## Field House Cornerstone Ceremony Slated For Sept. 29

By Wendy Greenfield

A cornerstone-laying ceremony will take place Sept. 29 for the \$17 million, 70,000-square-foot field house that is now under construction at the State University of New York at Stony Brook. The field house is expected to open in the fall of 1990.

With seating for 5,000, the facility will be able to accommodate special events such as lectures, concerts and graduation ceremonies in addition to athletic events.

The 4,100 seats available for basketball or volleyball games is more than double the amount of seating in the existing main gym. Additionally, the field house will include a four-lane track, six squash courts and new locker and training room facilities. The new building will be connected to the existing gymnasium, providing the university with a self-contained athletic complex.

The existing gymnasium was built in 1964, when the university had 4,000 students. In addition to providing seating for 1,800, it contains three multi-purpose courts suitable for basketball, volleyball, badminton or indoor soccer, a six-lane pool, four racquet ball and four squash courts, two universal weight rooms, a free-weight room, a dance studio and an exercise room.

The new field house will "accommodate recreational and athletic needs of Stony Brook's 16,000 students as well as its faculty, staff, alumni and community residents," said John Reeves, director of Stony Brook's physical education department. The facility will also be an attractive site for high school track and basketball championships, he predicts.

The ceremony will be held at 4 p.m. on the patio outside the gymnasium.

Upon completion, the \$17 million field house will house squash courts, a four-lane track, weight, training and exercise rooms and a 5,000 seat arena.

## University Employees Team Together To Help Get Graduate Students Paid

The outlook was grim. Because of the way September pay periods fell—in combination with the practice of holding an employee's first check for one pay period—it seemed as though the university's 1,078 graduate students would have to wait a month to receive their first paychecks from an \$8,000-a-year stipend.

To avert the potential hardship, a number of university employees joined forces and worked long hours thwarting bureaucracy, stubborn computer programs, and mountains of paperwork. The end result was that almost all the \$350,000 in payroll was distributed in time; those who didn't get checks received payroll advances.

At the eleventh hour, university officials and members of the state comptroller's office had devised a scheme to pay the students by putting them into a different budget category. That meant reprocessing all their appointments, working the change through the system from the Graduate School to Human Resources to Payroll to Albany, and getting computers in Administrative Systems to accept the

revised information.

"It was an immense effort," said Alexander King, associate vice provost for research and graduate studies, "and there was less than a week to do it." Some of the participants, like Vicky McLaughlin of Human Resources, recalled "endless phone conversations and lots of running back and forth." Kathy Griesbeck of Payroll brought the completed computer tape to a waiting plane at Islip-MacArthur airport, which flew the names of the graduate students to Albany just in time.

Others involved in the effort included John Schmidt, assistant vice provost for research and graduate studies; his secretary, Debbie Kloppenburg; director of payroll Henry Robinson and his staff (including Patricia Hines, Ilene Fox and Sandra Richer); Karen Weisberg of Administrative Systems; and Karol Gray, acting controller. "Everybody came through and worked cooperatively," McLaughlin summed up. "We had to—people had to get paid."

## Stony Brook Upgrades Two Sports To Division I

In an move to enhance its commitment to athletics, Stony Brook will be elevating two sports — men's lacrosse and women's soccer — to Division I in 1989.

The move to Division I for these two sports is part of the university's commitment to athletics. The move to Division I was a recommendation from a ten-member committee that discussed the direction of athletics at Stony Brook.

The director of the Division of Physical Education and Athletics' Ad Hoc Committee on Intercollegiate Athletics recommended not only moving up to Division I in two sports, but also aiming for excellence in Division III in Stony Brook's other sports. The committee felt that the present state of Stony Brook's intercollegiate athletic

programs was not commensurate with the university's stature and level of excellence in its other spheres of activity.

Dr. John Reeves, the director of the Division of Physical Education and Athletics, looks forward to the upgrade. "It's a marvelous, courageous, and somewhat risky venture for Stony Brook that I look forward to with enthusiasm. The fact that we won't be able to award athletic scholarships according to current NCAA regulations puts us in a slightly disadvantageous position; however, our low tuition, fine academic reputation, and outstanding coaches will enable us to compete at the highest level of college athletics."

*continued on page 2*

## University Moves Ahead With Conference Center Plans

The university is moving ahead with plans to build a conference center/hotel at the main entrance to campus. The proposed multi-million dollar center would house a 175-room conference facility, hotel, a faculty club, health club and public and private dining areas.

