

STONY BROOK

H A P P E N I N G S

Volume 1, No. 4 • News for and about the University at Stony Brook campus community • April 26, 1995

In Brief

Starry Nights

This year is the twentieth anniversary of the monthly series known as Astronomy Open Night, presented by the Department of Earth and Space Sciences for the campus and community.

To mark this milestone, the faculty of the astronomy program will present a special Open Night on Friday, May 5, at 7:30 p.m. in the Earth and Space Sciences Building, Room 001. Professor Deane Peterson, host of the series for the past few years, along with other members of the faculty, will review the notable changes in their areas of specialization and in astronomy in general.

After the lecture, visitors will be invited to tour the astronomical laboratories and facilities. And, weather permitting, the telescope on the roof will be available for sky watching.

Over the past two decades, lectures in this series have covered a wide range of topics in contemporary science, including the discoveries to come out of solar system exploration and the evolving changes in our view of the Universe.

Come and hear first-hand accounts of the latest research by the scientists involved. Astronomy Open Nights are free and all are welcome. For information, call 632-8200.

La Poesia é Viva!

The eleventh annual Italian Poetry Contest for Secondary School Students attracted the largest number of participants ever. Sponsored by the Long Island Chapter of the American Association of Teachers of Italian, in collaboration with the University's Center for Italian Studies and the Center for Excellence and Innovation in Education, the competition included 173 students from 20 different Italian language programs at junior and senior high schools throughout Long Island.

Students competed in the recitation of Italian poetry on five levels. In addition, original poems by 52 students were judged, and prizes were awarded.

Chinese Brush Painting

Long Island artist Grace Lee will exhibit her watercolor paintings at the Stony Brook Union Art Gallery now through Saturday, May 13.

An artist's reception will be held on Saturday, April 29, 1-4 p.m., in the gallery. At that time, undergraduate mechanical engineering major Gavin E. Appel of Port Jefferson will be given the first Richard S. Lee Endowment Award for his outstanding academic performance. This award was created by Ms. Lee and friends as a memorial to her husband, a professor of mechanical engineering at the University from 1964-1993.

Ms. Lee received her Bachelor of Fine Arts degree from Stony Brook in 1975. She studied traditional Chinese painting in Taiwan, where she and Dr. Lee spent a sabbatical. Her style combines Western and Eastern elements in its eloquent depiction of landscapes and natural objects.

Gallery hours are noon-4 p.m. weekdays, and 1-4 p.m. on Saturdays.

Inauguration of Stony Brook's Fourth President Everybody's Invited!

THE BOARD OF TRUSTEES, FACULTY,
STAFF, AND STUDENTS OF THE
STATE UNIVERSITY OF NEW YORK
AT STONY BROOK

REQUEST THE HONOR OF YOUR PRESENCE AT
THE INAUGURATION OF

SHIRLEY STRUM KENNY

AS THE FOURTH PRESIDENT
OF THE UNIVERSITY

FRIDAY, THE TWENTY EIGHTH OF APRIL
NINETEEN HUNDRED AND NINETY FIVE
ELEVEN O'CLOCK IN THE MORNING

INDOOR SPORTS COMPLEX ARENA
STATE UNIVERSITY OF NEW YORK AT STONY BROOK

RECEPTION IMMEDIATELY FOLLOWING THE
INAUGURAL CEREMONY ON THE PHYSICS GREEN

IF YOU REQUIRE
A DISABILITY-RELATED
ACCOMMODATION
PLEASE CALL (516) 632-6300

Campus and community will come together to celebrate the inauguration of Shirley Strum Kenny as fourth president of the University at Stony Brook on Friday, April 28. The formal ceremony caps a week of festivities: music, marching bands, pageantry, dancing, juggling, flowers, feasting and fireworks.

Taking Admissions into the 21st Century

By Vicky Penner Katz and Gila Reinstein

What's seven-feet-tall, beeps, plays music and videos that take you inside Stony Brook's residence halls and classrooms, and lists all the majors and minors available to undergraduates?

It's Dr. Kiosk, the University's interactive multimedia viewbook and the first in a series of units that will carry Stony Brook's message around campus, across Long Island Sound and into the heart of New York City. Dr. K. stands just outside the Admissions Office on the first floor of the Administration Building, and from 8:30 a.m. to 5 p.m., s/he's ready for (inter)action.

