THE REV'D. J. N. STRASSMAIER, S.J.

## P R E F A C E.

---

THE present work was undertaken chiefly by the advice of Dr. BUDGE, Acting Assistant-Keeper of the Department of Egyptian and Assyrian Antiquities of the British Museum.

Very little connected, or what might properly be termed scientific work, has hitherto been done in this line of research. PATER STRASSMAIER in his *Alphabetisches Verzeichniss der Assyrischen und Akkadischen Wörter*, etc., has given extracts of a great many letters, but he has published very few complete texts. A number of these texts has appeared in the *Cuneiform Inscriptions of Western Asia* and in the *Trans. Soc. Bibl. Arch.* and *Proc. Soc. Bibl. Arch.*, edited chiefly by Mr. PINCHES. Mr. S. A. SMITH has published about seventy-five in his *Keilschrifttexte Asurbanipals* (1887) and in his *Assyrian Letters from the Royal Library at Nineveh* (1888). FRIEDRICH DELITZSCH has reproduced a few in transliteration in his *Assyrisches Wörterbuch* and in *Beiträge zur Assyriologie*. The texts presented by SMITH and by DELITZSCH have been carefully copied. I have found few readings requiring correction, and I, herewith, express my indebtedness to both of them. To PATER STRASSMAIER both for his published texts, and for numerous valuable suggestions, orally communicated, touching several letters contained in this first Part, I wish to make hearty acknowledgment.

In SMITH'S and DELITZSCH'S publications there is no principle of arrangement. Moreover, they have, for the most part, confined themselves to exhibited and extremely easy texts. In part explanation of this lack of arrangement, it must be said that it was almost impossible to attempt any complete work prior to the publication of Dr. BEZOLD'S *Catalogue of the Cuneiform Tablets in the Kouyunjik Collection of the British Museum* (Vols. I and II). This *Catalogue* has opened a new opportunity for work in all departments of Assyriological research. I am under the greatest obligations to Dr. BEZOLD for his *Catalogue*, which I have used freely, and without which I could not have undertaken the present work.

It is my purpose (1) to publish all the letters in the K. Collection in which the name of the scribe is to be found; (2) the best preserved and most important of those without signatures; and (3) a transliteration and either a tentative translation or a *résumé* of the contents (after the plan of Drs. BEZOLD and BUDGE in their *Tell el-Amarna Tablets in the British Museum*) together with a glossary. The texts alone will occupy three or four volumes, and the transliteration, translation and glossary at least two more. In other words, my purpose is to give a *Corpus Epistolarum* of the K. Collection. The plan of publication in this, as also in the forthcoming volumes, is to collect and arrange the letters according to the names of the scribes. I regard this as the only scientific method. Material for the explanation of the vocabulary and grammatical peculiarities can be obtained in this way better than in any other, e.g., compare in point of vocabulary and style the sixteen letters of Ramman-šum-uṣur placed at the beginning of this Part.

It has been my aim to publish all the letters in the K. Collection — up to 8,000 — belonging to the scribes

selected for this Part. Two or three which were doubtful have been omitted purposely. If others have been omitted they will be inserted in another Part. This plan necessitates the publishing of all texts. Some are very badly broken, and have been inserted only for the sake of completeness. Restorations have not been attempted, as they more naturally fall within the province of the commentary, in which I hope to add many textual notes. The head-lines are the most common readings of the names of the scribes found in the letters over which they stand.

In conclusion, I express my thanks to the authorities of the British Museum, and particularly to Dr. BUDGE, Acting Assistant-Keeper of the Department, for the ready assistance granted me, which in many ways has facilitated my work.

I wish especially to acknowledge my great indebtedness to Mr. THEO. G. PINCHES for his kindness in collating, with my copies, about three-fourths of the inscriptions published in this volume. I have received from him many valuable suggestions and corrections which have materially aided me in the study of these texts.

ROBERT FRANCIS HARPER.

AND ASSYRIAN ANTIQUITIES, BRITISH MUSEUM.