Stony Brook Foundation Realty, Inc. (SBFR) — a subsidiary of the Stony Brook Foundation, the university's nonprofit fund raising arm — is completing negotiations to lease the 13.5-acre site from its owner, the State University of New York. Additional approvals will be required from the state Division of Budget, the state Attorney General's office, and the state Comptroller's office.

SBFR plans to sublease the SUNY-owned land to a developer/operator group. This summer SBFR conducted extensive negotiations with the Conference/Hotel Development Group, and has prepared a sublease agreement to submit to them for negotiations. The group is a consortium of individuals and companies including the national architecture firm Perkins and Will and Horizon Hotels, operator of the Arrowwood Conference Center in Westchester. The group would be responsible for the design, financing, construction and operation of the conference center.

## University To Review Research Conducted By Former Graduate

The university has initiated a review of circumstances surrounding research conducted by a former undergraduate student in 1984.

The research by Mitchell Behm, a 1984 graduate of Stony Brook who is currently living in California, has been called into question by People for the Ethical Treatment of Animals (PETA). PETA charges that both Behm and his faculty supervisor on the research project, Prof. George Williams in the Department of Ecology and Evolution, violated a variety of state laws, as well as provisions of the federal Animal Welfare Act.

Dr. Robert Lichter, vice provost for research and graduate studies, called for the review Wednesday. The review will be conducted by the university's Laboratory Animal User Committee, chaired by Dr. Maynard Dewey, chair of the Department of Anatomical Sciences.

The university's only record of the research in question is a proposal submitted in April 1984 by Behm to obtain

academic credit for the research to be conducted in the fall semester. In that document, Behm stated his intention to study the behavior of ferrets and the potential of using ferrets in practical applications, such as rodent extermination. However, the proposal did not detail a research protocol.

University policy at the time stipulated that all proposed uses of laboratory animals be approved by the Director of Animal Laboratory Resources or by the Laboratory Animal Users Committee. In its initial examination, the university has yet to find any record which would indicate that Behm or Williams observed the required procedure for securing approval of research involving animals.

"Were university policies and procedures followed with regard to securing the necessary approvals? This certainly will be one focus of our review," said Lichter.

Another focus will be PETA's allegation—citing a direct conversation

with Behm—that ferrets used in the research belonged personally to Behm and were not cared for under the auspices of the university's Division of Laboratory Animal Resources.

"We are committed at Stony Brook to a program of exemplary care for all animals used in laboratory research," said Lichter. "Our procedures generally have worked well to ensure that—when we have used laboratory animals—we have done so in a way that is humane, serves the best interest of science, and fully complies with the Animal Welfare Act, NIH policy and standards set by the American Association for Accreditation of Laboratory and Animal Care.

"We do not yet have all of the information we will need to reach firm conclusions regarding the conduct and merits of the research in question, but we are committed to getting it," Lichter continued. "The reports we have received are disturbing and we will address the matter with care and diligence."

## News in Brief

The Stony Brook Patriots will be at home this Saturday, October 1, when they host Iona College in a Liberty Football Conference clash.

This will be the first Liberty Conference clash at Patriots Field and the first game between the two schools.

Patriots head coach Sam Kornhauser is hopeful that his squad can rebound from two close losses at the start of the season. "Our defense has played well, but our offense just hasn't clicked yet." The stats bear out that fact. In the first two games, the Patriots have allowed just 22 points, but have scored only 10. "We're playing good football, but we just haven't had the little extra that's needed to win," said Kornhauser.

Stony Brook opened the season with a 14-7 loss on the road to Ramapo and then dropped an 8-3 decision to Hofstra before an SRO crowd at Patriots Field. The Dutchman have been to the NCAA playoffs in each of the last two seasons, and are looking to make a return trip this year. The Patriots led 3-2 after three quarters, but Cedric Dawkins capped a 22-yard scoring drive early in the fourth quarter to give Hofstra the win. The drive started after the Dutchmen intercepted QB Dan Shabbick in Stony Brook territory.

After Iona, the Patriots travel to C. W. Post and Brooklyn before returning to face Fordham on Oct. 22 for Homecoming. The Rams are coming off a 9-1 mark last season, and advanced to the second round of the NCAA playoffs. Last season, Fordham defeated Stony Brook 14-6.