At the touch of the screen, users can see and hear messages from University President Shirley Strum Kenny, and County Executives Robert Gaffney and Thomas Gulotta. They can tour the campus, learn how to apply for admission, get

financial aid information, see students working in a laboratory and relaxing in their rooms. The history of the University and its surroundings are available, and so is INFO Long Island's guide to dining, recreation and other attractions. Originally created for hotel guests, this part of the display takes you down a waterslide at Splish Splash, walks you through Old Westbury Gardens, provides menus of local restaurants, and generally gives you a sense of how much Long Island has to offer.

While high school senior Ankush Rai (of Old Bridge, NJ) was being interviewed in the Admissions Office, his mother sought information on transportation and housing from the kiosk. When the video tour of the residence halls began, she smiled and said, "This is what I want to know."

Continued on page 2

Maxine Hicks

Dean of Enrollment Planning Theresa LaRocca-Meyer assists, as Fred Preston, vice president for Student Affairs, snips Dr. Kiosk's ribbon.

Taking Admissions into the 21st Century

Continued from page 1

"We are trying to present the University to prospective students in as many ways as possible," says Theresa

CLASSIFIEDS

Houses for Sale

Shoreham. 4 bedroom, 2 1/2 bath, colonial, diamond condition. Dignified, oversized construction includes 2 1/2 car garage, fireplace w/8 foot wide raised hearth, 22-foot living room, 24 foot deck, country kitchen. Oak floors, Beckett burner. Shoreham-Wading River Schools. Low taxes: \$3,600. \$179,000 444-3917(W) 744-8782(H)

Stony Brook. N25A. Private beach community. Spacious 3 bedroom brick ranch on 1+ acres. EIK, Lvg/Fpl, D/R, Garage. Finished basement w/separate entrance. \$239,000. Sat/Sunb by Appt. Owner: 689-6805.

Internship/Off Campus

Intern needed to assist in gathering and summarizing information regarding technologies for consideration in new product/business development projects. Must possess demonstrated proficiency in the following areas: ability to navigate the electronic information systems of Federal agencies such as DOE, EPA, DOC; experience w/all Internet functions (goopher, ftpo, www, telnet); experience w/Dialog information systems search procedures; ability to locate and collect information from diverse electronic and hardcopy sources; strong writing skills; undergraduate courses in chemistry, biology or physics. Desirable, but not required: familiarity with IBM PC's and Windows, previous experience with WordPerfect or Amipro for Windows. Salary: \$9/hour. Send resumes to: Warren Wartell, FSA Student Staffing Resources, Room 282, Stony Brook Union, Zip-3209. Fax: 632-6573. ALLIN1: WWartell

To place a classified ad, call Pam Crum at 632-6513. Ads also appear on SBNews.

April 26, 1995 Volume 1, Number 4

Stony Brook Happenings is published biweekly during the academic year by the Office of University News Services, 144 Administration, University at Stony Brook, Stony Brook, NY 11794-0605. Phone: 516-632-9116. Fax: 516-632-6313. Internet: greinstein@ccmail.sunysb.edu or Allin1 to greinstein. Reprint permission on request. © 1995.

Editor: Gila Reinstein.

Editorial Staff: Vicky Katz, Joyce Masterson, Carole Volkman.

Design: Kim Anderson

The Office of University News Services also produces *Electric Currents*, a daily listing of notices and events on the SBNEWS computer bulletin board, and Stony Brook Newswire, accessible by telephone at 516-632-NEWS.

The University at Stony Brook is an affirmative action/equal opportunity educator and employer.

This publication is available in alternative format on request.

LaRocca-Meyer, assistant vice president for student affairs and dean of enrollment planning and management. "This is a user-friendly, high-tech form of advertising, of communicating our message. Both our current and future students are accustomed to computer technology and comfortable with it. The kiosk is fun, too."

Because not everyone can meet Dr. K. face to face, plans are in the works to convert the sounds and images to a more portable form, according to LaRocca-Meyer. "Eventually we hope to supply this same information via CD-Rom to high schools and individual applicants."

Clones of Dr. Kiosk, prominently displaying Stony Brook's name and logo, have begun to appear off campus, beginning with the Orient Point-New London ferries. Penn Station and the Bridgeport-Port Jefferson ferries will be next. According to Joyce Smith, associate executive director of the National Association of College Admissions Counselors, placing such kiosks in public locations is a first in the country.

