this week

at the state university of new york at stony brook

Commencement '74

The Commencement Committee would like to invite and encourage all Faculty and NTP Staff to march in the 1974 Commencement Processional. Participants have traditionally worn academic attire, which is available for rental or purchase. Individuals who may prefer not to wear academic attire are also heartily welcome to march.

The Committee sincerely hopes the Campus Community will attend and participate in Commencement Activities to honor our 1974 Graduates.

CAP AND GOWN RENTAL: for participants who would like to wear academic attire, May 19, 1974.

UNDERGRADUATE DEGREE CANDIDATES — May '74

Cap and Gown measurements, orders and pick-up (no charge for rental) Stony Brook Union, Room 237

May 7, 1974 10:00 a.m.-3:00 p.m.

May 8, 1974 3:00 p.m.-9:00 p.m.

ONLY

ADVANCED DEGREE CANDIDATES —

M.A., M.S., M.A./L.S., M. of Music, and Ph.D candidates who have not received a cap and gown rental packet by mail (no charge for rental), please contact the Commencement Committee, Stony Brook Union, Room 266, 246-7103, prior to April 1, 1974.

FACULTY, NTP STAFF —

Those who have not received a cap and gown rental packet by mail, please contact the Commencement Committee, Stony Brook Union, Room 266, 246-7103, prior to April 1, 1974.

Rental Fees: Doctoral \$11.00, Masters and Bachelors \$7.00.

CAP AND GOWN PURCHASE:

The Campus Bookstore is taking orders for all academic attire purchases, weekdays, 9:00 a.m.-5:00 p.m., prior to April 19, 1974.

Pre-Law Advisory

The Pre-Law Society, under the guidance of Prof. Reichler, has instituted a Pre-Law Advisory Committee open to all undergraduates who seek preliminary information regarding law schools. Students seeking advice can come to room 3320 Library (Undergraduate Studies Conference Room) on Mondays and Thursdays 10-12, and Tuesdays and Wednesdays 2-4. For further information, call 6-7307.

EL ED STUDENT TEACHING

Elementary Education Student Teaching applications are available in the EL ED Office Library N-4019 for Fall '74 student teaching. Completed forms are to be returned no later than April 15, 1974.

Library Has New Director

John Brewster Smith has been named Director of Libraries at Stony Brook.

Prior to coming to Stony Brook this month, Mr. Smith had been Director of Libraries at Texas A&M University.

"Mr. Smith is particularly well qualified to direct the further expansion and improvement of library services at Stony Brook," President Toll commented. "The University's libraries are the most important resources for our academic programs and are the major reference facilities for the Long Island region. We must continue to give the library development top priority to promote scholarship and service at all levels. One of the best measures of educational success is the extent to which our students learn to use the libraries effectively. It is only fitting that our main library is the central building on our campus."

John Brewster Smith

A native of Byran, Texas, Mr. Smith, 36, had been Director of Libraries at Texas A&M since 1970. He was Acting Director there in 1969-70 and Assistant Director for Public Services from 1966-69. From 1960-66 he was associated with the Columbia University Law Library as Assistant Circulation Librarian, Circulation Librarian, Assistant Librarian in charge of Reader Services and Assistant Law Librarian.

He is a 1960 graduate of Texas A&M and received an M.S. degree in Library Science from Columbia University in 1963.

Stony Brook currently has library collections of more than 700,000 volumes, in the main Frank Melville, Jr. Memorial Library, and in other University libraries in the Health Sciences Center and in the Chemistry, Earth and Space Sciences, Engineering, Mathematics and Physics Departments.

HEALTH SCIENCES LIBRARY SERVES COMMUNITY

Mary Winkels, newly appointed director of the Health Sciences Library, is shown giving information about the Library to a group of professional men from Australia recently visiting the United States.

If physicians, nurses or health professionals on Long Island need published information on any subject related to health care, they will most likely find answers in the Health Sciences Center Library at the State University of New York at Stony Brook.

"We are the largest resource on Long Island for medical and health-related information. We serve all people involved in health care delivery in Nassau and Suffolk counties," stated Mary Winkels, recently appointed Director of the Health Sciences Library.