## Stony Brook Scientist 1 Of 25 Women To Receive National Award

By Wendy Greenfield

A Stony Brook scientist has been named one of 25 women nationwide to receive a 1988 visiting professorship from the National Science Foundation (NSF).

Barbara Bentley, associate professor in the Department of Ecology and Evolution, is using the \$85,706 award to do research at the Bodega Marine Lab at the University of California at Davis, where she is studying lupines.

Lupines, plants which resemble sweet peas and which are common in California,

contain alkaloids in their leaves. Alkaloids are toxic chemicals that prevent insects from feeding on themselves. The plants are important to the ecology because they convert nitrogen gas into a form of nitrogen fertilizer in a process called "nitrogen fixation."

Bentley is investigating how the lupines fix nitrogen and how this affects the alkaloid levels in the leaf. Her research could lead to a way to make other plants less vulnerable to attacks by insects.

The \$2.52 million NSF "Visiting

Professorships for Women" program provides financial support to some of the nation's most productive and talented female scientists and engineers from industry, government and academic institutions.

As visiting professors, participants in the program conduct research and give lectures. They also are involved in counseling and other activities to increase the visibility of female scientists and engineers, and to encourage other women to pursue careers in these areas.

## University Upgrades Women's Soccer, Men's Lacrosse

*continued from page 1*

The move to Division I will provide a pair of flagship sports, highly visible focal points around which to organize the move toward excellence in intercollegiate athletics.

There are a number of factors that went into choosing the two sports that are to be elevated. The fact that many of Stony Brook's peer schools (other large research universities) play Division I lacrosse, because of the high quality of high school lacrosse on Long Island, and because there is still room at the national level for additional top-flight teams were some of

the reasons that lacrosse was chosen.

Women's soccer was selected because the sport is still in its infancy nationally with very few schools establishing dominance and because of the strong high school play in the NY-NJ area.

The move to Division I will not come at the cost of the other sports that Stony Brook offers. The university is committed to excellence in Division III for the other programs. Stony Brook will be upgrading the schedules, increasing the budgets and staffing, and improving the facilities.

"We are committed to excellence at Division III for our other teams. The

reclassification to Division I will put the focus on our entire program and benefit all teams and our university community as well," Reeves said.

Improvements will come in the way of a proposed 12,000-seat stadium for football and lacrosse. When this new stadium is completed, the current football/lacrosse field will become the varsity soccer field.

The move to Division I and the upgrading of the entire athletic program is a bold step, but it is a step that has to be taken if Stony Brook hopes to enhance its entire image as a top-flight university.

## Appointments

◆ **Alfreda S. James** has been named associate director of the Educational Opportunity Program/Advancement on Individual Merit Program. She comes to Stony Brook from the College of William and Mary, where she was assistant dean of admissions and head counselor for the Discovery Program.

◆ **Rebeca Paz** and **Virginia Acevedo** have been appointed Educational Opportunity/Advancement on Individual Merit Program counselors.

◆ **Lucia M. Rusty** has been named staff associate to the Office of Special Programs in the Educational Opportunity Program Office. She has worked for the university since 1974.

◆ **Alan S. Kushner** has been appointed chairman of the Department of Mechanical Engineering. He was previously employed at the Office of Naval Research, where he served as program manager of solid mechanics and director of the scientific supercomputing program.

## Student Cycles From Montana To Stony Brook To Attend Classes

By Chris Foley

An obstacle as great as the Continental Divide couldn't stop Scott Coltart from bicycling to his appointed destination — Stony Brook.

Scott, 25, rode his bike from Butte, Montana to attend Stony Brook, and to train for the New York marathon. He is part of the university's National Student Exchange program (NSE).

A history major and a junior from Western State University, Colorado, Scott chose Stony Brook out of 82 NSE exchange sites because of its high academic reputation.

But why did Scott cross the country on bike instead of taking a plane, train, or bus? His answer is that he wanted to train for the New York marathon quickly. Although it took Scott a month of hard riding he says, "It was better than being on a rigorous schedule for months and months." On average, he rode 50-75 miles a day on hilly terrain and 75-100 miles a day on the flatlands. What is additionally unique about Scott's trip is that he rode solo while most of the people he met on his group traveled in groups.

Highlights of his daring cross-country ride include having to turn around at the Continental Divide for better biking equipment, passing through Yellowstone while it was on fire, several flat tires, worn-down cleats, rainstorms, and most dangerous of all, beer-can-throwing

motorists and being chased by dogs.

