this week

at the state university of new york at stony brook

ROADWORK COMPLETED; MORE PARKING SOON

If you are driving a car on campus during the week ahead, you will find all the roads open to full traffic again except a small detour near Kelly Quad. And you will find additional parking areas open. Now for the bad news: You may find your car towed away if it is illegally parked.

Concerning roads, many thanks to all those students, staff and faculty who cooperated during the past week by using the North and South entrances instead of the main entrance. This allowed road construction crews to complete the electrical work and paving at our chief traffic junction near the Admin building. That junction was closed all day today, 9/26, allowing the finishing touches to be applied — wiring, paving, etc. Now that the traffic is flowing free again, you are invited to use the main entrance or the North or South entrances.

Parking has been a continuing headache for all, but it appears to be easing. There is more space this week than last, and more lots are about to open.

There will be space for 345 cars in the newly refinished lot at Tabler Quad in the Southern corner of campus. That should be completed next week. These spaces are for resident students, who carry "X" car stickers.

The new North "P" parking lot, near the LI Railroad station, will open Monday for 240 automobiles. South "P" and North "P" lots primarily are commuter student lots ("P" car stickers or permits), but resident students are invited to use them until the parking crunch ends. Campus buses will serve both lots until 11 p.m.

The big parking lot behind the Stage XII Quad near Kelly Quad will come to life as soon as the high-temperature water distribution system has been completed — around mid October. Stage XII then will get a new lot—drained, curbed, lighted — and larger than ever.

The old "H" lot off North Drive, near the Earth and Space Sciences building and the Computer Center, has reopened its northern portion — with the remainder of the lot to be finished and opened next week. This

North ESS Lot, which can be seen in the background, has been completed.

lot is for faculty and staff members, who hold "Y" car stickers.

Also helping to ease the parking situation is the new recently-opened Stony Brook Union parking lot and the Bus "n-around between the Union and the Infirmary. These are for cars with "Y" stickers. The same drivers may park in the newly finished Admin-Humanities lot.

Down the road a bit on the calendar are parking lots near the old main entrance plus two tiny lots for visitors near the information center-gatehouse to be erected at the main traffic junction near the Admin building.

The reports on the buses reflect good service. Additional bus stops are

Biology Service Road, which had been closed to allow workmen to widen and repave it, has since been reopened.

being built, and more will be constructed upon completion of the underground utility work.

Outside the campus along Nicolls Road, the wooden horses and detour signs will be removed and traffic will flow free again by the end of November when the Underpass from Core campus to the Health Sciences Center is finished.

A closing note: towing a car is bad news for everyone involved. Don't park illegally on the grass areas; safety officials have no choice but to tow your automobile. Use the parking lots mentioned above, especially the North and South "P" lots.

Above all, let's not lose our sense of humor. When everything seems to be going wrong, drive off or walk into the nearby countryside and enjoy the beauty of the fall foliage.

SB Women's Club Honors Two Juniors

Suzanna M. Lui, a Biology major from New York City, and Gary Samore, a Sociology major from Glenmont, New York, are this year's recipients of the Junior Class Scholarship Award sponsored by the Women's Club of the State University at Stony Brook. They will receive their awards at a public ceremony scheduled for this Sunday, September 29, at the Sunwood Estate at 3 p.m. A Special Award will also be presented to Diane Murphy of Miller Place, a mother of three and a student in the Health Sciences Center's School of Nursing.

The Junior Class Scholarship awards, both of which are accompanied by a \$400 individual grant, and the Special Award, which is accompanied by a \$100 grant, will be presented by Vice President for Student Affairs Elizabeth Wadsworth, acting as a representative for University President John Toll, who is in the People's Republic of China, and Colleen Hanson, who served as president of the Women's Club last year.

Women's Club President Peg Wagner said the awards are presented annually to an outstanding male and female junior who are chosen on the basis of their academic achievement and their involvement in extracurricular activities.

Mrs. Wagner said the pair were selected by the Women's Club Scholarship Award Committee, which is chaired by Barbara Selvin. The committee chose the two students from a list of candidates recommended by department

chairmen. Suzanna Lui has been involved in many extracurricular activities. Suzanna has performed voluntary work for the Stony Brook Ambulance Corps and the Old Folk's Home in Central Islip. She is also an active member of the Chinese Student Association and the Asian-American concern and is the Vice President of the Hong-Kong Club. Through her involvement with the three clubs she hopes to work toward better understanding among the different groups of Chinese students and between Chinese and American students.

Gary Samore is a member of the Program Development Committee of the Stony Brook Union Governing Board, and he has participated in the planning, organization, and operation of many Union functions. In his freshman year he established and directed the Stony Brook Union's Tuesday Flicks Film series, and later became its chairman. He will run the Sunday COCA series this fall.