Over a year in production and created with corporate support from Chemical

Bank, P.C. Richards and internal funding, the system was designed by INFO Long Island, a multimedia company housed in the Long Island High Technology Incubator on the Stony Brook campus. Research and development of the prototype cost approximately \$70,000; duplicates of Dr. K. cost under \$10,000 each.

The kiosks were manufactured on Long Island by Bay Shore Forecast Consoles Inc. Software was provided by Gambit Interactive of Pittsburgh, Pa. University information will be updated on campus, as necessary. Gambit will continue to upgrade the software, and every six months, INFO Long Island will send new information to the kiosk - electronically, of course.

Sitting at the reception desk in the Admissions Office, Edwina Osmanski can hear the music and narration that come from the kiosk. From her vantage point, Dr. K. seems to be in pretty constant use. "Everyone is impressed with it. They come in and ask for pencil and paper, to take notes from it. It's informative, easy to use, and encourages people to ask more questions."

Community Health Care, and the Price is Right

By Ellen Barohn

Shots for Tots: On Saturday, April 29, the Children's Medical Center at Stony Brook will be one of several sites in Suffolk County to host Shots for Tots, a comprehensive campaign to immunize children under two years of age against common childhood diseases. It is a joint program of the New York State and Suffolk County Departments of Health and the Rotary Clubs of Suffolk County (Rotary International District 7260). Free immunizations will be given 9 a.m. to noon in the Children's Medical Center, Level 5 of the hospital. Parents are asked to bring their children's immunization records with them. For more information, please call 444-7861.

Skin Cancer: Free screenings for the detection of melanoma and other types of skin cancer will be held on Saturday, May 13, at University Medical Center's Tech Park. Sponsored by the American

Academy of Dermatology, the American Cancer Society and University Medical Center, the screenings are for people who have a lesion on their skin that will not go away, a mole that is changing or who believe they are at risk for developing skin cancer. The program runs from 10 a.m. to 4 p.m. at 181 Belle Meade Road, East Setauket. Appointments will be made, Monday to Friday, 9 a.m. to 4:30 p.m. on a first-come, first-served basis. For more information, please call the American Cancer Society at 436-7070, ext. 1331.

Anxiety Disorders: Sleeplessness, excessive nervousness, fears that will not go away...all of these may be indicators of an anxiety disorder, the nation's most common mental health problem. University Medical Center will offer adults free, confidential screenings for anxiety disorders, on Wednesday, May 3, from 9 a.m. to 4 p.m. as part of National Anxiety Disorders Screening Day. These disorders are characterized by fear and

Safety Alert

By Richard Young,
Director of Campus Public Safety

In the past several weeks, two explosive devices were detonated at Rutgers University. Both were pipe bombs planted in the library. Neither explosion caused any injury and produced little damage. Here at Stony Brook, we had a device explode near an elevator in the Humanities Building. This device was caused by a reaction to unknown chemical(s) placed in a plastic soda bottle. The device produced a loud bang but caused no injury or physical damage.

The devastating bombing in Oklahoma City last week further underscores how vulnerable we are to these senseless acts. Furthermore, we should be aware that the individual known as the "UNABOM" bomber continues to be active. While we should not let these acts prevent us from conducting our normal business, we should be aware of our surroundings and be extremely cautious of any suspicious packages.

Remember, the physical appearance of an explosive device is limited only by the imagination of the bomb maker.

When handling any suspicious package/letter, do not press contents together to feel what is inside or shake it. Should a letter/package possess one or more of the points described below, gently place it down on the desk or floor, evacuate the immediate area and call University Police at 333.

Watch out for the following:

- Letter feels rigid, appears uneven, lopsided or bulkier than normal.
- Oil stains are present on the wrapper.
- Excessive amount of postage is used.
- Sender is not identified.
- No return address provided.
- Envelope bears unusual restrictions, such as "personal" or "private."
- Addressee normally does not receive personal mail at the office.
- Name and title of the addressee are not accurate.
- Address is prepared to ensure anonymity of the sender through homemade labels, cut-and-paste lettering, etc.
- Mail emits a peculiar odor.
- Mail appears to be disassembled and/or reglued.
- Handwriting appears distorted or foreign.
- Probing wires, foil or string appear to be present.
- Package is secured excessively with masking tape, string, etc.

anxiety that appear for no apparent reason and that may dramatically reduce or eliminate a person's ability to function. Common symptoms include nervousness, obsessions or compulsions, excessive worry, racing heart, problems with concentration and sleeplessness. At the screening, people will be tested for anxiety disorders and have the opportunity to talk to a mental health professional and receive information. For more information, please call 444-2570.