For this trip Scott ate bulk foods (mostly rice) and limited himself to one restaurant meal a day. He slept in a lightweight sleeping bag with plastic tied around the ends, "I looked like a giant burrito," he said. During his trip his waist size went from a size 32 to a 29.

He's found Stony Brook interesting and he enjoys meeting a lot of new people. "One of the reasons I came to Stony Brook," adds Scott "is that I wanted to prove to myself that I could make it in a large university." He's adjusted well and spends most of his free time cycling around Stony Brook.

The NSE program offers students the chance to attend another school in the NSE network at little or no more cost than what they are paying at their own institution. This exchange allows students to see other parts of the country while broadening their academic and cultural opportunities.

A further advantage of the NSE program is the opportunity for students to study their major area of interest in a prime geographical location. For example, "If you are a Stony Brook student interested in studying geology related to volcanic eruptions," explained Max Mobley, Stony Brook's NSE coordinator, "you might consider studying for a semester or up to one year at the University of Hawaii at Hilo or the University of Hawaii at Manoa."

Corporate Challengers (left to right): Tom Murphy, Leslie Morgan, Eric Maas. Not pictured: Susan Ryan.

## Faculty, Staff Race In Corporate Challenge

Inaugurating what they hope will be a long-standing tradition, faculty and staff represented the university in the Corporate Challenge Race at Long Island's Eisenhower Park recently.

Leslie Morgan, assistant professor of Italian; Eric Maas, Administrative Systems; Susan Ryan, instructor of physical education; and Tom Murphy, Research Administration placed 11th out of 33 teams in the coed division. The four were clad in T-shirts provided by the campus Barnes and Noble bookstore.

Running in a Long Island summer series gave Morgan the idea of forming a Stony Brook team for the Manufacturer's Hanover Trust-sponsored event. "Our involvement in the race showed good faith towards participating in community ventures," she said. "It's important for the business world to see that."

# Bulletin Board

## Notices

Academic and administrative notices should be directed to Assistant Director Sue Risoli, 319 Administration Building.

◆ English as a Second Language, Fall '88: Sponsored by New York State and CSEA. Classes begun Sept. 13 will continue through Dec. 21 from 10 a.m. to 3:30 p.m. (dependent on the level) in SBS Room N115. Call Millie at 632-6575 for more information.

◆ The Museum of Long Island Natural Sciences, located on the SUNY campus at Stony Brook, will offer a wide variety of science-related programs this fall for children and families. For more details and a complete listing, please call the museum at 2-8230 for a brochure.

◆ All current full-time students eligible: ACUI REGION 3 Annual Photo Competition. \$50 purchase prize. Call 632-6822 for more information.

◆ Wellness Walk, Sept. 27 at noon. Academic Mall entrance to Administration Building. A group will be walking on South Campus. Meet at the Dental Clinic parking lot. Raindate: Sept. 30.

◆ University Hospital's geriatric evaluation and treatment service is recruiting patients with Alzheimer's disease for a study on the treatment of "night wandering" and insomnia. They are looking for patients with Alzheimer's disease or other diagnosed memory problems who are over age 60, and who are

experiencing night wandering or insomnia. Patients and caregivers who would like to participate are asked to call 4-1618 between 9 a.m. and 4 p.m.

◆ Did cosmic compounds play a part in the beginnings of life on Earth? Explore the possibilities Oct. 7, when Dr. Roger Knacke, professor of astronomy, describes how substances found in living things have recently been detected in comets, planets and clouds between the stars.

The 8 p.m. lecture will be held in Harriman Hall, Room 137, and will feature slides and videotaped close-ups of Comet Halley, plus a viewing session with the university's telescopes, weather permitting.

◆ The Alumni Association is looking for antique red and white convertibles for the university's homecoming parade, to be held Oct. 22 at 10:30 a.m. Contact Ann Begam, director of Alumni Affairs, at 2-6330 by Oct. 7.

◆ The 1988 edition of the poetry magazine "Poetry Brook International" will be on sale Sept. 29 from 7 to 10 p.m. in the Stony Brook Union Gallery.

An open poetry reading is scheduled for the same evening in the Gallery. The paintings of Eduardo Rada Bernasconi, a founding member of the group that publishes the journal, will be exhibited there through Sept. 30.

Submissions for the 1989 edition of "Poetry Brook International" can be sent to Professor Andreas Mielke in the Germanic and Slavic Languages department, Room N-3009 Frank Melville, Jr. Memorial Library.

