february 1 this week at the state university of new york at stony brook

Dr. Yang Visited South America as Lincoln Lecturer

Dr. Chen Ning Yang, Albert Einstein Professor of Physics at Stony Brook, visited Venezuela and Brazil January 16 - 30 under the auspices of the prestigious U.S. Government Lincoln Lecturership

Recipient of the 1957 Nobel Prize in physics for his "penetrating research into the laws of parity which has led to major discoveries concerning elementary particles," Dr. Yang lectured on the symmetry and the structure of subnuclear particles at universities and science institutes in Caracas, Rio de Janeiro and Sao Paulo. In Rio de Janeiro on January 24, he addressed many of South America's most prominent physicists at the Brazilian Symposium in Theoretical

This is the first of Dr. Yang's two tours abroad as a Lincoln Lecturer. He is scheduled to visit the Near East and Asia in May.

Dr. Yang is one of three distinguished Americans selected by the Presidentially-appointed Board of Foreign Scholarships to travel

abroad as a Lincoln Lecturer during the 1973-74 academic year. This spring Alexander M. Bickel of Yale Law School will tour several European nations and Walter J. Ong, S.J., Professor of English and Humanities at St. Louis University, will visit several countries in Europe and Africa.

The Lincoln Lecturer program for Americans, together with a comparable program for distinguished foreign participants, provides opportunities for those who are preeminent in their fields to share with foreign audiences their intellectual achievements. The Board of Foreign Scholarships which administers the Lincoln Lecture program, was established by the 1946 Fulbright Act and continued by the 1961 Fulbright-Hays Act. Composed of eminent private citizens, the Board selects candidates for academic exchange activities and supervises the world-wide academic exchange program conducted by the Department of State's Bureau of Educational and Cultural Affairs.

SPRING LECTURE SERIES UNDERWAY

Science, literature, the Chinese economy, and a historical survey of architecture are some of the subjects being discussed this semester in the University's popular "Lecture Series."

Open to the general public, the Lecture Series features some of the University's most prominent faculty offering weekly talks on six subjects. The lectures are being held on Monday, Tuesday, Wednesday, and Thursday evenings through May 9. Neither registration nor fees are required for the one-hour lectures which are the first part of weekly graduate courses offered by the University's Center for Continuing Education.

SCIENCE

Dr. Bentley Glass, distinguished Professor of Biological Sciences, is conducting a lecture series on "Science and the Future of Man." Dr. Glass and guest lecturers examine man in relation to his scientific environment and evolution. Topics include the population explosion, hazards of nuclear radiation, air and water pollution, and educational obsolescence. The talks are held on Tuesday evenings at 7 p.m., in Lecture Center Room 102.

Prof. Clifford Swartz is offering a series of lectures on "The World of Modern Physics," examining ancient questions in terms of the scientific research gathered over the past century. The non-technical lectures on scientific findings are being supplemented by demonstrations and observations of phenomena. Weekly lectures are held Monday nights at 7 p.m. in the Physics Lecture Hall.

to be announced

ART, MUSIC AND LITERATURE

A lecture series surveying Western architecture from earliest times to the present is being offered by Prof. Suzanne Frank of the Art Department. The series, "The History of Architecture," analyzes key monuments and the historical trends and major styles that they illustrate. The weekly talks are being held on Thursday evenings beginning at 5:30 p.m., in Lecture Center Room 104.

The performance and traditions of minstrelsy are being explored in "The Art of Minstrelsy," a series of lectures and demonstrations by noted balladeer Richard Dyer-Bennett, Associate Professor of Theatre Arts. The sessions on this art of performing narrative poetry to music are being held on Wednesday evenings at 5:30 p.m. in Room 238 of the Humanities

Assistant Professor of English, Kofi Awooner, is presenting a series of lectures on Third World Fiction, exploring the literary traditions and major works of African, South American and Asian writers. His talks are held Thursday evenings beginning at 7 p.m., in Lecture Center Room 101.