In its four years of operation, the Library, a technical resource for the newly-established Health Sciences Center, has extended its services to the whole Long Island community primarily through a burgeoning interlibrary loan service.

"We work closely with the Long Island Library Resources Council in Bellport, which refers requests for information to us," added Mrs. Winkels.

The Director pointed out that because this is a technical library, they have two times as many periodicals and serials as books — unlike a general library where the reverse would be true.

"All the information we need comes out first in periodicals. This is true of all technical libraries," she commented.

In addition to its holdings which approximate 90,000 volumes, and current subscriptions to 4,100 periodical and serials titles, the Health Sciences Center Library has two computer terminals accessing the SUNY Biomedical Communications Network in Albany, and MEDline in Bethesda, Maryland. These give the Library bibliographic searching capabilities of bases containing 900,000 journal citations in fields of health care delivery.

"Instead of doing manual searches, through the computer one can link subject headings, read the

data bank, and pull out the information needed very rapidly. It is a great timesaver," said Mrs. Winkels.

The new Director's knowledge of the Health Sciences Center Library dates back to September, 1969, when the Library was "one big warehouse." Mrs. Winkels helped organize and staff various departments in the Library and at various times served in different capacities.

"When we had no serials or acquisitions librarian, I was it," reminisced the Director, who holds a master's degree from the University of Michigan and whose experience includes working in public, academic, and special libraries. She is a charter member and President-Elect of the Long Island Chapter of the Special Libraries Association.

Mrs. Winkels lives in East Setauket with her husband Edward, an independent contractor for applications of silk-screen process.

Career Conference 1974

More than fifty employers are coming to Stony Brook on Tuesday, Wednesday, and Thursday, March 26, 27 and 28, to talk to undergraduates about employment opportunities in their respective fields. Last September Muriel Weyl, program coordinator at Kelly A, started working with students (under the sponsorship of Dr. Alan Entine and the assistance of Ms. Audrey Williams, Career Development Office) to build a conference which would help undergraduates become aware of the options and alternatives for their career choices.

The conference intends to inform employers of the range and qualifications of Stony Brook students. Representatives from various public and private agencies and companies will be speaking and answering questions at one-hour sessions during the three-day conference. They will discuss entry level qualifications, in-service trainee programs, and summer internships: They will suggest part time or summer experience which may be valuable, skills necessary, and opportunity for growth in the field.

Programs will take place 3:30 to 5:30 p.m., and 7:00 to 9:00 p.m., in the Stony Brook Union, next Tuesday, Wednesday, and Thursday. To date, a survey of 10,000 alumni has been sent to acquire information about their job experiences since graduation. The findings of the Conference and the survey will be published at the end of the semester.

Career Conference Coordinator, Muriel Weyl (c.), with students who helped organize the event (from l. to r.): Shirley Markow, Josette Wallock, Richie Sporer, Sheryl Rudoz, David Gitamer, and Pat Lorelli.

Note: Ms. Audrey Williams, Career Development Office, will be in Room 229 for individual counseling during the conference.

Special Announcement

CEC BEGINS WORK
FUND FOR ENVIRONMENTAL ACTION STARTED

The Campus Environmental Committee (CEC), established recently by President Toll under the chairmanship of Professor Robert Merriam of the Department of Cellular and Comparative Biology, has begun functioning. The committee held its first full meeting last week, setting up several sub-committee "task forces" through which committee members will concentrate on developing concrete, practical proposals for improvements in the campus environment.

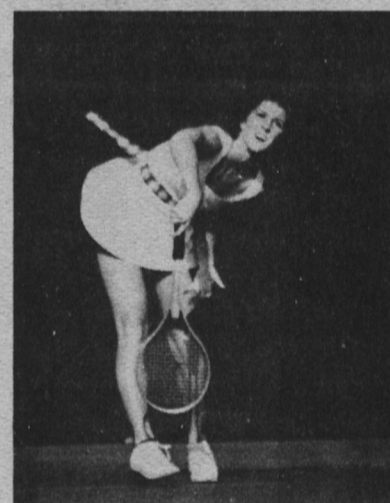

The committee's efforts will be aimed at proposals which can be implemented within present campus resource limitations; proposals which can be immediately beneficial to the campus, as well as long-range problem solving.