### FOR SALE:

Setauket-Poquott beach & mooring colonial, 3 bedroom, 2 baths, office, fireplace, basement, garage. Owner, \$229,000. 632-8660.

Head Of Harbor, immaculate restored oldie, exposed beams, 2 fireplaces, 3 bedrooms, English garden, taxes \$1,400. \$229,000. 862-7988.

### FOR RENT:

Puerto Rico Condo — Studio apartment, one block from beach, pool, more. Call after 5 p.m. 732-3381.

### Important Notice

To maximize our coverage of Stony Brook University news and events, effective Oct. 3, Campus Currents will no longer carry personal classified advertising. We will, however, continue to run job postings.

We regret any inconvenience the change may cause our readers. In place of the ads, however, will be even more news and features on Stony Brook's people and programs. We encourage faculty and staff to continue to submit items and ideas to the editors. Call 632-6310 or send information to Room 322 Administration.

# Upcoming

Calendar items, event material and photos should be sent to the Upcoming Editor, 319 Administration Building.

## Monday September 26

**Astrophysical Journal Club** — ESS Room 450, noon.

**Seniors** — Meeting for health profession applicants, conducted by Professor Kerth, Faculty Associate for Health Professions. Humanities 101 from 5 p.m. to 6:30 p.m.

## Tuesday September 27

**X-Ray Diffraction and Crystal Structure Analysis** — Professors Lauher and Koch, Room 412, Chemistry Building from 7 p.m. - 10 p.m.

## Wednesday September 28

**NOW Speakers Series** — Ruth Cowan and Rhoda Selvin, "Being Vindicated: Thoughts and Feelings After Winning Our Lawsuit." Room 216, Social and Behavioral Sciences, noon.

**Distinguished Lecture Series** — Arthur Miller: "Media and Privacy." Main Stage, Fine Arts Center at 8 p.m.

**Censorship — A One-Day Conference** — Keynote address, Ira Glasser, national director, American Civil Liberties Union. For more information, call the Office of Conferences and Special Events 2-6320. Fine Arts Center Lobby. Registration begins at 9 a.m.

**Pediatric Grand Rounds** — Babies, Fat, What Kind of Adults? HSC, Lecture Hall 6, Level 3, 4 p.m.

**Pharmacological Regulation of Neuronal Gene Expression** — Dr. Len Davis, Principal Investigator, Experimental Station, E.I. du Pont de Nemours & Company, Room 038, Life Sciences Building, 2 p.m.

## Thursday September 29

**Organic Seminar** — ACS Meeting, Room 412, Chemistry Building, 4 p.m..

**Surface Science Seminar** — L. Feldman: High-energy Ion Scattering (HEIS), Rutherford Backscattering (RBS). Grad Physics C120, 3 p.m.

**Reception in the Sukkah** on academic mall for Israeli faculty and students 4:30 p.m. - 5:30 p.m.

## Saturday October 1

**Stony Brook Symphony Orchestra Program** — Mozart *Overture to the Marriage of Figaro*; Strauss-*Don Juan*; Ravel-*Pavane pour une enfante defunte*; Debussy-*Iberia*; Arthur Weisberg, conductor. Tickets: \$5/3. Main Stage, Fine Arts Center, 8 p.m.

## Monday October 3

**Astrophysical Journal Club** — ESS Room 450, noon.

## Miller To Speak On Media and Privacy

Arthur Miller, professor of law at Harvard Law School and legal consultant on ABC-TV's "Good Morning America," will speak on "Media and Privacy," 8 p.m., Sept. 28 on the Fine Arts Center's Main Stage.

The lecture will be held in conjunction with a daylong conference on censorship, to be held on campus from 9 a.m. to 5:30 p.m. The conference is open to the public with no charge for admission, but is especially geared to journalists, teachers, school administrators and librarians. It will deal with issues such as pornography, freedom of scientific information and book censorship. The keynote address will be delivered by Ira Glasser, director of the Civil Liberties Union, at 9:30 a.m. in the Fine Arts Center. Workshops will be held from 1:30 p.m. to 4:30 p.m. in the Stony Brook Union.

Miller's lecture is part of the University Distinguished Lecture Series, cosponsored by *Newsday* and the Office of the Provost.