Diane Murphy received a Bachelor of Science degree in Behavioral Sciences from SUNY-New Paltz in 1961. A mother of three, she returned to school as a nursing student. She has compiled both an excellent academic record, has been deeply involved in community service. She is an active member of several organizations, such as North and Central Brookhaven Health Council, the Suffolk Housing Services, Citizens Advisory Committee for the Suffolk County Department of Social Services.

Metropolitan Opera Star to Perform October 6

One of the country's best-known sopranos will give a benefit concert Sunday, October 6, 1974, for the piano fund of the Friends of Sunwood in the Stony Brook Union Auditorium.

Eleanor Steber, a leading diva of the Metropolitan Opera for many seasons, will present a program of Mozart, Puccini, Verdi, and others beginning promptly at 5 p.m.

The concert will be a special pre-season benefit to raise funds for a grand piano for the regular Friends of Sunwood concert series, which begins later this fall at the University's Sunwood estate and faculty guest facility in Old Field.

The Friends of Sunwood are a volunteer organization of community and university residents interested in supporting and preserving the 29-acre Sunwood estate donated to the University by philanthropists Mr. and Mrs. Ward Melville.

Tickets for the benefit concert, at \$10 apiece, are available from the Friends of Sunwood, P.O. Box 53, Setauket, New York 11733, or from the Ticket Office in the Stony Brook Union building.

American-born and raised, Eleanor Steber has sung more "firsts" than anyone else in the history of the Metropolitan Opera. Her credits include starring in such Met first productions as Mozart's *ABDUCTION FROM THE SERAGLIO*, Berg's *WOZZECK*,

Strauss' *ARABELLA*; and in new productions of *THE MARRIAGE OF FIGARO*, *COSI FAN TUTTE*, *THE MAGIC FLUTE*, *DON GIOVANNI*, *OTELLO*, and *LOHENGRIN*. Additionally, she starred in the world premiere of Barber's *VANESSA*.

Miss Steber, who is equally at home on the great opera stages of the world as she is at the Met and at Philharmonic, Carnegie, and Alice Tully halls, has performed at nearly every international music festival and under the batons of such great conductors as Toscanini, Ormandy, Walter, Szell, and Munch.

Throughout her 35-year career, Miss Steber has found time to lecture and teach. She headed the voice department of the Cleveland Institute of Music for ten years, and currently serves on the voice faculty of the Julliard School of Music and the New England Conservatory of Music. This past summer she opened her home, Melodie Hill, Belle Terre, Port Jefferson, for the first time to offer a series of master classes, opera coaching, and vocal teaching to a limited number of young professional singers and teachers from Long Island.

Members of the Board of Governors of the Friends of Sunwood are: Percy L. Bailey, Jr., Lesley Balazs, Audrey C. Booth, Paul J. and Ann-Marie

Dudzick, Eugene A. Garand, Edmee K. Gideonse, Mr. and Mrs. Bentley Glass, Mr. and Mrs. Karl D. Hartzell, Myra Heller, Marjorie Mantius, Petie Palmer, Arthur Perles, Peter Snyder,

Esq., Carol and Joseph H. Sullivan III, John and Deborah Toll, Nancy Weeks; Ed Lambe is President and Charles Kim of Health Science Center is program chairman.

Eleanor Steber, the leading diva of the Metropolitan Opera.

BULLETIN

The new high temperature heat and hot water system (HTHW) will be shut down for two days this week, from 4 p.m. Wednesday, September 25 through 4 p.m. Friday, September 27 affecting several dormitories and six academic buildings.

Scheduled to coincide with the Yom Kippur recess this Thursday, the outage will allow contractors to connect the HTHW pipes to Kelly E so that this dorm will have heat for the winter.

The outage will affect all buildings relying on the new system: Graduate

Chemistry, Physics-Math Complex, Biological Sciences, Library, Humanities, Administration, and Kelly D and E. These buildings will have neither heat nor hot water during this 48 hour period. Langmuir College (JN) in H quad will also be partially affected; it will have heat but no hot water.

