Open House a Success!

THANKS TO EVERYONE!

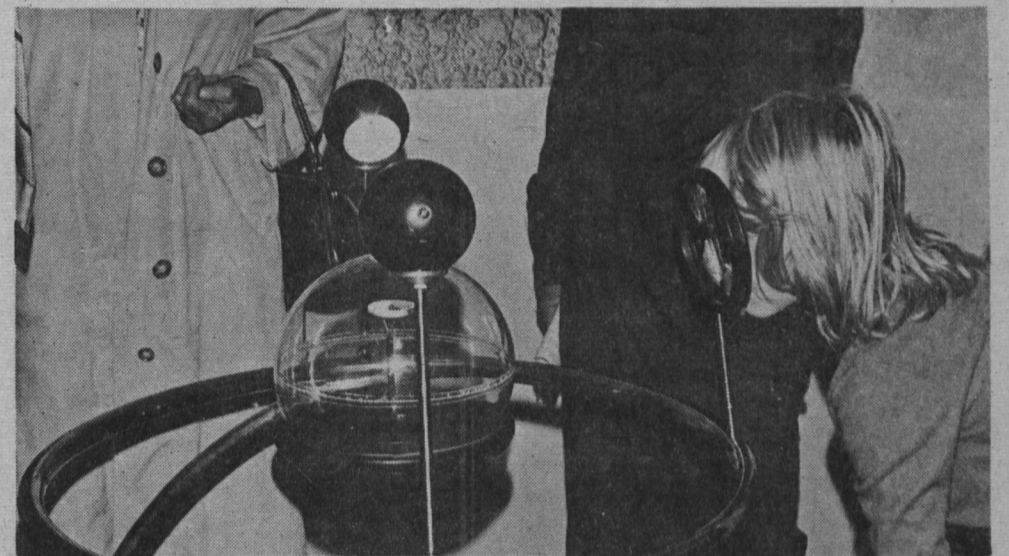

More than 7000 visitors came to campus last Saturday to help celebrate the 25th birthday of the SUNY system. Student-faculty-administrative cooperation, great weather, and a roster of attention-getting events that ran the gamut from culture to entertainment to hard science helped make the day the enjoyable one it was.

The moon rocks exhibit at ESS was again one of the most popular attractions, and the Health Sciences Center Open House drew hundreds of visitors throughout the day. The official opening of the Biomedical Museum, the "China Today" forum conducted by distinguished faculty members, Union crafts demonstrations and the colorful fence painting contest were just some of the day's highlights.

The Entertainment and Refreshment Tent was one of the major centers of attraction. First, it was the showplace for the talked-about SUNY birthday cake, a confection that tipped the scales at nearly 500 pounds. Hundreds of

people queued to receive a "slice" after the first cut was made (with a sabre, yet) at 3:00 p.m. by Executive Vice President Pond and Mr. Jerry Cogna, Manager of the Stony Brook Office of the Central Federal Savings Bank which donated the cake. More than 2500 slices were served. Second, the tent was popular because of its stage. From Ragtime to professional jazz to banjo-banding until midnight—it was all there. Tent crowds thinned out only when the Student Activities Board Fireworks Display drew hundreds out onto the athletic fields.

The smoothly and efficiently-run bus and walking tours were very well received by visitors. Without them, strangers to the campus could never have gotten to see so much in so little time. Without the drivers, the guides, the hospitality corps volunteers, the women and men of the Security Department, the custodial and maintenance staffs—in short, everyone who gave so much effort—Open House wouldn't have been Open House at all.

"GOOD TEACHING" BOOKS IN LIBRARY

As in past years, a small collection of books and periodicals dealing with problems of good teaching has been set aside by the Library.

The collection, shelved for ready reference in one section in the rear of the Reserve Book Reading Room, covers a variety of topics including teaching in the context of the college environment, students—developing and learning, teaching methods, evaluation of teaching, and graduate education and teacher preparation.

Among the books available are classics such as McKeachie's *Teaching Tips* and Waller's *The*

Sociology of Teaching, and empirical studies of the teaching process such as Mann's *The College Classroom* and Dubin's *The Teaching Learning Paradox*.

The collection was originated by Dr. James Bess of the Research Group for Human Development and Educational Policy. A "Guide for the Improvement of Teaching," an annotated bibliography of the books, is available from Dr. Bess at Ext. 6-7680.

The Research Group continues to offer its services in the development of faculty seminars on the improvement of college teaching.

