeting of the Air/Stony Brook Forum.** Topic: "The State of Our Nation, And its Peoples, and Un-resolved Issues Facing the Newly Elected Administration." Stony Brook panelists: Rev. William Brisotti, Eloy Carlson, Max Dresden, Bruce Hare, Sandra Hinson, Lee Koppelman, Donald Petry, and Joel Rosenthal (moderator).

## Wednesday October 5

**University Convocation Series:** Aldona Jonaitis, Vice Provost for Undergraduate Studies. Topic: "Opening the Stony Brook Mind: The Next Step." A dialogue with the campus community on the continued reforms of the undergraduate general education program. Panel: Diane Barthel, Sarah Fuller, Theodore Goldfarb, Robert Kerber and Joel Rosenthal. Recital Hall, Fine Arts Center, 12:15 p.m.

**Psychology Colloquium:** "Behavioral & Non-Behavioral Therapies: Is Integration Possible?" Speakers: Marvin R. Goldfried, SUNY Stony Brook, G. Terence Wilson, Rutgers University, Javits Lecture Center, Room 109, 4 p.m.

**NOW "Brown-Bag" Meeting.** Bring your lunch and join us for informal discussion and friendship. Room 216, Social and Behavioral Sciences, noon.

**The Group Workshop Program: Acquaintance Rape:** Sheila Curtin, M. Ed., Sue Riseling. One session workshop. Noon - 1 p.m. Advance registration required.

**The Empty Nest: For Parents Whose Children Have Gone Off to College:** Blossom Silberman, M.S.W. - a four-session workshop, meets from 12:15 p.m. - 1:15 p.m. Oct. 5, 12, 19 and 26. Advance registration required.

**Study Skills:** From 12 p.m. - 1:15 p.m. with Donald Bybee, M.S.W., one-session workshop. This session will be held twice, Oct. 5 and 12. Advance registration required.

**Here I Am. What Next?** Meets from 12 p.m. - 1 p.m. with Nancy V. Koch, M.S. This ongoing workshop meets Oct. 5 and 19. Advance registration required.

**Foot Reflexology:** From 7 p.m. - 9 p.m. with Wendy Kasdan, MA. Advance registration required.

## Thursday October 6

**Physical Chemistry Seminar: Composite Structural Materials,** Sam Dastin, Grumman Aircraft Systems: 12 p.m., Room 412, Chemistry Building.

**Surface Science Seminar: Secondary Ion Mass Spectroscopy (SIMS),** A. Benninghoven, Muenster, 3 p.m., Grad Physics C120.

**Organic Seminar:** "Applications of MO Theory in the Photographic Industry" John McKelvey, Eastman Kodak Res. Labs, 4 p.m. Room 412, Chemistry Building.

## Friday October 7

**Astronomy Open Nights:** "Organic Matter in Space - The Precursor to Life", Dr. Roger Knacke, SUNY Stony Brook, Harriman Hall 137, 8 p.m.

## Saturday October 8

**Italian classes,** ranging from elementary to advanced, open to the public, including children from age 7. Classes to be held on Saturday mornings from 10 - 12 p.m. For 60 hours of instruction (30 classes), \$40, \$5 charge for books and materials. Call 2-7444 for more information.

## Monday October 10

**Astrophysical Journal Club**, ESS, Room 450, noon.

## Tuesday October 11

**Chemistry Evening Seminar Series:** "Magnetic Resonance in Biophysics and Medicine. Professors Harbison, Springer and Thomann, Chemistry Building, Room 412, 7-10 p.m.

**Student Activities Fair:** An opportunity to find out what activities and programs are available through the many clubs and organizations on campus. 10 a.m. - 4 p.m.

**Seminar:** "Novel Aspects of Acetylcholine Receptor Regulation in Neurons" Speaker: Joseph Margiotta, Ph.D., Dept. of Pharmacology, University of Ca, San Diego. Life Sciences Bldg., Room 038, 4 p.m.

**Introduction to Meditation I:** This two-session workshop scheduled to meet Oct. 11 and 18. Advance registration required. Contact Dr. JoAnn Rosen at 632-6720.

**Stress and Your Health:** Meets from 6 p.m. - 7:30 p.m. with Lori Yankowitz, M.S.W. Ongoing group meets Oct. 11 and 18. Advance registration required. Sponsored by the Group Shop and University Counseling Center.

## Wednesday October 12

**President Marburger's annual meeting on Stony Brook women's issues.** Bring questions, problems and lunch. Open to all: students, staff and faculty. SBS S-218, noon. Juice and cookies. Sponsored by campus NOW.

**Hatha Yoga:** meets from 7 p.m. - 8:30 p.m. with Wendy Kasdan, M.A. This ongoing group

will meet on Wednesday beginning Oct. 12 and ending Dec. 7. Advance registration required. Sponsored by the Group Shop and the University Counseling Center. For further information, call Dr. JoAnn Rosen at 2-6720.

**NOW "Brown-Bag" Meetings.** Room 216, Social and Behavioral Sciences, noon. Bring your lunch and join us for informal discussion and friendship. All welcome.

**Noontime recital,** students in the Department of Music. Recital Hall, Fine Arts Center, noon.

## UNIVERSITY CONVOCATION

### "OPENING THE STONY BROOK MIND: THE NEXT STEP"

Five faculty members —  
Robert Kerber, chemistry;  
Joel Rosenthal, history;  
Sarah Fuller, music;  
Ted Goldfarb, chemistry;  
and Diane Barthel, sociology —  
will engage in a panel discussion  
on the continued reform of Stony Brook's  
general education programs.  
Audience participation will  
be encouraged; all faculty, staff and  
students are invited to attend.

### OCTOBER 5, 1988

12:15-1:30 P.M. Recital Hall, Fine Arts Center  
Sponsored by the  
Office of The Vice Provost for Undergraduate Studies

**G.W. Pabst's Pandora's Box,** presented by the Stony Brook Film Society, stars Louise Brooks. Introduction by Prof. Jim Harvey. Stony Brook Auditorium, 7 p.m. and 9:30 p.m. Admission: \$2.

## Thursday October 13

**Organic Seminar:** TBA, Heung-Jin Choi, SUSB; Room 412, Chemistry Building, 4 p.m.

**Surface Science Seminar:** "Medium-Energy Ion Scattering (MEISS)," R. Tromp, IBM, Grad Physics C120, 3 p.m.

**Seminar:** "The Spinal Network of a Simple Vertebrate Motor Behavior: The Escape Initiated by the Mauthner Cell in Goldfish." Speaker: Joseph Fetcho, Ph.D., Dept. of Physiology, Univ. of Buffalo. Life Sciences Bldg., Room 038, 4 p.m.

**Physical Chemistry Seminar:** TBA, M.L. Klein, University of Pennsylvania, Room 412, Chemistry Building, 12 p.m.

**Seminar Series in Molecular Endocrinology and Cell Biology:** "Cellular Ca<sup>2+</sup> Homeostasis," Dr. Peter F. Blackmore, Howard Hughes Medical Institute, Vanderbilt University School of Medicine; Dept. of Physiology and Biophysics, Room 140, T-5, Basic Health Sciences Tower. 3 p.m.

**University Distinguished Lecture Series.** Topic: "On Being the Right Size: Reflections on the Ecology of Scientific Projects." Freeman Dyson, renowned physicist; Professor at the Institute for Advanced Study, Princeton; author, "Infinite in All Directions." sponsored by the Office of the Provost and *Newsday*. Recital Hall, Fine Arts Center, 4 p.m.