Spotlight On...David Grillo, Joseph Solfaro, Pedro Rivera

Permanent Pride Patrollers

By Gila Reinstein

"**D**ave Grillo is absolutely fantastic," says Ann Forkin, director of Conferences and Special Events. She's counting on Grillo, supervisor of grounds for West Campus Physical Plant's Academic Core, to help make Pride Patrol - on April 27 - a huge success. In fact, she counts on him for all kinds of projects from Opening Week in September to Commencement in May - and on through Summer Session and sports camps.

Inaugural Week, April 24-28, will be one of the highlights of 1995 for Grillo, his men, and the entire campus community.

Grillo is the hands-on supervisor of a team of 13 men who handle snow removal, lawn mowing, road and parking lot repair, tree trimming, and every outdoor trash basket on West Campus (excluding the residence hall areas). Only eight of the men actually heft shovels and dump trash: the remaining five operate heavy equipment.

When a plumber or electrician needs underground access, these are the men who dig the hole and fill it in afterward. They tend all campus entrances, bus stops, Sunwood and Shorewood properties, the Atwood Cottage, and Flax Pond.

As they make their rounds, Grillo and his men are always on the lookout for ways to improve the campus. "We take it upon ourselves to make the campus more welcoming," says Grillo. Recently they widened a dark, narrow footpath through a wooded area to make it safer for pedestrians, without spoiling the natural setting. In season, they bed out flowers to give Stony Brook a more inviting appearance.

"We continually do things on our own," says Joseph Solfaro, one of two senior groundsman. "We know why we're here: we're here for the students. They are our business."

Most of the materials used for beautification projects are recycled from elsewhere on campus: discarded bricks and rails become walls and fences. A stand of birch trees is moved from deep in the woods to a spot where everyone can see it;

boulders are dragged from obscure spots to positions where they serve decorative and security functions. "These improvements don't cost the state anything," says Solfaro.

They speak of their boss, Vice President for Campus Services Harry Snorek, with affection and respect. "He wants his people to take pride in what they do. He knows what's going on. He's hands on," notes Solfaro. Grillo adds, "Harry is down to earth."

Dr. Snorek returns the compliment. "Those guys are good, and they work hard. There are only 24 people - including the mechanics - who take care of all the roads and grounds," and despite ever-tightening budgets, "There has been an amazing transformation over the past three years. It's not so much because of external direction, but Dave, Joe and Pedro's deciding they know what looks good."

Grillo has been with Stony Brook since 1972, starting as a motor vehicle operator and working his way through the ranks to senior groundsman, Grade 9, and now, supervisor, Grade 12. He and his wife, Doris, have two sons, one a contractor/carpenter, the other in autobody repair. In his spare time, Grillo and his sons built a vacation home in the Catskills.

Solfaro came to work at Stony Brook in 1970, starting in the print shop. He enjoyed the work and the people, but, feeling he'd be happier outdoors, he joined the grounds crew 21 years ago. He has taken courses over the years and is close to earning the associate's degree: "I believe in education," he says. "It's the foundation of our society. My intention is to continue to educate myself." In addition to learning, he enjoys art

Maxine Hicks

IN ACTION: Dave Grillo, Pedro Rivera, Joe Solfaro and Pedro Cepeda lay drainage pipe for a road project.

and architecture, reading, bike riding, camping, and tinkering with cars. His current project is a jeep.

A native of Puerto Rico, Rivera joined the University 12 years ago. He has risen through the ranks to become a senior groundsman, in charge of a crew.

Alan Ryder, manager of roads and grounds and former associate facilities program coordinator for the HSC physical plant, says, "Rivera uses his own initiative. He does his job very well. He's good with tools and he's thorough."

When not at work, Rivera plays softball and goes fishing. His wife, Milagros, works on campus, too, in the West Campus Heating Plant. They have grown children and live in Selden.

Associate Director of West Campus Physical Plant Joel Newton notes, "Pedro has a very positive attitude. He's a real 'can-do' kind of person. All three of the team members do a great deal for the campus."

