Written Assignment: You Make the Decision

NAME_____ **Recitation#**_____

What You Are Doing: Within the next several days you will receive an e-mail from your professor. Your assignment is to evaluate the e-mail and any attachments and *make a decision* as to whether to pass it on to a friend, classmate or relative. What steps have you taken before making your decision? In 100-150 words explain why and how you made your decision and if you did pass on the e-mail, whether you included any comments. Attach a copy of the e-mail you received to your assignment.

Why You're Doing This: Assignment: In our last lecture, we discussed how in the Internet Age we are all not only news consumers, but publishers and broadcasters and why this role carries new responsibilities. This assignment will give you practice in exercising those responsibilities.