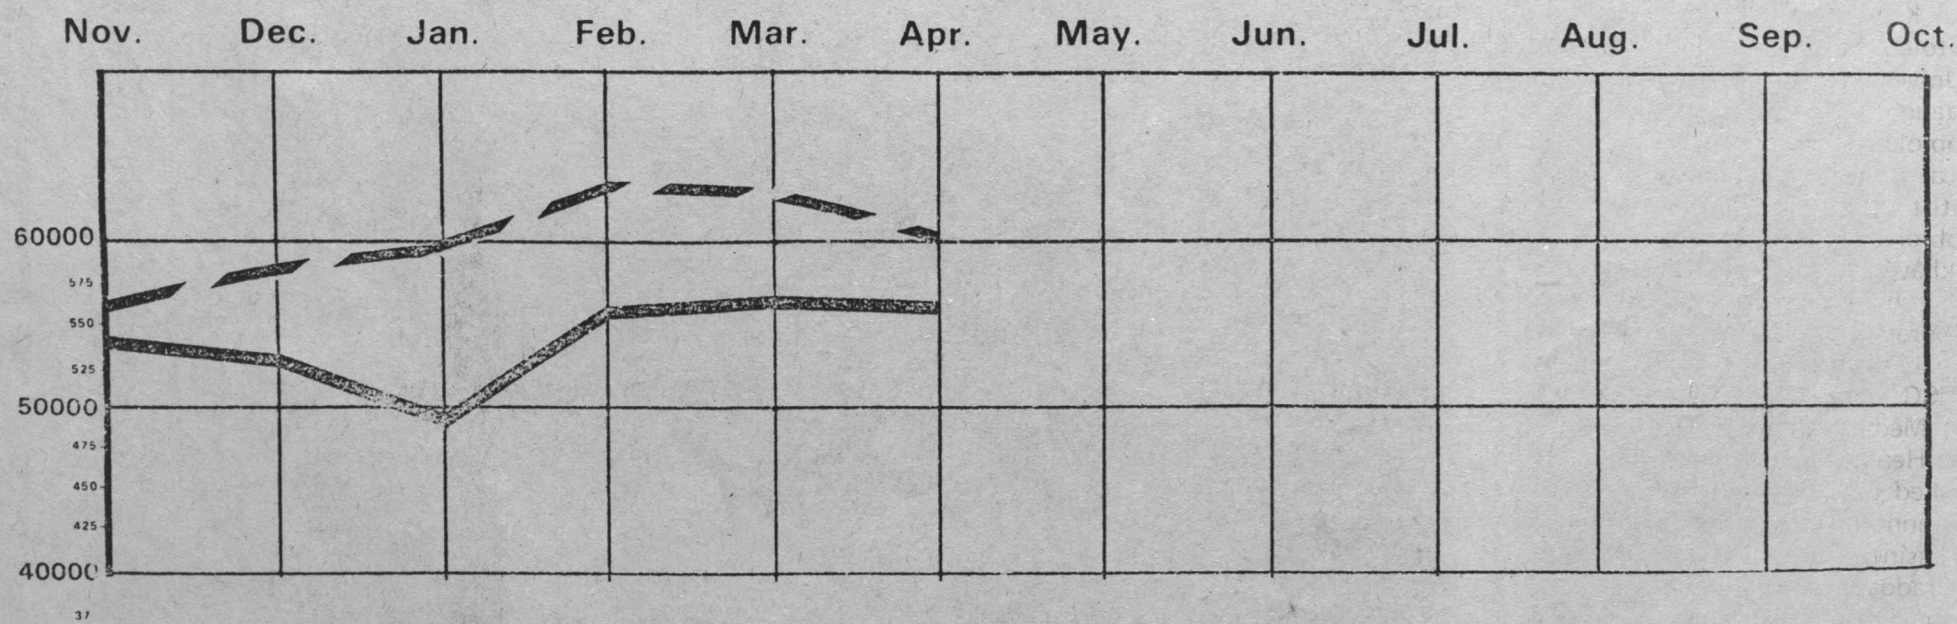

Additional campus buildings will be converted from steam to the HTHW system during the coming weeks. Temporary outages, where necessary, will be scheduled to minimize inconvenience.

ENERGY CONSERVATION; A RECORD OF SUCCESS

Electricity
0000 KWH.