## P R E F A C E.

---

THE plan of publication in this volume is the same as that in Part I, which appeared in September, 1892, viz.:—to collect and arrange the letters in the K. Collection according to the names of the scribes. As in Part I, it has been my aim to publish all the letters in the K. Collection—up to 8,000—belonging to the scribes selected for this volume. If any have been omitted, they will be inserted in another part.

It will be seen, at a glance, that the scribes of Part II have left us fewer letters than those of Part I. In fact, in the case of many of them, all that remains of their correspondence is comprised in a single letter. In the classification of such scribes, no special order has been followed.

As already announced in the *Zeitschrift für Assyriologie*, it is my purpose also (1) to publish the letters, with signatures, from Kouyunjik contained in the other Collections of the British Museum, and (2) the best of those the signatures of which have been broken off. The plan of publication will be the same as that adopted in Parts I and II of the present work, in which the names of the correspondents have furnished the basis of classification. My reasons for regarding this as the only scientific method have already been given (*cf.* Part I, page vi). As a first instalment I have published an article in

the *Zeitschrift für Assyriologie*, VIII, 341, *sqq.*, on *The Letters of the R<sup>m</sup> 2 Collection of the British Museum*. I have there given the numbers of the letter-tablets of the Collection, and the text of fourteen, viz., Rm. 2, 1, 2, 3, 4, 5, 6, 7, 8, 11, 458, 459, 462, 463, and 464. From time to time there will be published in BEZOLD'S *Zeitschrift für Assyriologie* and HARPER'S *Hebraica* letters from the different Collections of the British Museum, with the exception of those in the K. Collection, which are appearing in book-form. The letters found in these Journals will be inserted, at a later date, in their proper places, in the proposed Series.

The letters of Bel-ibni (Nos. 13, 524, 597, 599, 680, 1926, 1964, 5062, 5398, etc.), Kudurru (Nos. 81, 82, 154, 1066, 1899, 6946, etc.), Nabû-ibašši (Nos. 79, 462, 514, 528, 1089, 1220, 4716, 4736, etc.), and others were prepared for this volume, but, for several reasons, they have been reserved for Part III, and others have taken their place.

I wish again to emphasize the fact that few restorations have been attempted. I have preferred to print the texts as they are found on the tablets. Restorations and textual notes will find a place in the Commentary, within the province of which they more naturally fall. The chief exception to this rule is in the introductions, the broken parts of which have generally been restored.

After I had completed this volume, 108 of the 112 pages of text being in print, WINCKLER'S *Sammlung von Keilschrifttexten*, II, *Texte verschiedener Inhalts* (40 pp.), appeared, in which seven of the texts here published are repeated. For all students who wish to do scientific work, the publication of "miscellaneous texts" ceased with the appearance of DR. BEZOLD'S Catalogue. There is no plan of arrangement in Winckler's book, and the texts, though not

poorly autographed, are in most cases very incorrectly copied. One cannot find any excuse for such a publication at the present time. *Cf. the Zeitschrift für Assyriologie*, VIII.

To DR. BEZOLD and MR. L. W. KING, for valuable suggestions, orally communicated, touching some of the letters contained in this second Part, I wish to make hearty acknowledgment.

In conclusion, I express my thanks to the authorities of the British Museum for the ready assistance granted me at all times, and particularly to DR. BUDGE, Acting Assistant Keeper of the Department, to whom I have the honor of dedicating this volume.

ROBERT FRANCIS HARPER.