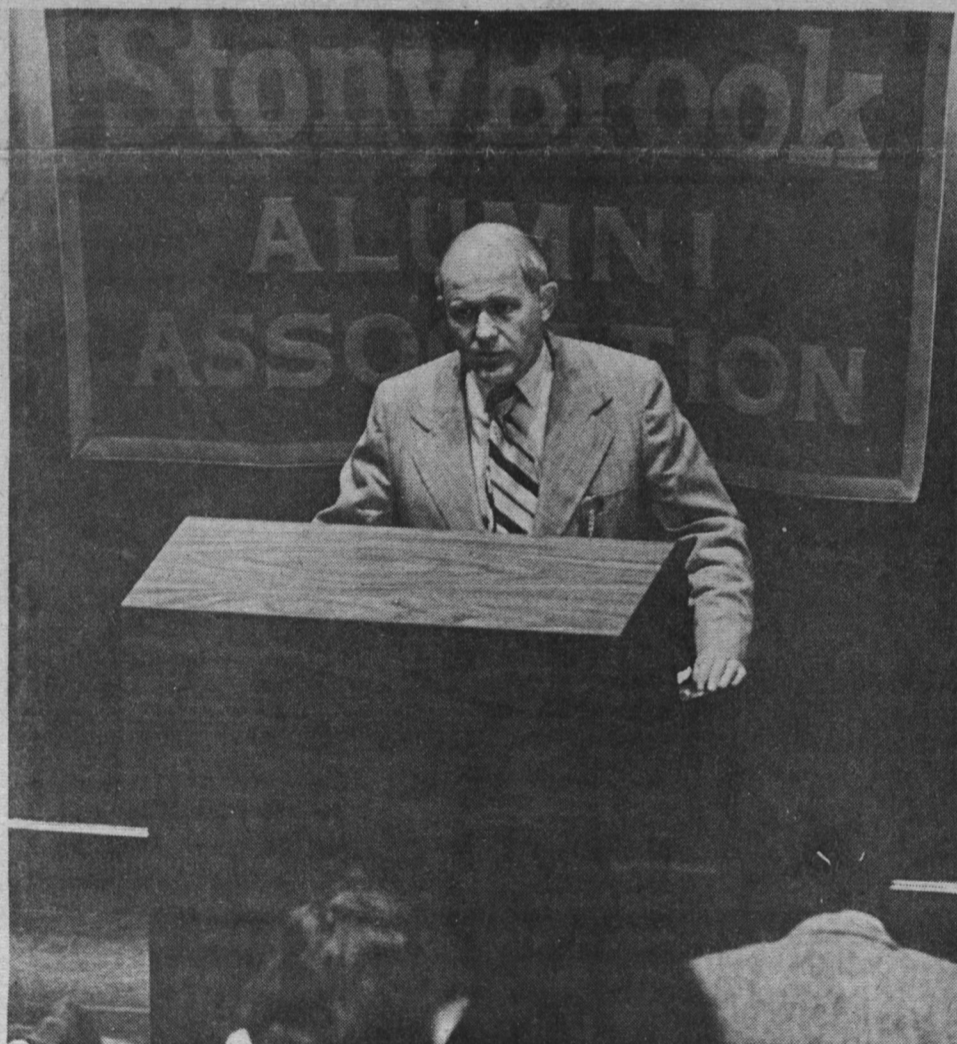

Improvement in Dental Insurance Plan

If you are an employee participating in the Dental Insurance Plan, you are now responsible for paying only the first \$50 on the value assigned by GHDI for dental work done. If you have family coverage, each of your dependents will also have an annual deductible of \$50. However, the total deductible for all the members of your family will not exceed \$150 for the calendar year.

The new plan also provides for payment based on 100% of GHDI's value assigned to the dentist's services. Orthodontia will be paid up to \$745 — a 50% increase.

These improvements in your dental insurance coverage are retroactive to January 1, 1973 for State employees and to February 1, 1973 for Employees of the Research Foundation. The Personnel Office recently learned that GHDI is automatically making the additional payments for claims already submitted.

For further information, contact Mrs. Betty Bodkin, Assistant for Personnel Services, at 6-8302.

Clockwise, from top right. (a) A family enjoys watching student artists put the finishing touches on their fence panels. (b) Protected in a plastic sphere, a moon rock draws its share of this young lady's attention. (c) President Toll addresses alumni who celebrated their first official "Homecoming" on Open House Day. (d) Dr. Charles Hoffmann, Mrs. L.L. Wang, and Nobel Laureate Dr. C. N. Yang at the "China Today" forum. (e) Assistant Professor of English Jerry Dibble and his Stony Brook Jazz Lab orchestra starred in a live telecast from IRC's main studios.

THANKS!