SUNY CONSUMPTION

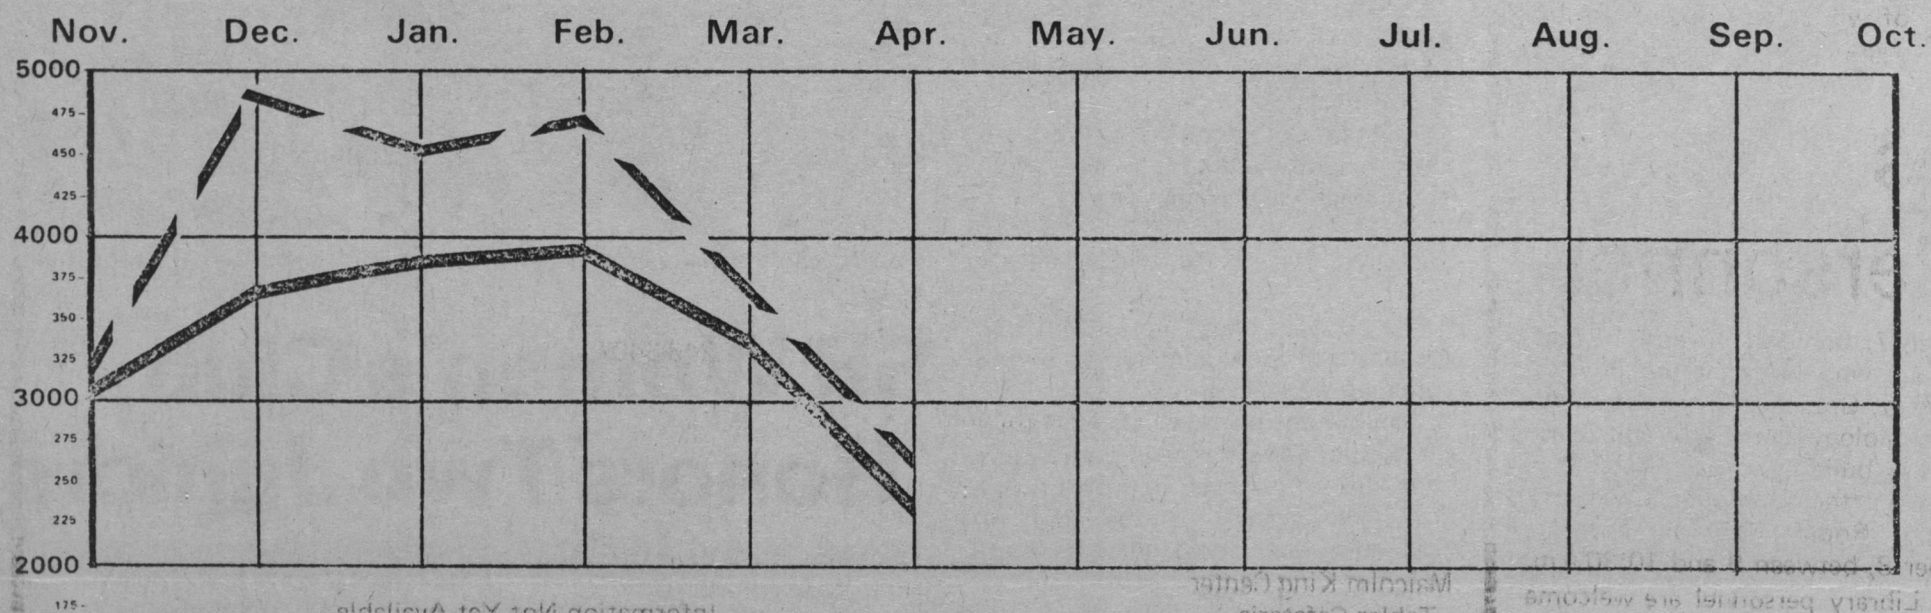

Nov. '72 Thru Oct. '73
Nov. '73 Thru Oct. '74

Fuel Oil
000 GAL.

SUNY CONSUMPTION

Nov. '72 Thru Oct. '73
Nov. '73 Thru Oct. '74

Stony Brook will enter the coming winter with a significant record on energy conservation.

In fulfillment of President John Toll's directive last year that an all out effort be made to reduce campus energy consumption, the University succeeded in reducing electrical energy and fuel oil consumption last winter by 17% and 12% per outside gross square foot of building space, respectively, over the preceding winter.

Stony Brook's achievements were reflected by the SUNY system as a whole, which reduced electrical energy consumption by 7.5% and fuel oil utilization by 16.4% per outside square foot of building space.

Assistant Vice President for Finance and Management Joseph Hamel, who coordinated the University's energy conservation program, attributed the reduction in electrical energy consumption to the removal of fluorescent lights by the custodial staff, the shutting off of building ventilating systems when they were not occupied, and the efforts of individuals to turn off lights when not needed.

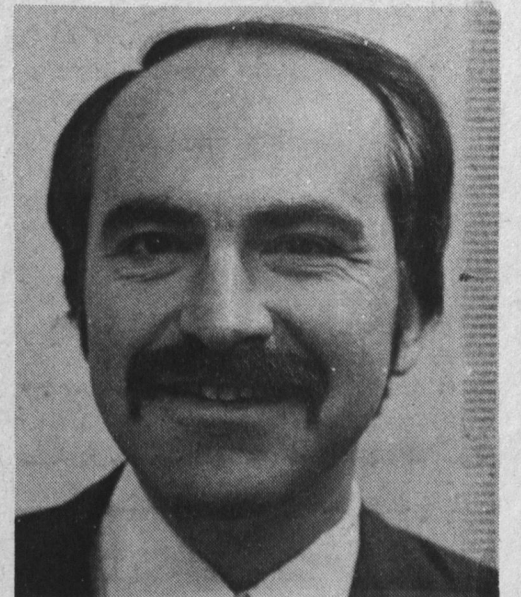

Mr. Hamel said that additional reduction in fuel oil consumption will occur when the installation of the hot water heating system is completed.