ECONOMICS

Dr. Charles Hoffman, Professor of Economics, is bringing first-hand observations to his talks on "Comparative Economic Systems -China." A recent visitor to the People's Republic of China, Dr. Hoffman is discussing China's economic systems, contemporary and historical. The lectures are held on Monday evenings beginning at 5:30 p.m., in Lecture Center Room 111.

DR. BUDDE NAMED ACTING CHAIRMAN OF PHYSICAL EDUCATION

Dr. Elaine Budde has been appointed Acting Chairman of the Department of Physical Education at Stony Brook. She succeeds Leslie F. Thompson who resigned the post in December and will return full time to teaching following a sabbatical.

The new chairman, who received her Ph.D. in Physical Education from the University of Wisconsin, an M.A. from the University of Michigan, and a B.S. from Illinois State University, is believed to be the first woman to ever chair the Physical Education department in the State University system. She assumes her new role at Stony Brook after serving one semester here as Director of Physical Education. Prior to joining the Stony Brook faculty she chaired

the Department of Health, Physical Education, Dance, and Recreation at Radford College in Virginia. She has taught physical education at all levels, from kindergarten to college, in her varied career.

Dr. Budde's appointment followed a series of conferences between members of administration and the faculty of the Physical Education Department. "I'm very pleased that the faculty and administration feel that I can serve in this capacity," Dr. Budde said.

The 35-year-old chairwoman characterized herself as having "a very strong interest and commitment to physical education"; she believes "that it can relate to many other disciplines on campus."

INFORMAL STUDIES: Educational Alternative

The Continuing Education Department's "Informal Studies Program " is offering more than 50 informal, non-credit courses this semester in topics such as business. politics, law, religion, government, and the arts.

Drawing, Painting, Sculpture, Audio-Visual Techniques, Photography, Wine Appreciation, Feminism, Karate, and many courses in contemporary world events and today's issues are included in the Program's range of subjects.

The non-credit courses have no examinations and no grades. "The amount of study and related reading is determined by the student's own interests and motivation," Paul Lett, Director of the Informal Studies Program, said. Courses are open to all adults, and high school students may also enroll, providing they receive permission from their guidance counselors.

Faculty for the Informal Studies courses are drawn from both University departments and outside sources. Visiting lecturers include

Dr. Irving Carten, an authority on linguistics and culture and Professor Emeritus at Columbia University, and Dr. Celia Deschin, Professor Emeritus from Adelphi University, an authority on contemporary social problems. Other faculty include local educator Paul J. Gelinas, Dana Van Buskirk, President of the Suffolk Chapter of the National Organization of Women, and Newsday's Education Editor, Martin Buskin.

Classes meet in the evening, Monday through Thursday, with several offered on Saturday mornings. Each course takes up two to three hours a week, meeting in one or two sessions a week.

Registration will continue through February 13, between 3:30 and 7:30 p.m., in the Administration Building. registration will be accepted through February 8, eliminating the need to register in person. Registration fees vary from \$15 to \$60 per course and are payable at time of registration. For further information or a detailed course outline, call 246-5939.

NEW COURSE MAY BE GOOD FOR YOUR HEALTH

Turn on a TV news program and you're likely to see a story on the energy crisis, the high cost of health care, experimentation on prisoners, and acupuncture, among others.

All these matters are "important contemporary issues of science as they relate to the health professions," said Dr. Peter Williams, a faculty member of the Division of Social Sciences and Humanities.

In order to introduce campus students in all disciplines to scientific issues having a direct bearing on societal and personal health, this Division is offering a new course for the third and fourth quarters of this semester, designed to give hard information on today's crucial science/health questions.

"One category of topics are those currently being looked at by the media and the press. Another is on topics relating to personal health, such as smoking, health and heart disease; and another deals with topics affecting people with whom one has a relationship, such as the problems of aging and death," explained Dr. Williams, who has a law degree and a Ph.D in Philosophy from Harvard.