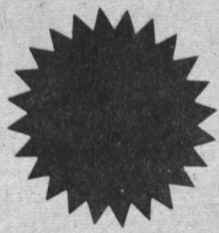

To all the students, faculty and staff who volunteered their time, effort and nervous energy both in preparing for and in carrying 25th Anniversary Open House program.

Fear Reduction Research Program

The Psychology Department is sponsoring a Fear Reduction Research Program under the direction of Dr. Thomas J. D'Zurilla.

The aim of the program is to investigate various new and promising therapy techniques for the rapid extinction of irrational fears and phobias. Basically, the research question being asked is: What techniques are most effective for what individuals and under what set of conditions?

Individuals suffering from irrational fears or phobias who are interested in applying to participate in this program are being asked to phone 6-5970 between the hours of 11:00 a.m. and 1:00 p.m., Tuesday through Friday, or write to Dr. D'Zurilla c/o the Department of Psychology.

NOTARIES!

For your information, there are five Notary Publics on campus to serve the campus community during the working day:

Incomplete Grades

SPRING SEMESTER 1973 &
SUMMER 1973

Students are reminded that the deadline for removing incomplete grades received at the end of last semester (and the Summer session) is November 1st. Final grades must be received in the Office of Records by that date. Otherwise the Faculty rules require that the grades become "F's".

THE OFFICE OF PERSONNEL IS PLEASED TO ANNOUNCE SOME RECENT PROMOTIONS:

SHEILA SCHWARTZ,
CHRISTINE KELLY, CAROLE
ANN ROLAND, DOROTHY
GOODWIN, MARY SHEMAKA,
BARBARA BERG, PATRICIA
HULSMAN, BETTY TAKACS,
JOAN VOGELLE, ELEANOR
CHESELKA AND MARTHA
BRAAK WERE PROMOTED TO
SENIOR STENOGRAPHERS.

RICHARD ELBERT WAS
PROMOTED TO MAINTENANCE
FOREMAN.

MELVIN WHITE WAS
PROMOTED TO CARPENTER.

EL ED METHODS REGISTRATION

APPLICATIONS FOR ELEMENTARY EDUCATION METHODS ARE BEING RECEIVED IN THE EL ED OFFICE (LIBRARY 410) FOR SPRING PLACEMENT BETWEEN OCTOBER 15 and OCTOBER 26. APPLICATIONS MUST BE COMPLETED PRIOR TO PRE-REGISTRATION IN ORDER TO BE CONSIDERED FOR ADMITTANCE.

MEMORANDUM

To: Faculty, Students and Staff
From: Robert F. Schneider, Acting Associate Dean for Research
Subject: Periodic Report on Scholarly Achievements
Date: October 10, 1973

"This Week" provides a vehicle whereby the scholarly achievements of members of the University Community can be reported regularly. It is proposed, with Vice President Gelber's endorsement, that the Office of Research Administration, in the Graduate School, be the agency which collects and organizes the information for such a listing.

We invite all members of the University Community to contribute regularly, to our office, items for inclusion in such a listing. We would hope to include published articles (with authors, titles, and a reference in normal bibliographic format), published books (with authors, titles and publishers), completed works of art (with their locations or places of performance), invited lectures, fellowships, major addresses, elections to major posts in professional societies, honors, awards and any other form of scholarly recognition.

We believe that the fruits of scholarly effort on the part of members of the University Community should be known to the Community.

Please send any items for inclusion to:

Office of Research Administration
Graduate School
Administration Building

RFS/ad

office of research administration

We've had many queries on the probabilities of receiving a University award. For those interested in figuring out the odds, we reprint a chart first published in the ORA Newsletter of 4-15-73 by Dr. Gary Thomas:

Residence Hall Problems

DORMITORY RESIDENTS: If you are concerned about a maintenance problem, etc., in your residence hall, the Housing Office asks that you contact your quad office.

If you have already reported such a problem and would like to know the status of corrective action, you may contact Mr. Frank Trowbridge, Assistant Director of Housing, at the Housing Office (new location: Third Floor, Administration Building), 6-7007.

Dormitory residents should know that employees are required to clean dorm bathrooms and kitchen areas regularly. In particular, student employees— hired especially for the purpose—are required to clean ranges and ovens. They are also required to remove garbage on Saturdays and Sundays.

If you know of any instance where these procedures are not being followed, please notify Mr. Trowbridge.

NOTES & QUOTES

TOM JONES IN AFRICA

Kofi Awoonor, Assistant Professor of English, wrote in an article titled "The Music of Modern Africa" which appeared recently in *Worldview* magazine: "It is not impossible to stop in a village palm wine bar (in Africa) and hear the howling screams of Tom Jones coming over a Japanese transistor radio."