To help with the Committee's work, Prof. Merriam has reported that a "Fund for Environmental Action" has been established to provide a means for campus groups and individuals to contribute to environmental improvement. Contributions of either time or money are welcome. Prof. Merriam said that students who wish to give some time for campus beautification should contact either their quad manager for work in college or quad areas or the ENACT information center (6-7107) for work in the academic central area.

Contributions of cash or budgeted funds for campus environmental purposes may be earmarked for general purposes or for specific projects. For further information on this, contact Prof. Merriam at 6-5037. (Prof. Merriam reports that the Office of Facilities Planning already has taken an initiative in this regard by acting to secure \$8,000-\$10,000 for center mall plantings to supplement the major landscaping contract work which is expected to begin this spring. And, Robert H. von Hasseln, Executive Director of ENACT, has reported that members of ENACT have offered their time and some money from their treasury to further landscaping projects in the Stony Brook Union and central mall area.)

Further announcements of such contributions will be made later.

**Physical fitness
is beautiful,
beautiful,
beautiful.**

Something beautiful is happening to girls. They are not just spectators anymore. They're into Physical Fitness. The results are simply beautiful when parents support the Physical Education programs of their schools.

A Convocation sponsored by the Coalition for Better Health Care will be held in the Union Auditorium - Wednesday, March 27, 1974 at 12:30 p.m.

Invited speakers are President Toll and the deans of the Health Sciences Center.

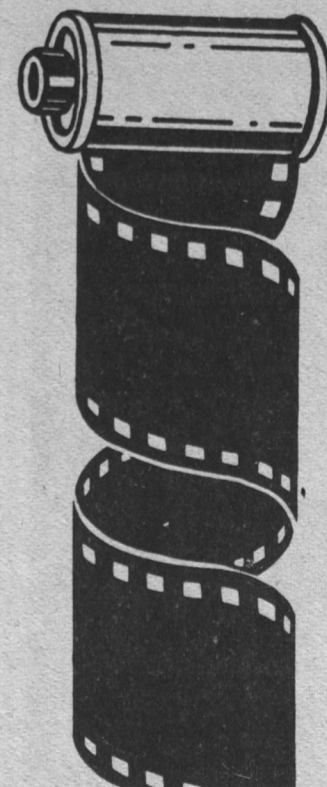

photo drive

University Relations is looking for photos for the 74-75 Undergraduate Bulletin. All Undergraduate photographers are urged to bring in any pictures or film proofs of scenes taken on campus that they have taken. Photos will be bought at \$3.00 per 8x10 (b+w). Reprints will be bought at \$1.50 each. PHOTOCREDITS WILL BE GIVEN FOR EVERY PHOTO APPEARING IN THE UNDERGRADUATE BULLETIN!

DEADLINE: MAY 15, 1974

POLITICAL SCIENTISTS SEEKING ANSWERS ABOUT POLITICAL ATTITUDES

Three political science researchers at Stony Brook are trying to find better measures for evaluating the answers people give to political surveys.

In a study sponsored by the National Science Foundation, Professors Milton Lodge, Bernard Tursky, and David Cross are applying behavioral laboratory techniques to the analysis of political behavior. Their study is believed to be unique in the field of political science, because they are relying not only on verbal responses to opinion surveys, but are using a complex combination of physical and physiological measures.