He added that since these issues affect everyone, the course was planned for all students and not solely for those planning a career in the health professions.

The course, which will begin on February 6 and continue through two quarters ending in late June, is open to all campus students for credit. Sessions may also be attended by others, and the participation of people on campus and in the community is encouraged. The course will be presented each Wednesday afternoon from 1 to 4 p.m. in Building H on the South Campus, room H-102.

The format of the classes includes panels, discussions, debates, speakers,

and films, with noted guest professionals presenting topics within their specialization. The schedule, as planned to date, is as follows:

DATE TOPIC ORGANIZER OF THE SESSION 2/6 Genetics **Bentley Glass** 2/13 **Evaluation in Health Care Delivery Howard Kellman** 2/20 to be announced 2/27 Smoking, Health & Heart Disease Marvin Kuschner 3/6 Sexual Behavior Sandy Kravitz 3/13 Brain & Behavior I (H.L. FROM THE DEPT. OF

INTERNATIONAL EDUCATION

STUDY IN ENGLAND:

There are opportunities for well qualified upper-division students to study for a year in Universities of the United Kingdom. For information, visit the Office of International Education, Library 3520.

FOREIGN STUDY PROGRAM:

Deadlines for most 1974-75 study abroad programs are March 1, March 15, and April 1. If you plan to apply for a program next year, it's time to start taking action. Obtain information and applications from the Office of International Education, Library 3520.

Jazz great Charles McPherson and his famed Quintet will star in an on-campus concert on Sunday, February 10. Sponsored by the International Art of Jazz, the concert will take place from 4-6 p.m. in the SB Union Auditorium

The concert marks the second time Mr. McPherson has performed on campus for IAJ; he is returning at the request of the membership. Noted for his "hard-swinging, straight-ahead Jazz," as "Downbeat" magazine puts it, McPherson (on alto sax) will present his contemporary sounds with the help of Lonnie Hillyer on trumpet, LeRoy

Williams on drums, Barry Harris on piano, and Sam Jones on bass. Tickets for the concert are available to non-members as well as members of IAJ. Admission is \$1.00 for student members and \$2.00 for non-member students, and \$2.50 for adult members and \$3.50 for non-members. For additional information, call 261-5582.

WINTER'S TRACES...

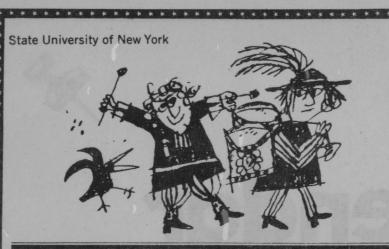

UNIVERSITY-WIDE CELEBRATION OF THE ARTS

A UNIVERSITY-WIDE CELEBRATION OF THE ARTS, an event of special magnitude and broad significance to the future of the arts on all State University of New York campuses, is planned for the spring of 1974. Widespread student and faculty support from every campus is both sought and anticipated.

State University of New York Arts convocations in the past have been highly successful and predominantly performance oriented, with a major emphasis on faculty participation. The 1974 CELEBRATION, to be held at State University College at Fredonia, Thursday through Sunday, April 25-28, will have performances in abundance and faculty artists will be represented; but the plan this year is to involve students to a far greater degree than in the past.

The CELEBRATION will also be a major source of new ideas proposals to be sought and published on ways to expand and intensify the arts in State University life.

CELEBRATION planners anticipate it having an electric quality unlike anything ever undertaken on a University-wide basis, principally because of the student involvement. The setting is Fredonia's extraordinarily beautiful and exciting campus on Lake Erie, 40 miles south of Buffalo, with events to be held in the magnificant Michael C. Rockefeller Arts Center.

This will be the major University-wide event in the arts in the current academic year, and Chancellor Ernest L. Boyer has expressed the hope that every campus will plan to send a delegation to the CELEBRATION. The University-wide Committee on the Arts plans to provide some financial assistance to all participants to help cover the costs of the weekend.