NOISE ANNOYS

A study, in which Dr. Jerome E. Singer, Professor of Psychology and Sociology, participated, has shown that young children living on the lower floors of Manhattan's Bridge Apartments, 32-story towers built over the approach highways to the George Washington Bridge, had greater auditory discrimination and reading impairments than children on the top floors where noise levels were lower. The study also showed that the longer a child had lived on the lower floors, the more pronounced was his sound discrimination and reading impairment.

VISITOR FROM OUTER SPACE

In late September, Harrison Schmitt, the first civilian and the first scientist to walk on the moon, visited the University to talk informally with scientists and examine some of the lunar rock samples being analyzed here. He was the geologist-astronaut who participated in the Apollo 17 moon landing last December.

YANGTZE INGENUITY

"China now feeds herself adequately, is rapidly developing a broad, modern industrial foundation, and provides her peasants and workers with an increasing number of social and cultural services," wrote Dr. Charles Hoffmann, professor of economics and assistant academic vice president, in a September article in *Newsday*. He visited China during the summer.

ALCOHOLIC FOR A DAY

As part of a preventive alcoholic education course, Stony Brook health sciences students spend an afternoon in a verbal role-reversal encounter with alcoholic patients in a post-detoxification rehabilitation program at Central Islip State Hospital. The talk turned to efforts at "deglamorizing the cocktail hour and exposing the happy-drunk image for what it is—a lie," as one participant said.

DO SCIENCE AND RELIGION MIX?

A holographic deblurring process developed by Dr. George W. Stroke, Professor of Engineering, may be used this fall in an effort to discover whether a 14-foot linen strip long venerated by Roman Catholics as the burial cloth of Jesus Christ is authentic. The shroud, which bears an image of a man and is housed at the Cathedral of Turin, Italy, has long been a puzzle to scientists.

DON'T MENTION IT

"In 1970, Americans spent more than 5 million dollars on lotions, unguents, hair dyes and cosmetics to create the appearance of youth—and men spent as much as women," Dr. G.V. Laury, assistant professor of clinical psychiatry, wrote in an article titled, "Some Reflections on Aging in the U.S.," in *Geriatrics* magazine.

MS. REPRESENTATION

It has been suggested to officials in Albany that the State University motto ("Let Each Become All He Is Capable of Being") be modified to "Let Us Become All We Are Capable of Being."

Ralph Chamberlin

NEW FULL-TIME FACULTY APPOINTMENTS 1973

- Anthropology:** Edward Lanning (Professor), Susan P. Montague (Assistant Professor/Instructor)
- Art:** Jan des Grange (Adjunct Assistant Professor)
- Asian Studies:** Bing-cho Chan (Visiting Lecturer)
- Biological Sciences:** Branko Soucek (Visiting Professor)
- Biochemistry:** Elliot Shaw (Adjunct Professor)
- Ecology & Evolution:** Barbara Carroll (Assistant Professor)
- Black Studies:** Rupert Vaughn (Instructor)
- Center for Contemporary Arts & Letters:** Benjamin Suchoff (Adjunct Director of Special Collections)
- Chemistry:** Robert C. Bryant (Adjunct Associate Professor), Jimmie Dave Doll (Assistant Professor), Barry M. Jacobson (Visiting Assistant Professor), Rufus Lumry (Adjunct Professor)
- College of Arts & Sciences:** Daniel Prener (Lecturer)
- Comparative Literature:** Serge Fauchereau (Visiting Professor)
- Earth & Space Sciences:** Susan E. Kesson (Visiting Assistant Professor), Barry L. Lutz (Visiting Assistant Professor), William J. Meyers (Assistant Professor), Philip M. Solomon (Professor), Miriam Formon (Adjunct Assistant Professor), William Robinson (Adjunct Associate Professor)
- Economics:** Michael Denci (Adjunct Assistant Professor), Barbara Katz (Assistant Professor), Richard Kihlstrom (Associate Professor), Leonard Mirman (Associate Professor)
- Education:** Robert J. Gross (Assistant Professor), Michael Kane (Assistant Professor)
- Mechanics:** Nobuhiro Seki (Adjunct Professor)
- English:** Alma Altizer (Assistant Professor), Grace E. Collins (Assistant Professor/Lecturer), Jane Marcus (Assistant Professor), John Sturtevant (Assistant Professor/Lecturer), Peter Houle (Assistant Professor)
- French & Italian:** Vittoria Vetrugno (Instructor), Jeanine Goldman (Lecturer)
- Germanic & Slavic Languages:** Fritz Cocron (Associate Professor), Dennis Green (Visiting Professor)
- History:** Malcolm J. Kitch (Visiting Associate Professor), Yasuo Sakata (Visiting Lecturer)
- Applied Mathematics:** Michael Marcus (Adjunct Associate Professor)
- Mathematics:** Denson C. Hill (Associate Professor), Donal O'Donovan (Visiting Lecturer), Sandor Strauss (Assistant Professor)
- Music:** Ronald Jeffers (Assistant Professor), Jan Carl Christian Maegard (Visiting Professor), Sonja Neblett (Lecturer)
- Philosophy:** Silvia Federici (Lecturer), Clyde Lee Miller (Lecturer), Donn Curtis Welton (Assistant Professor)
- Physical Education:** Elaine Budde (Associate Professor), Susan P. Krupski (Assistant Professor), Marjory Van Wart (Instructor)
- Institute for Theoretical Physics:** Bernard de Wit (Research Associate), Garland Grammer (Research Associate), Paul Hoyer (Research Associate), Weislaw St. Crzyz (Visiting Professor), Harry B. Thacker (Research Associate), Yoshio Yamaguchi (Visiting Professor), York-Peng Yao (Visiting Professor)
- Physics:** Robert A. Bari (Visiting Assistant Professor), Rudiger Brenn (Visiting Assistant Professor), Hans Jostein (Assistant Professor), Manque Rho (Visiting Professor), Moti L. Rustgi (Adjunct Professor)
- Political Science:** Mark Landis (Visiting Assistant Professor), Kristen Monroe (Assistant Professor/Instructor)
- Psychology:** Michael Gazzaniga (Professor), Harriet Kaplan (Adjunct Assistant Professor), Rita Poulos (Assistant Professor), Sally P. Springer (Assistant Professor), Chester Copeman (Assistant Professor), Rolf Jacob (Adjunct)
- Puerto Rican Studies:** Juan E. Mestas (Lecturer)
- Sociology:** Kirsten A. Gronbjerg (Lecturer), James B. Rule (Associate Professor)
- Urban & Policy Sciences:** David Swinton (Assistant Professor)