**Seminar Series** — Molecular Endocrinology and Cell Biology: "Receptor Recycling and Acidified Compartments" Dr. Frederick R. Maxfield, Dept. of Pathology, Columbia University, to be held in Dept. of Physiology and Biophysics, Basic Sciences Tower, Room 140, T-6, 4 p.m.

**Sophomores** — Meeting for health professions applicants today, conducted by Professor Kerth, Faculty Associate for Health Professions. Humanities 101 - from 5 p.m. to 6:30 p.m.

## Tuesday October 4

**X-Ray Diffraction and Crystal Structure Analysis** — Professors Lauher and Koch, Chemistry, 412, 7 p.m. - 10 p.m.

**Town Meeting of the Air/Stony Brook Forum** — "The State of Our Nation, And its Peoples, and Unresolved Issues Facing the Newly Elected Administration." Stony Brook panelists: Rev. William Brisotti, Elov Carlson, Max Dresden, Bruce Hare, Sandra Hinson, Lee Koppelman, Donald Petry, and Joel Rosenthal (moderator). Recital Hall, Fine Arts Center, 7 p.m.

## Wednesday October 5

**University Convocation Series** — Aldona Jonaitis, vice provost, Undergraduate Studies. Topic: "Opening the Stony Brook Mind: The Next Step." A dialogue with the campus community on the continued reforms of the undergraduate general education program. Panel: Diane Barthel, Sarah Fuller, Theodore Goldfarb, Robert Kerber, and Joel Rosenthal. Recital Hall, Fine Arts Center, 12:15 p.m.

**Psychology Colloquium** — "Behavioral & Non-Behavioral Therapies: Is Integration Possible?" Speakers: Marvin R. Goldfried, SUNY Stony Brook, G. Terence Wilson, Rutgers University, Javits Lecture Center, Room 109 at 4 p.m.

**NOW "Brown-Bag" Meeting.** — Bring your lunch and join us for informal discussion and friendship. Room 216, Social and Behavioral Sciences. Noon

**The Group Workshop Program** — Acquaintance Rape: Sheila Curtin, M. Ed., Sue Riseling. One session workshop noon - 1 p.m. Advance registration required.

**The Empty Nest** — For Parents Whose Children Have Gone Off to College.

**Blossom Silberman, M.S.W.** A four-session workshop. Oct. 5, 12, 19 and 26. Advance registration required. From 12:15 p.m. to 1:15 p.m.

**Study Skills** — With Donald Bybee, M.S.W., one-session workshop. This workshop will be held twice, October 5 and 12. Advance registration required. From 12 to 1:15 p.m.

**Here I Am. What Next?** — With Nancy V. Koch, M.S. This ongoing workshop meets Oct. 5 and 19. Advance registration required. From noon to 1 p.m.

**Foot Reflexology** — With Wendy Kasdan, M.A. Advance registration required. From 7 p.m. to 9 p.m.

## Exhibitions

*Thru September 30:*  
**Eduardo Rada Bernasconi** - Union Gallery, Stony Brook Union. Call 632-6821 for more information.

*October 3 - 14:*  
**C. Kellner - E. Stevenson** - Union Gallery, Stony Brook Union.

*Thru Oct. 29:*  
**Permutation and Evolution: Edgar Buonagurio: Paintings 1974-1988.** Fine Arts Center Gallery.

"Archeological Find XV" is one of 21 works by artist Edgar Buonagurio to be displayed in the Fine Arts Center Art Gallery Sept. 21 through Oct. 29. The gallery is open noon to 4 p.m. Tuesday through Saturday and evenings before Main Stage performances.

## Hours

**Fine Arts Center Gallery:**  
Tuesday through Saturday 12 p.m. - 4 p.m.

**Barnes & Noble Bookstore:**  
Monday and Tuesday 9 a.m. - 7 p.m.;  
Wednesday and Thursday 9 a.m. - 5 p.m.;  
Friday 9 a.m. - 4 p.m.  
Saturday 10 a.m. - 2 p.m.

**Gym:** 7:30 a.m. - 11 p.m.

**Pool:** M - W - F  
11:45 a.m. to 12:40 p.m.  
8:30 p.m. to 10:30 p.m.  
Sat. - Sun. 2 p.m. - 4 p.m.

**Grad. Swim:**  
2:30 to 3:30 p.m. Tuesday and Thursday

**Library:**  
Reference, Commuter Lounge, Government Documents, Current Periodicals, Maps:

Monday-Thursday: 8:30 a.m. - 12 a.m.