Here, briefly, is the CELEBRATION'S three-part thrust:

WORKSHOPS — These will be for students in theatre, dance, music, film video and the visual arts and will be conducted daily at hours permitting participants to attend other workshops and performances, thereby enriching their own chosen art through awareness of other artistic disciplines. Workshops will include company and ensemble work as well as seminars, master classes and individualized study.

FORUMS — Chancellor Boyer is asking for proposals on the future of the arts in the University. This invitation is to students, student groups, faculty, arts departments, performing groups, artists, administrators, groups of colleges, regional groups and faculty or students on diverse campuses who have ideas in common. All proposals will be published and circulated during the CELEBRATION and a number will be discussed at the daily forums. The purpose is to open up new directions and to point up the University as a vital cultural

Subject areas of the proposals may be as myriad as the arts themselves; such subjects as new performance and exhibition opportunities, new approaches to arts education, how to expand the benefits of existing arts resources, how to enlarge student involvement in arts planning. The Chancellor will specifically solicit proposals on ways of broadening and deepening relations between the arts and media on campus and on involving the University in community life. Special forums are likely to be held on both these subject areas.

The University-wide Committee on the Arts is constantly developing new University-wide programs in the arts, and it is conceivable that some proposals will be adopted by the Committee for general use. This is an open-ended invitation to everyone in the University to unfetter his imagination as a way of creating new vitality in the arts on campus.

EXHIBITIONS AND PERFORMANCES - Most of these will be of student work, but resident faculty artists will be represented also. Two exhibitions are planned: one an all-University Student Exhibition, the other an exhibition of models and drawings of major sculpture by SUNY faculty conceived for campus spaces.

A series of performances - plays, dance concerts, programs of choral, instrumental and electric music, films and video tapes - will take place throughout the CELEBRATION. Participants will see a wide range of creative and performing talents from within the University.

This is the first of several reports you will be receiving. Before long specific information will be coming to you on your precise involvement, whether you be administrator, faculty artist, student arts group or interested member of the audience.

Please mark your calendar now and plan to celebrate the arts in April, a joyous month.

Paul Munick," Coveleski said. "We're going to push our attack

> One person who should be able to help the offense is sophomore Marcus Spearman, who was the Patriot junior varsity's leading scorer last season and joins the varsity this semester. "He will add speed and depth to the backcourt, and he should also add some scoring punch too," Coveleski said. The coach quickly added, "Our guards have been doing nice jobs so it may take time for Marcus to break into the starting lineup."

Another happy note for Coveleski has been the performance of freshmen Jim Petsche, Neil Gottlieb, Kenny Clark and Ron Schmeltzer, the first three of whom are shooting 50% or better from the floor. Gottlieb's 19 points led Stony Brook to its 58-53 victory at Hunter College after the Pats received a forfeit win from Oswego.

WOMEN'S BASKETBALL

Having completed its best season over a year ago, Stony Brook women's basketball team is ready for an even better year. The optimism, shared by both fifth-year coach Sandy Weeden and her a 16-game winter schedule.

of players we've ever had," says

SPORTS NEWS BASKETBALL

Bolstered by the return of two players unable to play last semester and a completely healthy squad, the Stony Brook varsity basketball team hopes to continue its turnaround of last semester.

"Everybody's healthy now," said varsity coach Don Coveleski, noting that six previously injured or flu-bitten players will be back in the lineup on a full-time basis.

Returning to the 2-4 squad after a knee injury will be third year varsity forward Bill Graham. The 6-4 senior, the team's second leading scorer and third best rebounder last season, will be a key to the new 1974 Patriots, who are looking for three straight wins.