Campus Distribution: A Better Way

One impediment to effective campus communication is the difficulty of distributing flyers, leaflets, posters, and other printed announcements quickly and efficiently.

Simply by calling the University Relations Office (6-3580), any department with 2100 (student assistant) funds in its budget account may arrange to have materials distributed throughout the main campus and/or south campus with distribution intensity ranging from spot to blanket coverage depending upon your requirements.

The service is based on pre-established and standardized distribution patterns that utilize the best posting and drop-off locations, centrally located bulletin boards, etc., in each campus building.

Distribution will be provided by student assistants who have been employed through University Relation's student assistant account.

To use the service, call 6-3580 and within a short time one of the distribution service students will be at your office with an invoice and a selection "menu." Once these forms have been completed and the invoice has a department's authorized budget signature, distribution will begin immediately. In most instances, the entire process will take no more than two or three hours, at a cost to you in student assistant funds as little as \$6 (main area posting plus bulk drop-offs in all general campus buildings). One Caveat: the "distributors" will be on foot, carrying delivery bags suitable for flyers, etc., and will not be able to handle unusually bulky materials, make deliveries, or provide messenger service. Other than that, they're ready and eager to start working for you.

this week

VOL.1, NO.3 October 19, 1973

Produced by the Office of University Relations at the State University of New York at Stony Brook, Stony Brook, New York 11790, Rm. 323 Administration Building, phone 6-3580.

The United Way**

UNITED FUND OF LONG ISLAND
535 Broad Hollow Road, Melville, Long Island, New York 11746 - 249-1100

Security Tips for Quad Residents:

- * Never leave your room unlocked, even for a few minutes.
- * Always lock your car. Secure your bicycle when it's unattended.
- * Keep a list of those serial numbers placed on your property by the manufacturer (televisions, stereos, cameras, typewriters, etc.).
- * Mark items which are not serialized in an inconspicuous place with an electric marking pencil. Use your Social Security number for identification marking.
- * On lock-outs, call your Quad Manager or the Housing Office.
- * For ambulance or fire service emergencies, dial 246-3333.
- * Don't lend your keys to anyone. Keep your keys with you.
- * When you need assistance, call Security. If it's something we can't respond to, we'll try to refer you to someone who can meet your need or answer your questions.

The Office of Personnel is pleased to announce some current vacancies:

Laboratory Animal Caretaker: Division of Laboratory Animal Resources

Senior Stenographer (Research Foundation): Department of Physics

Stenographers: Family Medicine, Earth and Space Sciences, and Continuing Education

Typist (part-time): Library (Public Services)

Individuals desiring further information should contact the Office of Personnel at 6-8301.