And Forkin adds, "I'm proud to be part of the same institution that has men like these working for it."

PEOPLE

Health and fitness guru **Dr. Steven Jonas**, professor of preventive medicine, has turned out another new book: *Regular Exercise: A Handbook for Clinical Practice*. The guide advises health professionals what to tell their patients who want to start a regular program of exercise. Dr. Jonas has written extensively on the subject, both for the general public and academia. His other works include *Taking Control of Your Weight* (1993) and *Pacewalking: The Balanced Way to Aerobic Health* (1988). An associate editor of the journal, *Preventive Medicine*, his *Introduction to the U.S. Health Care System* is in its third edition as is another professional tome he edited and co-authored: *Health Care Delivery in the United States*.

Mel Pekarsky, professor of art, is exhibiting works on paper done over the past 30 years at the G.W. Einstein Gallery, 591 Broadway in Soho, now through May 26. Prints by Pekarsky from the same period, including serigraphs, drypoint engravings and lithographs, are on view in the Projects Room of the gallery. This exhibition tracks Pekarsky's continuing and complex exploration of the desert landscape.

Pekarsky's sketchbook, containing over 100 drawings done in the 1980s, was recently bought by the Fogg Museum of Harvard University.

Charles Wurster, professor of marine sciences and founding trustee of the Environmental Defense Fund, was honored at a symposium on April 25 on campus. Leading environmental scientists from around the country presented lectures, and former Environmental Protection Agency chief, William D. Ruckelshaus, gave a keynote address. Dr. Wurster was a pioneer in public interest science and an influential leader in creating public awareness of ecological issues. His research led to the banning of the pesticide, DDT, in 1972, bringing the osprey and bald eagle back from virtual extinction. During his 30 years at Stony Brook, he developed significant (and highly popular) courses that explored environmental problems and solutions.

The EDF was founded in the late 1960s. It has grown to be one of the most important environmental advocacy groups in the United States, representing 250,000 members.

Six first-year graduate students at Stony Brook have been awarded National Science Foundation fellowships or honorable mentions for 1995, and an additional four incoming graduate students have been similarly honored.

The Graduate Fellowship Award recipients are **Jeffrey M. Marcus** (genetics), **Robin Bethann Meyer** (anthropology) and **Jeff Alan Viaclovsky** (mathematics). **Denne Reed** (anthropology) has been awarded a Graduate Minority Fellowship. Honorable mentions go to **Jennifer Marie Callans** (anthropology), **Dennis Wade Gray** (ecology and evolution), **Gabriel J. Kra** (marine sciences), **Kelly Marie McNeese** (anthropology), **Eric David Sharkey** (physics), and **Jose Alejandro Rodriguez** (molecular biology and biochemistry).

Two students from the Department of Music have received the first Thomas Jefferson Scholarship Award, a local prize established in 1984 by an anonymous donor to honor performers who are bright, talented, hard working, financially hard-pressed, and who give indications of being responsible citizens as well as outstanding musicians. The winners are both cellists and graduates of the Eastman School of Music: **Heidi Hoffman** and **Gregory Hesselink**.

Hoffman earned the bachelor's degree in 1989, the master's from Stony Brook in 1991, and completed the DMA here in December, 1994. Hesselink earned the bachelor's degree in 1990, the Master's of Music from Stony Brook in 1992, and is currently in the doctoral program here. He performs with the New Millennium Ensemble, which recently won a 1995 Naumberg Award.

The Naumberg Chamber Music Award is the most prestigious national award there is for chamber music, and it carries with it a debut concert in Alice Tully Hall in New York City. Five of the six members of the New Millennium Ensemble are recent Stony Brook graduates: **Hesselink**, **Tara O'Connor**, **Marianne Gythfeldt**, **Margaret Kampmeier**, and **John Ferrari**, all holders of the Doctor of Musical Arts degree from Stony Brook. The group was founded while its members were studying at Stony Brook.

SEAWOLVES CORNER

Rising Stars

Softball is on its way to Division II. Having already surpassed last season's win total - with 16 games remaining on their schedule, the Seawolves have improved tremendously since last year and are eager to join the powerful and prestigious NECC Conference in 1996.

First-year head coach Teri McNulty has created a nucleus of young players. The inexperienced Seawolves have only four upperclassmen on the team, but the youthful squad is full of potential.

"Our goal for the season is to improve upon the last two years and get ready for what is ahead next year," says McNulty.