"He's still untested, but if he's healthy, Billy should increase our outside scoring and open up the scoring lanes for Dave Carter and

more," he said. "We're going to have to get more good shots and pick up our game tempo." Although pleased with the team's floor shooting percentage of 50.7%, Coveleski believes that the Patriots should be getting more than 50 shots a game, something they have not been doing.

players, is not dimmed by the addition of six new teams as part of

"This is the most cohesive group

ago. "They're closely knit and get along well. They have a strong will to win." The team, which has steadily improved, from a winless squad four years ago to the 9-8 team of

last season, is led by 5'8" Carol Mendis, who led the team in scoring and rebounding last year averaging ten points and 12 rebounds per Mendis, who was last year's

Female Athlete of the Year at Stony Brook, will be receiving some extra help this season from forward Julie Campbell, a 5'6" sophomore who transferred here from Lehman women's junior varsity. Freshman Carmen Martinez

another rebounding threat, may miss the early part of the season due to minor foot surgery. However, Patti Germano, who transferred from Madison College in Harrison, Virginia, brings new speed to the Patriot backcourt.

"The addition of Julie, Carmen, and Patti has given us greater depth than we've ever had in the past," says Coach Weeden. "Carol and Sue (Tobachnik, the other starting guard) are the players who we will be relying on for experience."

Confident, Weeden boldly predicts that Stony Brook would do no worse than win ten of the 16 games this season, thereby setting a team record. "If we play up to par, we can be 12-4," she says. "We're going to be playing some good, new teams this year. But we have better personnel."

NEW PART-TIME GRAD PROGRAM

A new part-time graduate program designed for educators is now being offered at Story Brook. Drawing on science, engineering, mathematics, and the social examining technology, its applications, and the design of instructional systems.

Offered by the College of Engineering's Department of Electrical Sciences, the 30-credit program leads to a Masters of Science degree in Applied Science (MS/AS). Unlike full-time graduate programs in specific departments, the MS/AS program has an interdisciplinary approach, specially designed for secondary and junior college science and math educators, and for those in industry who are involved in training and instruction.

Dr. Thomas Liao, one of the

Student time in the program will be divided among formal courses, seminars, research projects and case studies, with an emphasis on current problems and rational planning for the future. Five courses and a masters project are required for the program with the remaining credits to be earned through a variety of electives and independent study.

program directors, stressed that the

primary objective of the program

was the development of educators

who can relate theoretical concepts

to real world problems in the

development. "We're placing

emphasis on the social and human

technology," Dr. Liao said,

stressing that instructional

techniques and approaches are an

essential part of the program.