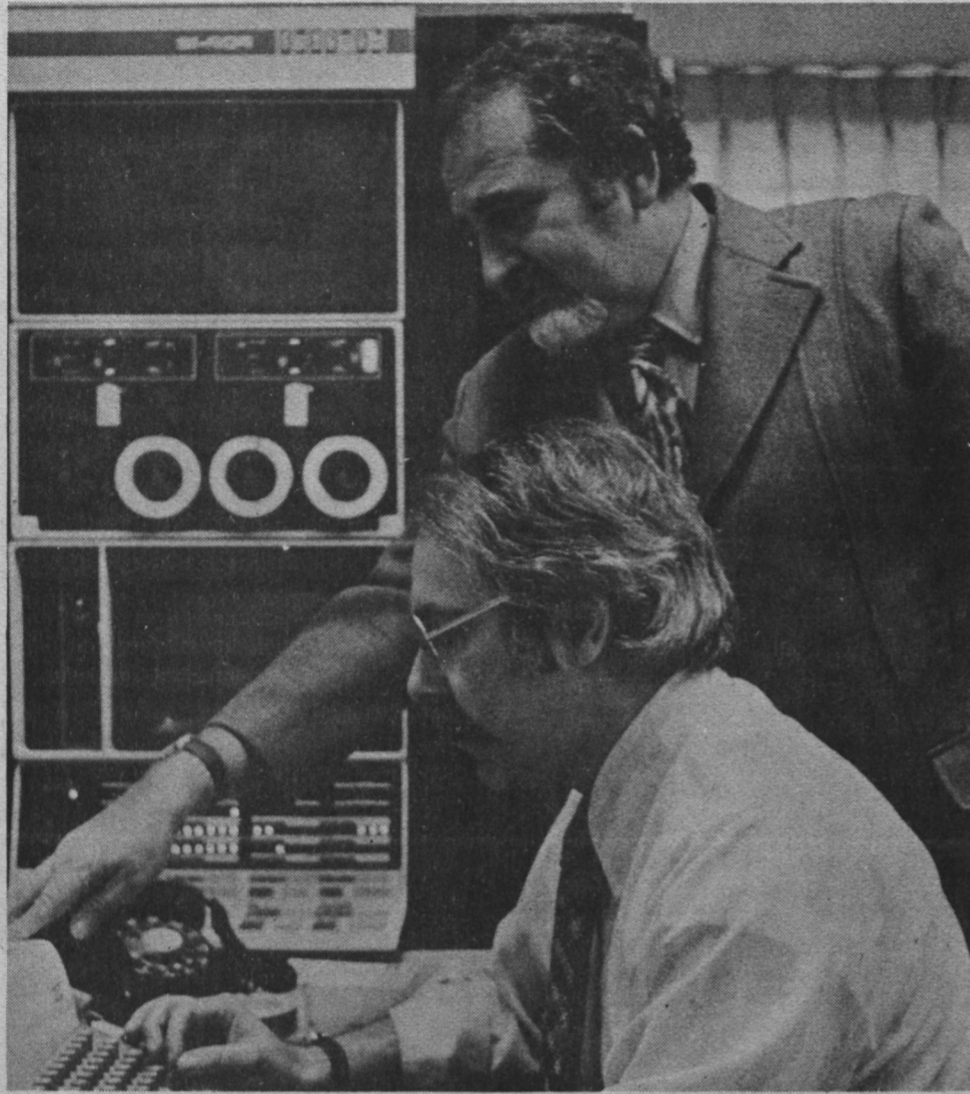

The researchers' first goal is the development and validation of new scales of political opinion. "We're not happy with the standard measures that are being used by political scientists to evaluate opinion, and we are trying to create more stringent and useful measures," Professor Lodge said.

He continued, "While pollsters make great efforts to get an accurate sample for their surveys, a more fundamental question of survey accuracy exists — do those answering the survey interpret the questions in the way the pollster intended and make meaningful responses to the questions?"

To find out how people evaluate and respond to survey questions, the three researchers established a Behavioral Research Laboratory where they are measuring subjects' responses in more sophisticated and exact ways than is possible through the evaluation of verbal answers alone.

In one of a series of studies, the researchers are using the principles of psychophysics to obtain an accurate picture of a subject's reactions to key words in a survey question. "We ask the subject to estimate how much approval one statement indicates in comparison to an already established standard," Professor Bernard Tursky said. "For example, in developing a scale to measure support for the Supreme Court, we set up a standard by saying 'The Supreme Court is sometimes good, and sometimes not so good'. Then we give another statement such as 'The Supreme Court is absolutely perfect' and we ask the subject how supportive the second statement is compared to the standard."