"One thing I like about the players on this team is their versatility," said McNulty. "I have been able to experiment with different players at various positions to try and field the best team possible."

An emerging star for the Seawolves has been freshman sensation, Lisa Repper, who was named Stony Brook Athlete of the Week on April 10. She batted .480 (12-25), including four doubles and three home runs, helping Stony Brook win four of seven contests for the week.

"Lisa is one of our team leaders," says McNulty. "She's a multidimensional player who can play both the infield and the outfield, plus she's a superb hitter. She should be a star for the next four years."

The Seawolves have also counted heavily on their lone senior, Aimee Brunelle. Brunelle has been on the mound for four of the team's five victories and been one of the Seawolves' top hitters.

"Aimee has helped turn this program around. We're going to miss her next year," says McNulty.

As the team enters the second half of the season, McNulty says, "I'm optimistic. Our team is becoming more confident each game out, and everyone is pushing one another to play well. This is the attitude a team needs in order to be successful."

COMING ATTRACTIONS

Highlights

President Shirley Strum Kenny

THURSDAY, APRIL 27

8th Annual Pride Patrol. 9-11:30 a.m.; 12:45-3:15 p.m.; ice cream social, 3:15 p.m. (Indoor Sports Complex). To sign up, call 632-6320.

Plant Sale. 10 a.m.-3 p.m. Lobby, SBUnion.

FSA Flea Market. 10 a.m.-5 p.m. SB Union Bi-level.

Biotechnology Expo '95. 11 a.m.-3 p.m. Biotechnology, pharmaceutical, equipment and supply companies exhibit their products and technologies. Third Floor Gallery, Health Sciences Center. Free. Call 632-8521.

Thursdays at Noon Series. Ursula Appelt, English. The Poetry Center, Room 239, Humanities. Free. Call 632-7332.

Panel Discussion/Videoconference, "Valuing Our Campus Community: Different, Diverse, Dynamic: Understanding Classroom Culture." Panel: USB administrators and faculty. Noon-4 p.m. Room 105, Javits Lecture Center. To register, call the Office of Affirmative Action, 632-6280.

Seawolves Baseball vs. Mercy. 3:30 p.m.

Biengineering Symposium Series, "Medical Informatics," Daniel Atkins, University of Michigan. 4 p.m. (Cosponsored by the Center for Biotechnology, College of Engineering and Applied Sciences, School of Medicine.) Level 3, Lecture Hall 6, HSC. Call 632-8521.

Undergraduate Colloquium Series: Exploring Research Frontiers, "The Coldest Temperature in the Universe," Dr. Harold Metcalf, professor, physics. 4 p.m. Room S-240, Physics. Call 632-7080.

Mentor Program Reception. 4-5:30 p.m. SB Union Ballroom. By special invitation.

Black Womyn's Weekend Fashion Show & Party. Fashion Show: 6-10 p.m., SBUnion Auditorium; Party: 10 p.m.-1 a.m., SBUnion Ballroom. Call 632-6828.

Chamber Music Spring Festival. 8 p.m. Recital Hall, Staller Center. Free. Call 632-7230.

Department of Theatre Arts, An Evening of One-Act Plays. Directed by students. (Through Sunday, April 30.) Thursday-Saturday, 8 p.m.; Sunday, 2 p.m. Theatre I, Staller Center. \$8; \$6/students & staff. Call the Box Office, 632-7230.

Spirit of a New Beginning. 9 p.m. Grucci fireworks (special event: launching of Stony Brook's star-studded logo), entertainment and more. Athletic Stadium.

A Night Under the Stars - Wild Video Dance Party. 10 p.m. Fine Arts Plaza (rain location: Pritchard Gym). Free refreshments, giveaways. For information, call 632-6470.

FRIDAY, APRIL 28

Center for Italian Studies Symposium, "The Literary Journal as a Cultural Witness; 1943-1993, 50 Years of Italian & Italian American Journals." 9 a.m.-5 p.m. Javits Room, Melville Library. Call 632-7444.

Ward Melville High School Wind Ensemble Outdoor Concert. 10:10-10:25 a.m. Fine Arts Loop by the Staller Center.

Inauguration of President Shirley Strum Kenny. 11 a.m. Indoor Sports Complex.

Haitian Students Organization Cultural Fest. 11 a.m.-5 p.m. Fireside Lounge, SB Union.