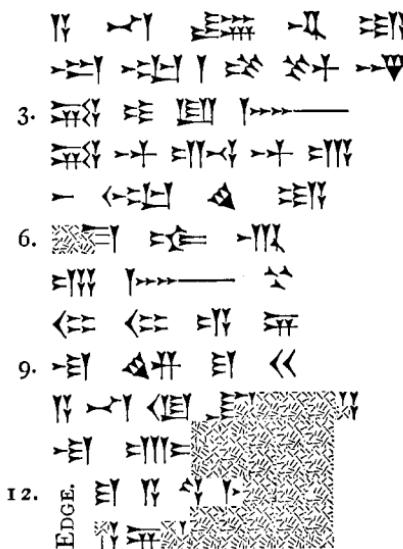

LONDON, *December 12th, 1893.*

- This image shows a horizontal strip of ancient Egyptian hieroglyphics, likely from a stela or a wall relief. The script is in a cursive, cartouche-like form. The characters are arranged in two rows, with some characters having multiple strokes. The background is a light beige color.

- 

- A black and white photomicrograph showing a dense, granular tissue structure. Scattered throughout the field are several small, dark, triangular or arrowhead-shaped features pointing downwards.

ASSYRIAN  
AND  
BABYLONIAN LETTERS

BELONGING TO

TO MY BROTHER,

WILLIAM RAINNEY HARPER, PH.D., D.D., LL.D.,

## P R E F A C E.

---

SINCE the publication of Part II of this Series, the third volume of BEZOLD'S *Catalogue of the Cuneiform Tablets in the Kouyunjik Collection of the British Museum* has appeared; as a necessary consequence, the plan of this work has been modified and extended. Parts I and II were necessarily confined to the Letters among the first 8,000 tablets of the K. Collection, the proportion of the Collection covered by the first two volumes of the *Catalogue*. As the rest of the K. nos. are now available for systematic study, I have included in the present volume Letters selected from the whole Collection. In all other respects, the plan is the same as in Parts I and II.

It will be obvious that, among the 6,068 tablets described in the third volume of the *Catalogue*, there are some Letters written by scribes whose correspondence, found among the first 8,000 tablets, has already been collected and published in the first two parts of this Series. It would have been possible, therefore, to have added these, as a supplement, to the present volume. On the whole, however, it has seemed more expedient to relegate such a supplement to a later place in the Series and to continue, as in the first two parts, to break fresh ground.

The present volume contains the texts of Kudurru, Bēl-ibni, and Nabû-ibašši, which were promised in the second. Some of the best preserved of the tablets belonging to these scribes have been published by S. A. SMITH in his *Keilschrifttexte Asurbanipals* (1887) and in his *Assyrian Letters from the Royal Library at Nineveh*. FRIEDRICH DELITZSCH has reproduced a few in transliteration in his *Assyrisches Wörterbuch* and in *Beiträge zur Assyriologie*. As I have already said in Part I, the texts presented by SMITH and by DELITZSCH have been carefully copied, and I have found few readings requiring correction. With such a large collection of Letters before them, it was only natural that the broken, defaced and most difficult of them were left by my predecessors for later workers to decipher and publish.

It is still my intention to give a *Corpus Epistolarum* of the *Kouyunjik Collections*. Instead of three or four volumes of texts, there will be eight or ten. According to BEZOLD'S *Catalogue* there are 1,575 Letters in the K. Collection alone. Of course, a large number of these are broken and contain only a few lines of text. My plan, however, necessitated the publishing of all Letter-texts; therefore those which are defective have been inserted. No complete knowledge of the Letter literature of the Assyrians can ever be acquired until the whole material has been published.

During my present stay in London I have been enabled, through the courtesy of DR. E. WALLIS BUDGE, the Keeper of the Department of Egyptian and Assyrian Antiquities, to copy a large number of the fine Letter-tablets contained in the other Collections from Kouyunjik, and these I propose to make the subject of the fourth volume of this Series. A number of the pages are already in type and I hope that the

volume will appear in the course of a few months. I shall, as far as possible, follow the plan I have adopted hitherto of publishing the Letters of each scribe together. How far, however, this plan will be modified will depend on the results to be obtained from a study of the fourth volume of BEZOLD'S *Catalogue*, which is announced to appear within the next few days.

I wish especially to acknowledge my great indebtedness to DR. E. WALLIS BUDGE, the Keeper of the Department, for the assistance granted me, which in many ways has facilitated my work.

ROBERT FRANCIS HARPER.