To gather data on peoples' evaluation of these statements, individuals are asked to make three different types of responses relative to the standard statement: one response is verbal (assigning

Prof. Bernard Tursky (standing) and Prof. Milton Lodge review computer data which shows numerically physical and physiological responses from experimental subjects in their study of political attitudes.

Photo by Michael Weintraub

numbers), the other two physical — squeezing a handgrip device and adjusting the volume of a noise.

The benefits of this kind of measurement are that each psychophysical response can be measured exactly, and direct relationships between measures can be established mathematically — which can't be done with conventional verbal answers.

The data is then analyzed by a computer which establishes a mathematical, numerical scale giving precise values to the three responses, the combined values of which provide a framework for the construction of more accurate survey questions.

The second phase of the study employs psychophysiological techniques to gain a more basic understanding of how people's beliefs affect the attention they pay to political information.

Professor Tursky, a psychophysiological explains: "People respond physiologically to a stimulus in a variety of ways — we can measure changes in heart rate, blood pressure, muscle tension, brain waves, and galvanic skin response. Patterns of physiological response indicate levels of attention. In carefully conducted studies, these patterns allow researchers to better understand the

role attention plays in the evaluation of environmental stimuli."

In one such experiment, research subjects are connected to a physiological recorder which measures the autonomic nervous system indicators. While the subject is shown a film, his heart rate, blood pressure, etc., are monitored and recorded. "Our hypothesis is that when an important piece of information was mentioned or visually depicted in the film, nervous system indicators would show whether the subject was paying attention," Professor Lodge said. "We find that when people do attend to environmental stimuli, they have heart rate deceleration, so by studying their physiological reactions we can tell when they are paying attention to a particular point of information."

When the film is over, the subject is quizzed to see what he recalls and how he evaluates its content. "We want to find out if his recall and evaluation is related to what he attends to while the film is being shown," Professor Lodge said. In a carefully conducted study, the researchers can find out whether the subject's previous beliefs and attitudes affect what he pays attention to, and eventually they hope to be able to predict a subject's final evaluation on the basis of the psychophysiological data they collected while he was watching the film.

"Hopefully, our experimentation will help us to better understand the basic processes people go through in forming a political opinion," Professor Lodge said. "When we combine this with newly developed political opinion scales we should be able to prepare political surveys that are more accurate than those done previously."

Professors Lodge, Tursky, and Cross hope that the reliable and validated attitude scales they develop will help political scientists, and eventually other social scientists, create studies that will gauge political opinion more accurately, and lead to a better understanding of the relationship between attitude and behavior.

Prof. Tursky and laboratory technician Mary Ann Foley review experimental procedure used in one of the biopolitics studies. Their lab at Stony Brook includes a specially equipped chair where subjects can respond to questions by squeezing a hand grip or adjusting the volume of a noise.

EIGHT THINGS

YOU

AS A STONY BROOK EMPLOYEE

SHOULD KNOW

- ★ **MORE THAN \$58,000** in dividends has been paid over the past nine years to Stony Brook employees by the SUSB Federal Credit Union.
- ★ **MORE THAN \$2.5 MILLION** has been loaned to Stony Brook employees by the campus Credit Union.
- ★ **MORE THAN 1000 UNIVERSITY WORKERS** are now members of the Stony Brook Credit Union.
- ★ **AUTOMATIC SAVINGS** through systematic payroll deduction is a popular Credit Union feature. A dividend rate of 5% has been paid by the Credit Union for the past year.
- ★ **REASONABLE LOANS**, at rates competitive with and often better than those of finance and loan companies and banks, are available to members of the Credit Union. About 3000 loans have been made to Stony Brook employees for cars, appliances, home improvements, travel, education, etc.
- ★ **INSURANCE** from the National Credit Union Administration covers each member account to \$20,000. At no additional cost, members have life savings insurance and loan protection insurance. New disability insurance on loans is also available.
- ★ **NEW 6% ONE-YEAR CERTIFICATES** will be available April 1 in limited quantities of \$1000 each to members of the Credit Union maintaining a \$500 balance.
- ★ **WE'RE RIGHT ON CAMPUS**, on the first floor of the Administration Building, Room 190, near the elevator. Hours: 10 a.m. - 2 p.m., Tuesday, Wednesday, Thursday. Phone: 246-7700.