The Success of Stony Brook's energy conservation program was cited in a letter from John F. Buckhoff Jr., Assistant Vice Chancellor for Plant Management of the SUNY Central Administration, who commended the University's

"fine efforts" and encouraged it to press for further reductions this year.

In a letter to Governor Malcolm Wilson, outlining the success of its conservation program, SUNY Chancellor Ernest L. Boyer reported on the work of the Office of Campus Development/ State University Construction Fund, which, through participation on the Ad Hoc Committee on Energy Efficiency in Large Buildings, has undertaken several energy conservation studies.

The studies are directed toward the development of facility modification projects that will reduce energy consumption. One reflection of their efforts will be the new University Hospital, which has been redesigned so as to allow for a 10 to 12% reduction in energy consumption.

Assistant Vice President for Finance and Management Joseph Hamel.

Have You Heard?

... And Then There Were Three

Mrs. Dave Woods, wife of the Director of University Relations, gave birth to a "bouncing baby girl" last Friday morning at St. Charles Hospital in Port Jefferson. The child, the Woods' first, has been named Mary Catherine.

Baby Caroline

On June 11, Mrs. John S. Toll gave birth to a daughter, Caroline. This is President and Mrs. Toll's second child. They have another daughter, Dacia, born in 1972.

Heroism on the Highway

Last spring Saul Hochman, a sophomore from Brooklyn, saw an accident on the Belt Parkway. George Quinones was near death and a priest was already administering the last rites. Saul, a member of Stony Brook's Volunteer Ambulance Corps, administered cardiac pulmonary resuscitation and directed bystanders to give artificial respiration. The *Brooklyn Courier* wrote: "The victim may well owe his life to the alertness of his benefactor... The *Courier* congratulates Mr. Hochman for his good deed."

Long Island: A Greener Pasture

At least two of the more than 4000 degree recipients at 1974 Commencement Exercises were American Indians. Carol VanNorman, a full-blooded Lakota (Sioux), earned a bachelor of science degree in social welfare. Omie Brown, a full-blooded Navajo, received a master of social work degree. She is the wife of Dr. Leroy Brown, assistant professor of anatomical sciences. Omie's mother, Rose Baldwin, came to Stony Brook, the farthest she has ever been from her mud-roofed home on the Wide Ruins Reservation in Arizona, for the ceremony. Her reaction to Long Island: "I could graze my sheep here. There's so much green. They wouldn't run off."

Chip Off A Very Old Block

Kevin Bagatta, a youth who lives in Stony Brook, found an odd-looking pitted rock in his yard and brought it to Dr. Robert T. Dodd, Jr., professor of mineralogy. Kevin learned that the rock was 185 million years old. His mother was very appreciative of the informal service provided by the University. "That's what a university is for," she commented.

Long Islanders and Their Self-Image

Dr. Norman Goodman, associate professor of sociology, discussed in *Newsday* the impact of the Nassau Coliseum on Long Islanders: "People out here still think of themselves as New Yorkers, even if they never go there any more. New York still has that magic, some of it negative. I think that will never change. But the Coliseum might affect people's self-image out here. People tend to construct their identity on what others think of them. All over the world, people are hearing about the Nassau Coliseum. Who knows what that will do?"

A Revolutionary change

Dr. Gerald Davison, professor of psychology, was quoted in a syndicated newspaper column. He was commenting on the apparent change in Patty Hearst's outlook since she was kidnapped by the Symbionese Liberation Army: "If there really has been a dramatic change in her personality, in my opinion it could be the result of a form of the Chinese brainwashing techniques used so successfully during the Korean War. The SLA has certainly had literature on brainwashing at their disposal, as anyone would at a public library."

By Ralph Chamberlin

Melville Library Lengthens Schedule

The Frank Melville Jr., Memorial Library has expanded its hours of operation this semester in order to better serve the University Community, Library Director John Brewster Smith has announced.

Mr. Smith said that the new, longer hours reflect the library's commitment to providing the best possible access to its vast resources.

A new security system has also been installed in the Library. Its purpose is to notify patrons when they are borrowing publications without prior authorization and to discourage thefts.

The Library is housed in a new building located on the campus mall. Branch libraries in the Departments of Chemistry, Earth

and Space, Sciences, Mathematics, Physics and Engineering are located in their respective academic buildings and are administered by the central library. Holdings in campus libraries total 700,000 volumes at present and plans call for the addition of new volumes to the collections at the rate of 80,000 volumes each year.