President's Student Open Line. Call 6-5940 between 4:00 and 5:00 p.m., to d is c uss problems, suggestions, questions, etc., with President Toll. The Women's Center will offer informal birth control, pregnancy, and abortion counseling between 2:00 and 3:00 p.m., in room 062 of the Stony Brook Union. Call 6-3540 for further information. Photographs by Vincent Hayley, Assistant Director of the Guidance Service Bureau, will be exhibited between 9:00 a.m. and 5:00 p.m. in the First Floor Lounge of the Adminis- tration Building. The Chinese Association of Stony Brook will present a 35 mm. film entitled "China Today" at 8:00 p.m. in room 100 of the Lecture Center. The movie will feature better environmental sanitation through mass effort, proper treatment of industrial waste and harmful gases, torrent of mud and rock, and the Chinese Ping Pong Team in the United States. The Music Department will present a Master of Music Degree Recital by David Diggs, oboe, at 8:30 p.m. in room 105 of the Lecture Center. Admission is free to all. Professor Clifford Swartz will speak on "The World View of Modern Physics" from 7:00 to 9:30 p.m. in the Physics Lecture Hall.	President Toll's Coffee Hour will be held between 10:00 and 11:30 a.m. Have coffee and conversation with President Toll. Students, Faculty, Staff all welcome. The Hayley Exhibit will continue (See Monday). A Group discussion concerning careers will be held at 4:00 p.m. by the Career Development Office, room 335 of the Administration Building. Students interested in taking part in the discussion should call Mrs. Williams at 6-7024. The Music Department will present a student recital at 8:30 p.m. in room 105 of the Lecture Center. Admission is free to all. New York City Commissioner Martin Lang will conduct a seminar on "N.Y. City's View on Ocean Disposal" at 5:00 p.m. in room 111 of South Campus Building J. The seminar is open free of charge to anyone interested. Call 6-3448 for further information. Professor Judah Stampfer will lecture on "The Impact of the Bible on Western Literature" at 8:00 p.m. in the faculty lounge of the Humanities Building. The lecture is sponsored by the English Department. Tuesday Flicks will present Jean-Pierre Melville's 1960 French masterpiece "Second Breath" at 8:00 p.m. in the Stony Brook	Professor Richard Dyer-Bennett will speak and demonstrate "The Art of Minstrelsy" from 5:30 to 8:00 p.m. in room 238 of the Humanities Building. All are invited. The Commuter College will present the horror classic, "The House that Dripped Blood," at 12:30 and 2:30 p.m. in the Main Lounge of Gray College. Admission is free; all are welcome. The Varsity Swimming Team will compete against Adelphi in the Gym at 5:00 p.m. The Varsity Squash Team will compete at Adelphi at 4:00 p.m. The Varsity Basketball Team will play at Southampton at 8:00 p.m. Catholic Mass will be offered at 7:30 p.m. in the A Lounge of Gray College. The Hayley Exhibit will continue (See Monday). Dr. James Tweedy of the Psychology Department will moderate a Higher Education Colloquium on "Learning Theory for Use in Higher Education" at 12 noon in room 213 of the Stony Brook Union. Faculty, students, and staff are welcome. Call 6-7680 for further information. The Women's Center will offer informal birth control, pregnancy, and abortion counseling between 2:00 and 3:00 p.m. in room 062 of the Stony Brook Union.	The English Department will sponsor a lecture and discussion by Professor Peter Shaw from 4:00 to 6:00 p.m. in the Humanities Lounge, room 238 of the Humanities Building. The topic will be: "Literature and History: Hawthorne's 'My Kinsmane Major Molineaux' and the American Revolution." Sherry and coffee will be served. The Hayley Exhibit will continue (See Monday). Professor Kofi Awooner will lecture on "Third World Fiction" from 7:00 to 9:30 p.m. in room 101 of the Lecture Center. All are welcome. Professor Suzanne Frank will lecture on "The History of Architecture" from 5:30 to 8:00 p.m. in room 104 of the Lecture Center. All are welcome. The Women's Basketball Team will play at Hunter at 7:00 p.m. Catholic Mass will be offered at 12:15 p.m. in the A Lounge of Gray College. SB Union will sponsor the first of its "FAMILY OF WOMEN" Film Series in the Union Auditorium from 12:30-1:30 p.m. Films: "Anything You Want to Be" and "Phyllis and Terry."	The Hayley Exhibit will conclude (See Monday). Photos by Michael Weintraub, student photographer for University Relations, will be exhibited in the First Floor Lounge of the Administration Building in the afternoon. COCA's Spring Movie Series will present "Super Fly" at 7:00, 9:30 p.m. and midnight in room 100 of the Lecture Center. Tickets must be picked up before the shows at the Main Desk in the Stony Brook Union; they will be free to COCA card holders, \$1 to all others. There will be no non-ticket holders line for the shows. Call 6-3673 for further information. Catholic Mass will be offered at 12:15 p.m. in the A Lounge of Gray College. Last day for mail registration for Informal Studies. Last day for undergraduates to change to or from Pass/No Credit. The Music Department's Artist Series will feature Peter Wolf, harpsichordist, at 8:30 p.m. in room 105 of the Lecture Center. Admission is \$2; students with validated I.D.'s admitted free. Call 6-5671 for further information. Last day for graduate students to add-drop.