DO YOU BELONG?

All permanent employees of the University, F.S.A., and the Research Foundation may join. Application fee: \$1. Non-permanent, full-time employees are invited to participate in the payroll deduction program.

NOW

Many employees are about to receive larger paychecks as increments, cost-of-living increases, and raises take effect. Now is the time to start saving regularly with the Credit Union. If you are already saving with payroll deduction, it is an appropriate time to increase your weekly deduction.

Goodbye!

"This Week" bids goodbye to its editor Barbara Grimaldi with this issue, as she departs to accept a new, challenging position with the Grumman Corp.

With the loss of its editor and an office budget that's exhausted for the remaining few weeks of the current fiscal year, "This Week" will take what hopefully will be only a slightly longer than anticipated spring recess break. The copy deadline for the next issue is April 12 with its publication expected April 19.

<p>President's Student Open Line. Call 6-5940 between 4:00 and 5:00 p.m. to discuss problems, complaints, suggestions, ideas with President Toll.</p> <p>The campus chapter of the National Organization for Women and the Stony Brook Union will jointly sponsor a "Women, Succeed Now!" teach-in beginning at 4:00 p.m., in the Stony Brook Union. Main Speakers will include Cynthia Fuchs Epstein, Assoc. Prof. of Sociology at Queens College and author of "The Other Half" and "Woman's Place;" Florence Howe, president and co-founder of the Feminist Press, co-author of "The Conspiracy of the Young," and editor of "No More Masks;" and Elizabeth Wadsworth, Stony Brook's Vice-President for Student Affairs. Following the speeches and a dinner break, nine workshops will be held at 7:30 p.m. Admission is free and open to both women and men. For further information call 6-4088.</p> <p>The International Club will show the film "Muddy Waters" at 8:00 p.m., in the Stony Brook Union Auditorium.</p> <p>The Music Department will present a student recital by James Gburek, pianist, who will perform works by Haydn, Brahms, Schoenberg, and Chopin at 8:30 p.m., in room 105 of the Lecture Center.</p> <p>The Women's Center will offer free informal birth control, pregnancy, and abortion counseling between 2:00 and 3:00 p.m., in room 062 of the Stony Brook Union. Call 6-3450 for further information.</p> <p>Prof. Clifford Swartz will discuss "The Fundamental Particles" as part of his continuing lecture series on "The World View of Modern Physics," at 7:00 p.m., in the Physics Lecture Hall.</p> <p>Dr. Charles Hoffman will conclude his discussion on "How Economy Works — The Commune," which is part of his continuing lecture series on "Comparative Economic Systems — China," at 5:30 p.m., in room 111 of the Lecture Center.</p> <p>The University Museum, operated by the Anthropology Department and located in room 142 of the Social Sciences Classroom Building, will feature an exhibit of "Photographs of a New Guinea People," on loan from the Smithsonian Institute, between 10:00 a.m., and 7:00 p.m.</p> <p>The First Floor Gallery of the Administration Building will feature a collection of serigraphs, collages, and color experiments by undergraduate senior Teofilo Joseph Cardenas between 9:00 a.m., and 5:00 p.m.</p>	<p>The Music Department's Artist Series will feature Ronald Anderson on the trumpet and Alvin Brehm on the string bass at 8:30 p.m., in room 105 of the Lecture Center.</p> <p>The Infirmary will offer free birth control and pregnancy counseling for those who call 4-2472 or come to room 124 of the Infirmary between 1:00 and 4:00 p.m. or 6:00 and 10:00 p.m.</p> <p>Prof. James Papike of the Earth and Space Sciences Department will speak on "The Conquest of Space" as part of Prof. Bentley Glass's lecture series on "Science and the Future of Man," at 7:00 p.m., in room 102 of the Lecture Center.</p> <p>The "Photographs of a New Guinea People" Exhibit will continue in the University Museum (see Monday).