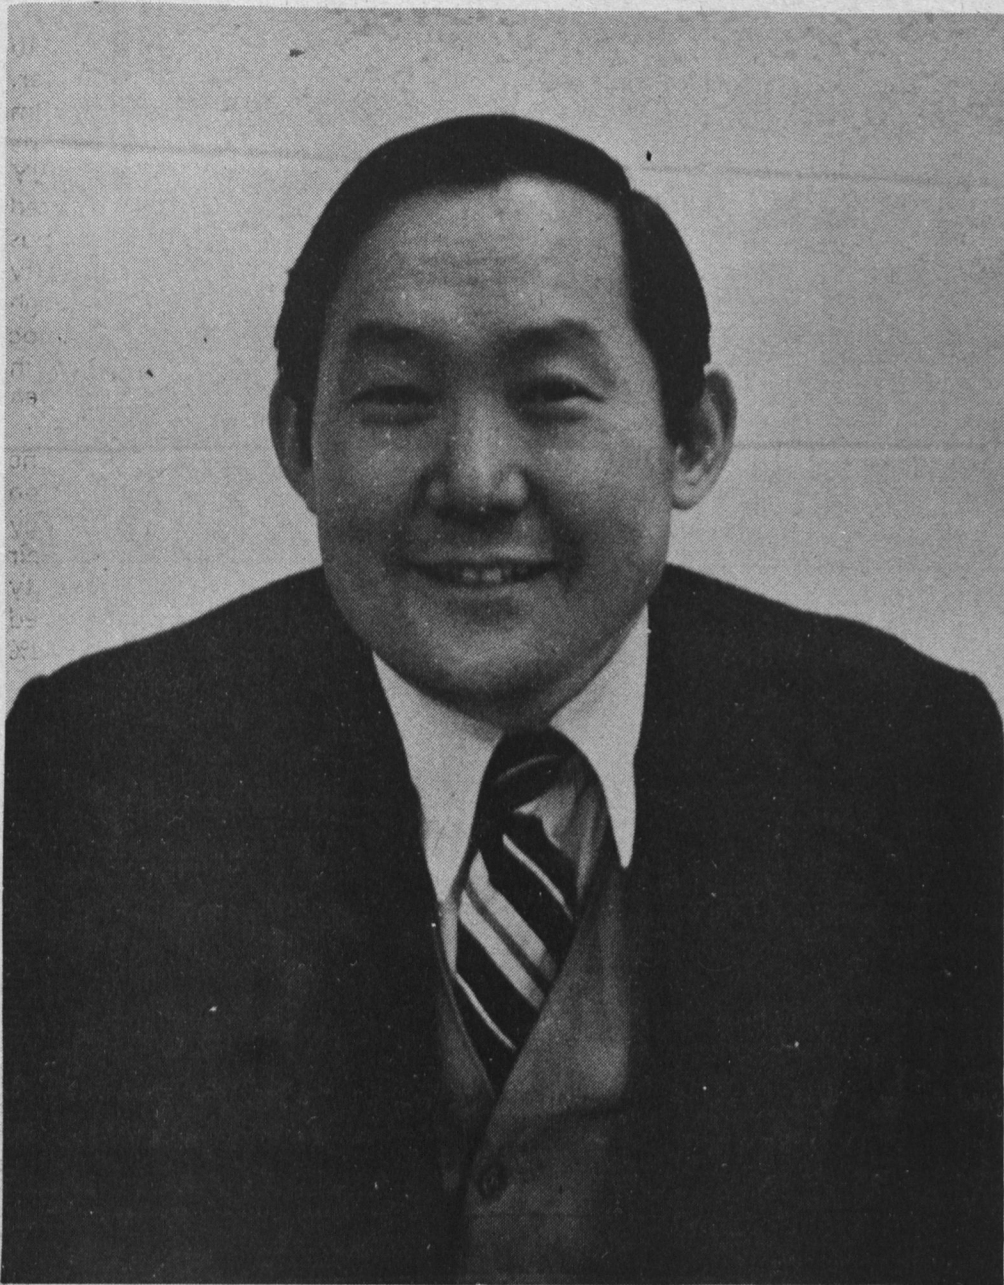

The Library subscribes to 6200 periodical titles. Specialized departments in the Melville Library include the microforms collection and reading room, music library and listening facility, government documents collection and reading room, environmental service and department of special collections.

Associate Graduate Dean Named

By Toni Bosco

Dr. Charles Wesley Kim, who has been appointed Associate Dean for the Graduate School.

The appointment of Dr. Charles Wesley Kim to the post of Associate Dean of the Graduate School has been announced by Dean of the Graduate School Herbert Weisinger.

Dr. Kim, who has held the position of Associate Dean of the School of Basic Health Sciences of the Health Sciences Center since 1972, will replace Jerome Singer.

Dr. Kim holds a doctorate in Parasitology and Microbiology from the University of North Carolina. He has taught in the Department of Microbiology of the New York Medical College; held the position of Scientist in the Division of Microbiology, Medical Department, Brookhaven National Laboratory, where he remains a Research Collaborator, and he has taught as an Associate Professor of Microbiology in the HSC since 1970. He has been a China Medical Board Fellow, a U.S. Public Health Service Fellow, and has published over 50 papers in his field.