Poetry Center Translation Symposium, "Translating Poetry: The Literary and Cultural Nature of the Art." Noon-6 p.m. (Noon-1:30 p.m.: The Critical/Creative Act of Translating Poetry; 2-3:30 p.m.: The Old Issue of Fidelity: To Whom? To What?; 4-6 p.m.: Bi-lingual Readings of Master Poets.) Room 239, Humanities. Free. Call 632-7400.

Inaugural Reception. 12:30 p.m. Physics Green. Informal campus-wide party with music and free refreshments.

Inaugural Luncheon. 1:15 p.m. Hosted by Thomas Galgano, Alumni Association president, and James Simon, chairman, Stony Brook Foundation Board of Trustees. SB Union Ballroom. For dignitaries and out-of-town guests.

Department of Linguistics Colloquium, "Nominalization, Causativization, and Passivization," Leonard Babby, Princeton University. 3:30 p.m. Room S-207, Social & Behavioral Sciences. Call 632-7777.

Non-instructional Figure Drawing Workshop. Live model. 7:30-9:30 p.m. Crafts Center, SB Union. \$5; pay at door. Call 632-6822.

Stony Brook Fencing Club. 8-10 p.m. Main Arena, Indoor Sports Complex. Call 588-3956.

C.O.C.A. Film, *Murder in the First.* (Also April 29 & 30). Friday/Saturday: 9:30 p.m. & midnight; Sunday: 7 & 9:30 p.m. Room 100, Javits Lecture Center. \$3; \$2/with I.D. Call 632-6472.

SATURDAY, APRIL 29

Non-instructional Life Drawing. 9:30 a.m.-12:30 p.m. Short poses. Room 4218, Staller Center. \$2/students; \$6/non-students. No pre-registration necessary. Call 632-7270, or Arthur Kleinfelder, 474-1887.

Seawolves Softball vs. Albany (DH). 1 p.m.

Seawolves Lacrosse vs. U.S. Naval Academy. 2 p.m. Athletic Field. *Televised on SportsChannel.*

Stony Brook Chorale. 8 p.m. Performance of Duruflé's *Requiem.* St. James Church, Setauket. \$6. Tickets at Staller Center Box Office, 632-7230.

HSC Employee Activities Trip, 1995 Tour of World Figure Skating Champions. 8:30 p.m. Nassau Coliseum. \$45/Lower-level seats. Call Carole Manning, 444-3645 or 444-2524.

Black Womyn's Weekend Party. 9 p.m.-2 a.m. SB Union Bi-level.

SUNDAY, APRIL 30

Non-instructional Life Painting. 9:30 a.m.-12:30 p.m. Long poses. Room 4218, Staller Center. \$2/students; \$6/non-students. No pre-registration necessary. Call 632-7270, or Arthur Kleinfelder, 474-1887.

Black Womyn's Weekend Picnic. Noon-7 p.m. Athletic Fields.

Seawolves Softball vs. New York University (DH). 1 p.m.

Stony Brook Fencing Club. 2-4 p.m. Main Arena, Indoor Sports Complex. Call 588-3956.

MONDAY, MAY 1

Summer Session Open Registration begins. Call 632-7790.

Resident Room Selection. (Also Tuesday, May 2.) 10 a.m.-4 p.m. For residents changing buildings. SB Union Ballroom. Call 632-6966.

FSA Flea Market. 10 a.m.-5 p.m. SB Union Bi-level.

Seawolves Softball vs. Southampton (DH). 3 p.m.

Undergraduate Recital. 5 p.m. Recital Hall, Staller Center. Free. Call 632-7330.

Chamber Music Spring Festival. 8 p.m. Recital Hall, Staller Center. Free. Call 632-7230.

TUESDAY, MAY 2

Family Medicine Grand Rounds, "Inpatient Presentation," Drs. Lesko, Randall, Fingergut, Singh. 8-9:30 a.m. Level 2, Lecture Hall 4, Health Sciences Center. Call 444-2300.

Harriman School for Management & Policy Seminar, "Two Croatian American Nonprofit Associations," S. Frlan, Esq., Espinoza and Frlan; M. Viskovic, M.E. APEX Engineering, Inc.; J. Skorin-Kapov, associate professor, Harriman School. 11:30 a.m.-12:30 p.m. Room 102, Harriman. Free. Call 632-7426.