</p> <p>Stony Brook Union's International Cooking Exchange will feature the preparing of Cod Fish Cakes between 12:30 and 2:30 p.m., in the Stony Brook Union Galley. Free samples and recipes.</p> <p>Tuesday Flicks will feature Polish Director Jerzy Skolnowski's "Walkover" at 8:00 p.m., in the Stony Brook Union Auditorium.</p> <p>Tournament Bridge, with Master Points awarded will take place at 8:00 p.m., in room 226 of the Stony Brook Union. Admission is free to students, \$1 to all others.</p> <p>The Cardenas Exhibit will continue in the Administration First Floor Gallery (see Monday).</p> <p>The Chemistry Department will present a BIPO Seminar by Prof. Milan Radic, from the State University at Buffalo, who will speak on "A Theoretical Approach to Aromaticity" at 7:30 p.m., in the Chemistry Lecture Hall. Call 6-7663 for further information.</p> <p>Catholic Mass will be offered at 12:15 p.m., in the end hall lounge of the Gray College A Wing.</p> <p>The Stony Brook Union Art Gallery will feature works of art from the Roten Galleries of Baltimore from noon to 9:00 p.m.</p> <p>Hillel Free University will present a discussion of Passover by Rabbi M. Edelman, as part of a continuing series on Basic Judaism, at 7:15 p.m., in room 261 of the Social Sciences Lab Building. Call 6-7203 or 6-7391 for further information.</p> <p>Catholic Mass will be offered at 12:15 p.m., in the End hall lounge of the Gray College A Wing.</p>	<p>The Physics Department will present a colloquium by Prof. T. Fulton, of Johns Hopkins, who will speak on "Quantum Field Theory, Relativistic Wave Equations, and Exotic Atoms" at 4:30 p.m., in the Physics Lecture Hall.</p> <p>Dr. Peter Williams will present Dr. Gene Weinstein as guest lecturer in the "Science in the Health Professions" series at 1:00 p.m., in room 102 of the H Building on the South Campus. Dr. Weinstein will speak on "Experimentation on Humans."</p> <p>The Music Department will present a Master of Music Degree Recital by Daniel Watters, on the cello, who will perform works by Prokofiev, Shostakovich, and Stravinsky at 8:30 p.m. in room 105 of the Lecture Center.</p> <p>The Theatre Arts Department's Professional Series will feature Newsday film critic Joe Gelmis who will speak about "On Film" at 4:00 p.m. in room 114 of the B Building on the South Campus. Refreshments will be served.</p> <p>The Cardenas Exhibit will continue in the Administration First Floor Gallery (See Monday).</p> <p>The "Photographs of a New Guinea People" Exhibit will conclude today in the University Museum (See Monday).</p> <p>Rainy Day Crafts will demonstrate Easter cut-outs and see-ins between 1:00 and 4:00 p.m. in the Main Lounge of the Stony Brook Union.</p> <p>The Women's Center will offer free informal birth control, pregnancy, and abortion counseling between 2:00 and 3:00 p.m. in room 062 of the Stony Brook Union. Call 6-3540 for further information.</p> <p>The Career Development Office will continue its group discussion series on careers at 4:00 p.m., in room 335 of the Administration Building. Students should call Mrs. Williams at 6-7024 for an appointment or further information.</p> <p>The Campus Career Conference, sponsored by the Office of Career Development, will be held between 3:30 and 5:30 p.m., and 7:00 and 9:00 p.m. Details elsewhere in this issue.</p> <p>Hillel Free University will present a group discussion by young Israelis at Stony Brook on "Growing Up in Israel," as part of a continuing series on Israel, at 7:30 p.m., in room 152 of the Social Sciences Administration Building.</p>	<p>The Music Department and Stony Brook Union will jointly sponsor a lecture and concert by three world famous performers in the field of Early Music, Kenneth Wollitz, recordist, Judith Davidoff, viola da gamba, and Leonard Raver, harpsichordist. The Lecture, at 4:00 p.m. in room 105 of the Lecture Center, will cover "The Creative Role of the Performer in Early Music. The Concert, "Baroque Reveries—How They Played it in the Old Days," will consist of a selection of music from the 17th, 18th, and 19th centuries, and will start at 8:30 p.m. in room 105 of the Lecture Center.