In announcing the appointment, Dr. Weisinger said, "Dr. Kim brings to the Graduate School experience as a teacher, researcher, and graduate school administrator. Most important, his appointment will bring the core campus and HSC into closer relationship, and especially on the graduate level."

Dr. Kim will begin his duties in the Graduate School by visiting the chairmen, graduate program directors and faculty of the departments offering graduate work to obtain their points of view with regard to the future of graduate education at Stony Brook.

General Institutional Services Offers Seminar to Personnel

A series of informative seminars intended to familiarize clerical and administrative personnel with the services provided by the General Institutional Services Department will be offered October 7 through the 10th.

The seminars will present information about such topics as the regulations and procedures governing campus mail, how to acquire supplies from Central Stores, and the services offered by the Duplicating and Printing shop.

The sessions will provide an opportunity to better train new personnel and to reacquaint long-time personnel with the changing services offered by GIS.

The General Institutional Services

Department performs many services on campus, among them the operation of the Mail and Messenger Service, the Print Shop, the Typewriter Repair Shop, the Automotive Shop, the Central Receiving Office, and the Bus Service.

Four identical seminar sessions have been scheduled in locations convenient for persons working in different buildings. Personnel are welcome to attend any of the four seminars.

Those who work in the Administration, Instructional Resources Center, Humanities, Physical Plant and the Graduate

Biology buildings are welcome to attend a seminar in the Lecture Center, Room 102 on Monday,

October 7, between 10 and 11 a.m. Personnel who work in the Physics, Chemistry, Graduate Chemistry, Math Tower, Biology, and Earth and Space Sciences buildings may attend a lecture in the Graduate Chemistry building, Room 121, on Tuesday, October 8, between 9 and 10:30 a.m.

All Library personnel are welcome to attend a seminar in the Library, room E0326, on Wednesday, October 9, between 1:30 and 3:00 p.m. Personnel who work in the buildings adjacent to the Engineering Quad may attend a seminar in the Old Engineering building, room E 145, on Thursday, October 10, between 10 and 11:30 a.m.

For further information please contact Assistant Director of GIS, James Mulvey, at 246-3308.

Top Basketball Prospects Recruited

Stony Brook head coach Ron Bash has announced that several top-flight basketball prospects have chosen Stony Brook to further their education and are now attending classes.

In the short time since he was appointed to his new position, Coach Bash has actively recruited over 30 prospects on the Stony Brook campus.

"October 15, the first day of basketball practice, should prove to be a quite interesting session as the returning players from last year's (12-10) squad battle to maintain their positions and the new recruits seek to show their talents. Overall depth would seem to be the Patriots major strength this season," said Coach Bash. "Provided that we have the personnel to play this type of basketball, my preseason philosophy is to run the fast break and play full-court pressure defense the entire game."

The following incoming student-athletes are listed with their respective points per game and rebounds per game averages for last year in parenthesis.

Kevin Allen, 6'3", 180, Manhattan Vocational H.S. (N.Y.) (10 points - 15 rebounds)

Earl Davis, 6'5", 190, Thomas Jefferson H.S. (Brooklyn) High School All-American (29 points - 14 rebounds)

Mike Hawkins, 6'0", 170, N.Y. City Comm. College (15 points - 5 rebounds)

Earl Keith, 6'5", 185, Long Island City H.S. - St. Paul's Prep All-City (second team) (23 points - 13 rebounds)

Ray Malone, 6'2", 170, Manhattan Comm. College (N.Y.)

Basketball. All-Metropolitan (Honorable Mention) (12 points - 11 rebounds)

Kenny Middleton, 6'1", 180, Kingsborough Comm. College (N.Y.) All-Metropolitan (first team) Regional-All-Star (22 points - 11 rebounds)

Russell Mobley, 6'3", 175, George Westinghouse H.S. (Brooklyn) (16 points - 11 rebounds)

Gerald Parker, 6'7", 210, Corning Comm. College (N.Y.) (17 points - 23 rebounds)

Joel Ransom, 6'7", 205, Gaston Junior College (N. Carolina) All-Regional (Honorable Mention) (16 points - 13 rebounds)

Thurman Ransom, 6'0", 170, Automotive H.S. (Brooklyn) 15 points - 5 rebounds

Larry Tilzer, 6'5", 200, Evanders Childs H.S. (Bronx) (14 points - 11 rebounds)

George White, 5'8", 140, Springfield Gardens H.S. (Queens) (10 points - 3 rebounds)

James Wilson, 6'3", 180, Rockwoods Academy (Lenox, Massachusetts) M.V.P. All-Prep (26 points - 15 rebounds)

The 1974-75 schedule is highlighted by the Long Island Rotary Tournament to be held at the Stony Brook campus December 2-5; and the Patriots will also represent the U.S., along with powerful Northeastern University, against hosts, Dalhousie University and Acadia University in the Acadia Invitational Tournament January 5 and 6.

Soccer Squad Set

With the toughest schedule in its history, the Patriot Soccer Squad is readying itself for a challenging season.

"We have 14 games and of the 14 we have at least seven bruisers," varsity soccer coach John Ramsey said. "If we can win the easier seven and pull two or three out of the others, than we'll be doing something. There is not a softie on our whole schedule."

Ramsey hopes that the experience he gained while on sabbatical in England last semester will help the team this year. "It was a tremendous learning experience," he said. "I would say that the leave would be equivalent to five years of coaching experience. I'm looking forward to

implementing many of the things learned there at Stony Brook."

Ramsey has to work with a team that will feature no seniors, six juniors, 12 sophomores and only one freshman. "I don't think our young age is going to hurt," said Ramsey, "because the sophomores played last year and are experienced players. They were sort of baptized under fire. After getting that much experience last year the team should be at peak performance."

The backbone of the team will be Captain Walter Mayer, a defenseman; Halit Uyger, playing sweeper; Ozzie Trigo at midfield and Scott Walsch, also playing midfield. "Our fitness development timetable is right on schedule and we're not right in midseason form," said Ramsey.

Campus Day Care Centers

Toscanini Infant Center Toscanini College Parent-controlled program for children under 2½ Contact Elaine Fruchter or Ann Rice	246-7150	No openings M-F, 8-5:30
Early Childhood Education Center Point of Woods Program affiliated with Department of Education for children ages 3-5 Contact David Lichtenstein	246-3375 or 751-9811	No openings M-F, 7:30-5:30
Stony Brook Day Care Center Benedict College Parent-controlled program for children ages 2½-5½ Contact Tim Stezenson	246-8407	No openings M-F, 7:45-5:30
Malcolm King Center Tabler Cafeteria Academic program stressing black culture for children ages 3-5	Information Not Yet Available	

Parents may place their names on waiting lists at the Toscanini, Early Childhood, Stony Brook centers. Representatives for all three centers said that openings for new children may become available during the course of the school year.

Fulbright Applications Due

Students wishing to enter the 1975-76 competition for Fulbright graduate study scholarships must fill an application by October 15.

The grants are awarded to students who wish to pursue graduate study or research abroad and for professional training in the creative and performing arts. It is expected that approximately 570 awards to 50 countries will be available for 1975-1976.

The purpose of these grants is to increase mutual understanding between the people of the United States and other countries through the exchange of persons, knowledge and skills. They are provided under the terms of the Mutual Educational and Cultural Exchange Act of 1961 (Fulbright-Hays Act) and by foreign governments, universities and private donors.

Applicants must be U.S. citizens at the time of application, who will

generally hold a Bachelor's degree or its equivalent before the beginning date of the grant and, in most cases, will be proficient in the language of the host country. Except for certain specific awards, candidates may not hold the Ph.D. at the time of application.

Creative and performing artists are not required to have a Bachelor's degree, but they must have four years of professional study or equivalent experience. Social work applicants must have at least two years of professional experience after the Master of Social Work degree; candidates in medicine must have an M.D. at the time of application.

Selection is based on the academic and/or professional record of the applicant, the validity and feasibility of his proposed study plan, his language preparation and personal qualifications. Preference is given to

candidates between 20 and 35 years of age who have not had prior opportunity for extended study or residence abroad.

Information and application forms may be obtained from Professor Martin B. Travis, Fulbright Program Adviser. He is located in Social Science B, Room 422 and has office hours on Tuesday and Thursday from 1 to 3 p.m.

Students interested in additional information regarding the program are also invited to see other members of the Stony Brook Fulbright Committee: Edward Fiess, Dept. of English; Ferdinand A. Ruplin, Germanic & Slavic Languages; Gilbert Hanson, Earth & Space Sciences; Lawrence P. DeBoer, Director of International Education, and Robert Levine, Dept. of History.

Food Co-op

Freedom Foods Co-op will be open Monday, Tuesday, and Thursday from 4 p.m. to 9 p.m. to all members and prospective members. The Co-op is located in the Stage XII Cafeteria and all are welcome. Please bring your own containers and bags for food.

Other Side

The Other Side Coffeehouse, located in the basement of Mount College, is now open 9:30 p.m. to 1:30 a.m. on weeknights and 9:30 p.m.-2:30 a.m. on weekends. The Other Side still needs performers. Contact Dan at 6-7388.

Irv's

Irv's Place, the Langmuir College Coffeehouse, is open seven days a week between 5 p.m.-2 a.m. Soda, coffee, bakery goods served.

Unless Otherwise Noted, All Events Are Free and Everyone Is Welcome To Attend.
